Subject: Examinations UPDATE

Dear Students,

As you are aware, we continue to live and work within the context of rapidly changing COVID-19 numbers. As a result, the University has made some key decisions regarding the Semester 1 assessments scheduled to take place from next week. The specific points are:

- All written face-to-face examinations scheduled for the Semester 1 assessment period will either be delivered online (through an online examination or remote assessment) or rescheduled.
- Remote examinations already scheduled to take place in January will take place as scheduled.
- Practical (particularly one-to-one) assessments will take place as scheduled, with the appropriate risk assessments in place. **Please note that Schools will confirm and clarify details of this directly to you.**
- Schools will review planned face-to-face examinations during the w/c 3rd January in to pivot to online examinations or remote assessments within the January assessment period where possible. **Details of this will be communicated to you by your School in due course.**
- Remaining, required, face-to-face examinations will be held in March 2022 i.e. during Semester 2 Reading Week.

Best wishes and stay safe.

Dr Mary Meaney
Registrar and Deputy President
