**Subject:** Some tips for the second part of Semester 1  
**Date:** Monday 2 November 2020 08:58:33

---

Dear Student,

We are now half-way through Semester 1 and we hope your lectures and assessments are going well. It's always helpful to speak with classmates to discuss your college work so we recommend that you use [Microsoft Teams](#), to set up virtual chats to share problems, study tips and to work on projects. This is also a handy way to just catch up with your friends. You can find more information about using Microsoft Teams, including downloading the app for your laptop or phone, [here](#).

If you are timetabled to be on campus for classes this semester, we want to remind you to always:

- [Wear your face-covering correctly at all times](#)
- [Sanitise your hands on arrival and wash your hands frequently](#)
- [Remember good cough etiquette](#)
- Read this [guide](#) on what to do if you experience any COVID-19 symptoms during a class such as fever, a cough, difficulty breathing or a loss or change in taste or smell.

Finally, we **all** must remember that [under current public health restrictions](#) gatherings, both indoor and outdoor, are not permitted. This means that students can only meet up on campus during scheduled classes. Gathering outside classes, in hallways, canteens, coffee shops, common rooms or other common spaces are NOT allowed. Please take note of maximum occupancy notices in all rooms.

Please stay well and for the latest updates on COVID-19, please visit <https://www.tudublin.ie/covid19/>

Best wishes,  
TU Dublin
