School Response to Recommendations of the Validation Panel for the PgCert in Business Sustainability Leadership

Recommendation 1

Clarify if this programme should be classified or not classified in terms of the development of the future progression opportunities. The panel encourages the programme team to develop a progression PgDip for the applicants.

School Response

The programme will be classified to facilitate the progression of graduates through a flexible and structured post graduate diploma and masters qualification.

Recommendation 2

Elaborate and clarify in the module descriptors the assessment requirements e.g. What is meant by digital artefact.

School Response

Student Handbook has been updated to reflect this additional description.

Recommendation 3

Reword some programme learning outcomes to use active verbs that show what the student will be able to do on successful completion of the programme.

School Response

PLOs have been updated.

Recommendation 4

Include the details on the number of re-assessment attempts in the Student Handbook.

School Response

Re-assessment attempts are now captured in the student handbook.

Recommendation 5

Edit the programme documents to remove editorial inconsistencies (e.g some descriptors have 5 ECTS instead of 10).

School Response

This is now completed.

The school would like to express a thank you to the panel for their constructive discussion and positive engagement in the validation process.
