Subject: Moving to Level 3 - Preventing the spread of COVID-19 - updated link
Date: 01 December 2020 18:09:01

Apologies for re-sending due to broken links

Dear Colleagues

While everyone will welcome the move to Level 3 today, there will be no significant change in terms of on-campus activity for now. The President has confirmed to all students that TU Dublin **will continue with the current mode of delivery for the remainder of this semester** and **any changes for Semester 2 will depend on guidelines from Government from January 2021.**

In the meantime, with more people meeting up from now on, it is important that we continue to follow the key precautions to protect ourselves and others, so please remember:

- [Wear an effective face-covering on campus – **not** a visor or face shield](#)
- Sanitise hands on arrival and wash hands frequently while on campus
- Keep 2 metres distance from others and don't congregate in groups
- Remember to cover coughs and sneezes
- Where possible open windows and doors
- [Download the COVID Tracker](#)

- Here is a quick reference guide to what to do if [you, a colleague, or a student](#) become unwell with possible COVID-19 symptoms on campus.

- **In line with government guidelines, wearing a face-covering is mandatory in the Library as well as in all other indoor areas on campus.** If anyone, for reasons of disability or a medical condition, cannot wear a face covering, they should consult the Disability Service or their GP for advice. These precautions are in place to protect the health of all students and staff on campus.

We will continue to provide updated information on the university's response plan to COVID-19 on www.tudublin.ie/covid19 and on the [intranet](#).

Best wishes

Communications Team
