Top Tips for Making the Most of Your Day!

1. Find Your Perfect Course

Not sure what you'd like to study? Try **Find My College Course**, TU Dublin's free online course-matching tool.

Before the Open Day, take a few minutes to answer some simple questions about your interests and favourite subjects. You'll receive personalised recommendations for TU Dublin courses that could be a great match for you.

Use your results to plan your Open Day! Your course recommendations can help you decide which information stands to visit, which talks to attend and what questions to ask our lecturers and students.

2. Plan Your Talks

Check the Open Day timetable in advance and decide which talks you'd like to attend. Some of our most popular talks fill up quickly, particularly earlier in the day, and entry will close once rooms reach capacity.

Most talks are repeated throughout the day, so consider attending a later session if your preferred talk is particularly popular. Plan your day to make the most of the talks, course information stands and campus tours, allowing time to move between buildings.

3. Visit Course Information Stands

Make time to explore the course stands, join a campus tour and chat with our lecturers and students. It's your chance to ask questions about courses, exams and assignments, work placements, studying abroad and future careers.

4. Take a Tour

Explore our Grangegorman campus on a guided campus tour or discover the facilities in our Academic Hub & Library.

Check the tour timetable for departure times and meeting points. Library tours have limited places, so sign up early at the Academic Hub Welcome Desk.

5. Discover Student Life

University is about more than lectures! Find out about our clubs, societies, sports facilities and the supports available to help you settle into university life.

Top Tip: Don't be afraid to ask questions! Our staff and students are here to help you make informed choices about your future.
