Code of Governance for the Technological University Dublin

Approved by TU Dublin Governing Body 10th April 2019
Amended by TU Dublin Governing Body 24th March 2021
Preface

Good governance arrangements are essential for organisations large and small and whether operating in the public or private sector. Governance comprises the systems and procedures under which organisations are directed and controlled. A robust system of governance is vital in order to enable organisations to operate effectively and to discharge their responsibilities as regards transparency and accountability to those they serve. Given their pivotal role in society and in national economic and social development, as well as their heavy reliance on public as well as private funding, good governance is particularly important in the case of Universities.

The Government introduced a Code of Practice for the Governance of State Bodies in 2001 and the Institutes of Technology implemented a Code in compliance with this in 2008. Following the introduction of the revised Code of Practice for the Governance of State Bodies in 2009, the Institutes adopted a revised Code of Practice for the Governance of Institutes of Technology in 2012. In addition the Institutes also developed and implemented Good Practice Guidelines for Governing Body in 2010. In 2017, THEA established a Project Working Group, which engaged THEA’s Internal Auditors, PwC, to draft the revised Code for the Governance of Institutes of Technology, bringing the original Code of Practice in line with the revised 2016 Code of Practice for the Governance of State Bodies. The HEA was consulted at various stages of the project and provided an initial analysis of the 2016 Code sections which were not relevant to the educational sector. The Code was drafted taking the original 2016 Code of Practice for the Governance of State Bodies as its starting point. This document was adapted or expanded to bring the THEA Code in line with Technological Universities Act 2018. The Code of Governance for Technological University Dublin (TU Dublin) is hereafter referred to as the “Code of Governance for TU Dublin” or “the Code” and replaces any previous Codes of Governance and Good Practice Guidelines.

Following the publication in September 2020 of the Annex to the 2016 Code of Practice for the Governance of State Bodies, this document was further revised the required amendments taking into account the Technological Universities Act 2018.

It should be noted that:

▪ this Code should be read in conjunction with the legislative provisions which govern the Technological University. Existing legislative provisions applying to the Technological University on matters that are also the subject of this Code, continue to apply and for the avoidance of doubt, in the event of any conflict or inconsistency, the legislative provisions prevail. The Code includes legislative references where relevant.

▪ provisions contained in this Code, including financial thresholds, may be amended from time to time by the Minister for Public Expenditure and Reform, having consulted with relevant Ministers;

▪ the Minister for Public Expenditure and Reform may issue circulars and/or guidance notes, from time to time, in relation to this Code; and

▪ this Code does not intend to address academic governance matters which is subject to separate legislation.
It is also noted that the *Code of Practice for the Governance of State Bodies, which forms the basis of this Code*, will be a living document which will evolve in line with best practice. The most recent version of the *Code of Practice for the Governance of State Bodies* is available on the Department of Public Expenditure and Reform Government Accounting website (govacc.per.gov.ie/governance-of-state-bodies). Similarly it is intended that this document will also be a living document and evolve over time in line with both best practice and legislative changes.

The most recent version of this Code of Governance for the Technological University Dublin is available on TU Dublin website.

Introduction

Corporate governance comprises the systems and procedures by which organisations are directed, controlled and managed. The Technological University Dublin (TU Dublin), should serve the interests of Government as shareholder, the taxpayer, students and all other stakeholders, and pursue value for money in its endeavours, including managing risk appropriately. TU Dublin should act prudently, ethically and with transparency as public entities and should conduct its activities consistent with its statutory responsibilities.

As outlined in section 8 (1) of the Technological Universities Act, 2018, TU Dublin is a “...body corporate with perpetual succession and power to sue and be sued in its corporate name and may, with the consent of the Minister and the Minister for Public Expenditure and Reform, acquire, hold and dispose of land, an interest in land or other property.”

Also outlined in section 10 (1) (a) of the Technological Universities Act, 2018, TU Dublin “...in performing its functions, shall have the right and responsibility to preserve and promote the traditional principles of academic freedom in the conduct of its internal and external affairs.”

High standards of corporate governance in TU Dublin are critical to ensuring a positive contribution to the State’s overall economic efficiency, competitiveness, social cohesion and regional development.²

The Governing Body and Management of TU Dublin are accountable for the proper management of the organisation. Governing Body members and employees of the Technological University and its subsidiaries should be strongly guided by the principles set out in this Code in meeting their responsibility to ensure that all activities, whether covered specifically or otherwise in this document, meet the highest standards of corporate governance.

Good governance encourages better informed and longer term decision-making as well as the efficient use of resources. It strengthens accountability for the stewardship of resources and is characterised by robust scrutiny which places ongoing emphasis on improving public sector performance.³

The corporate governance framework typically comprises elements of legislation, regulation, self-regulatory arrangements, voluntary codes, commitments and business practices that have evolved within the organisation.

² Adapted from the “Guidelines on Corporate Governance of State-Owned Enterprises” (OECD, 2015) page 11

³ “International Framework: Good Governance in the Public Sector” (IFAC/CIPFA, July 2014) page 6
About this Code

The Code provides a framework for the application of best practice in corporate governance by TU Dublin. TU Dublin should demonstrate its commitment to achieving the highest possible standards of corporate governance.

TU Dublin and its subsidiaries are required to confirm to the Minister of Education & Skills, and the HEA, as appropriate, that they comply with the Code of Practice for the Governance of State Bodies, as encapsulated by this Code, in its governance practices and procedures. A separate Code of Governance for Subsidiaries has been developed and is being updated to reflect the requirements of this Code. The requirements should be applied in all trading subsidiaries and, as appropriate, in joint ventures of TU Dublin. Appropriate confirmation should be provided to the relevant Minister in relation to these.

The Code concerns both the internal practices of the Technological University and its external relations with Government, the Minister of Education & Skills, and the Minister for Public Expenditure and Reform. Reference is made to ethics in public office obligations that apply to all designated Governing Body members and designated office holders.

The Code of Practice for Governance of State Bodies recognises that all aspects of that Code may not necessarily be appropriate for some smaller State bodies. Accordingly, certain requirements have been identified as proportionately applicable to the Technological University and reflected in this Code.

The provisions of this Code do not override existing statutory requirements and other obligations imposed by the Companies Act 2014, Ethics in Public Office legislation, the specific statutory provisions relating to the Technological University themselves and any other relevant legislation (e.g. equality legislation, employment legislation).

Oversight Agreements

Clear accountability underpins effective relations between Government Departments and the State bodies under their aegis. Effective accountability depends upon respective roles and responsibilities being clearly defined and understood on both sides of the agreement.

The starting point for clarity of accountabilities is the oversight agreement between the Minister/Department
of Education and Skills / HEA as its representative agency and TU Dublin. The oversight agreement is a written statement between the Minister/Department of Education and Skills / HEA as its representative agency and TU Dublin which clearly defines the terms of the Department of Education & Skills relationship with the University.

The oversight agreement should reflect TU Dublin framework; the environment in which the University operates (e.g. commercial, non-commercial, regulatory body); the purpose and responsibilities of TU Dublin; TU Dublin’s level of compliance with this Code; details of the Performance Delivery Agreement (e.g. outputs to be delivered); and arrangements for oversight, monitoring and reporting on conformity with Government policy including those actions and areas of expenditure where prior sanction from the Department of Education & Skills and/or the Department of Public Expenditure and Reform is required.

The details of the Oversight Arrangements and Agreements are set out in Section 8.

Compliance Requirements

TU Dublin has a responsibility to implement good corporate governance standards.

TU Dublin should reach agreement and formally document with the Minister/Department of Education & Skills/ the HEA as its representative the extent to which the compliance requirements in this Code might be suitably adapted in its case. TU Dublin should then note the agreement reached in its annual report and explain whether the requirements are to be phased-in over a longer period of time, or otherwise varied in some way.

Comply or Explain

As outlined, exemptions from specific provisions in this Code may be justified in certain situations provided the objectives of those provisions can be achieved by other governance measures. If TU Dublin has derogations from the provisions of this Code it should also have explanatory notes written into its oversight agreement with the Minister / Department of Education and Skills with reasons for the exemptions clearly explained.

Legislative References

The Technological University Act 2018 imposes a number of considerable governance requirements on TU Dublin, and reference to key relevant sections are listed in Appendix B.
Governance Framework

The Governance Framework schematic on the previous page shows the main features of the governance framework relationship between Government and TU Dublin. The diagram does not purport to cover all aspects of this relationship which will vary depending on the differing nature, scale and responsibilities of TU Dublin and the governing legislation establishing TU Dublin.

TU Dublin has governing legislation which provides for, inter alia, the appointment of the Governing Body and the Chairperson, for the approval of the form of the annual report and financial statements, and for the furnishing of such information as the Minister may require. The Chairperson and Governing Body are ultimately responsible to the Minister (who is responsible to Government) for the operation and proper functioning of TU Dublin.

The functions and duties of the Governing Body are set out in the governing legislation of the Technological University. The Governing Body should, using its high level functions and duties as a guide, prepare customised /standing orders for the Governing Body.

The President shall, whenever required to do so by the Public Accounts Committee (PAC) of the Oireachtas, give evidence on the regularity and proprietary of TU Dublin’s accounts, economy and efficiency of use of resources, effectiveness of operations and any other matters referred to the committee by C&AG.
1. Role of the Governing Body

Guiding Principles

TU Dublin should be clear about its mandate and from that identify the various functions, roles and responsibilities entailed in the delivery of that mandate.

The Governing Body is collectively responsible for leading and directing TU Dublin’s activities. While the Governing Body may delegate particular functions to management the exercise of the power of delegation does not absolve the Governing Body from the duty to supervise the discharge of the delegated functions.

The Governing Body should fulfil key functions, including: reviewing and guiding strategic direction and major plans of action, risk management policies and procedures, annual budgets and business plans, setting performance objectives, monitoring implementation and TU Dublin performance, and overseeing major capital expenditure and investment decisions.\(^4\)

The Governing Body should act on a fully informed and ethical basis, in good faith, with due diligence and care, and in the best interest of TU Dublin, having due regard to its legal responsibilities and the objectives set by Government.

The Governing Body should promote the development of the capacity of TU Dublin including the capability of its leadership and staff.

The Governing Body is responsible for holding the President and senior management to account for the effective performance of their responsibilities.

- to have regard to interests of TU Dublin’s members.

The powers of governance and management of TU Dublin are delegated by the members of TU Dublin to the Governing Body and the Governing Body owe their duties, first and foremost, to TU Dublin.
3.2 Subsidiary Boards & the Companies Act 2014: Under the Companies Act 2014 there is specific statutory recognition for the fiduciary duties of directors of companies incorporated under the Companies Act, 2014 or the Companies Acts, 1963-2013. While TU Dublin is not incorporated under the Companies Act 2014, Boards of TU Dublin subsidiaries formed under the Companies’ Acts must adhere with the specific duties and obligations they have under the Companies Act 2014. It is the responsibility of each Board member to act in conformity with applicable provisions.

A Board member, as a company director, shall comply with the notification requirement to the Registrar of Companies upon becoming a Board member with a signed statement in the following terms:

"I acknowledge that, as a director, I have legal duties and obligations imposed by the Companies Act, other statutes and common law".

Part 5 of the Companies Act 2014 consolidates the duties and responsibilities of directors in one unified code for clarity and transparency. The Companies Act, 2014 applies to all company directors, incorporated under the provisions of the Companies Act, 2014 or under any former company law enactment including those directors that have been formally appointed and to de facto directors.

The Companies Act 2014 also includes a number of general duties for directors:

- Directors must ensure compliance with the Companies Act and the various tax acts.
- Directors must ensure that the company secretary is suitably qualified.
- Directors must acknowledge the existence of their duties by signing a declaration to that effect.
- Directors must take into account the interests of the members of the company and have regard to the interests of the employees.
- Restrictions on loans, quasi loans, credit transactions and certain guarantees and security exist for directors, but will be subject to the new summary approval procedure.
- Directors must disclose any interests in contracts made by the company.
- Directors must notify the company of any interests in shares in the company, its parent or subsidiary but no obligation arises if the shares held represent less than 1% of the share capital of the company or the shares do not have voting rights.

Directors who are found to be in breach of their duties will be liable to account for any gains accrued and must indemnify companies for losses resulting from any breaches of duties. A court may grant relief from liability where it is satisfied that a director acted honestly and reasonably at all times.

3.3 Non-compliance: If a Governing Body member finds evidence that there is non-compliance with any statutory obligations that apply to TU Dublin or its subsidiaries, he/she should immediately bring this to the attention of their fellow members of the Governing Body with a view to having the matter rectified.

The matter should also be brought to the attention of the HEA by the Chairperson indicating (i) the consequences of such non-compliance and (ii) the steps that have been or will be taken to rectify the position. It is the Chairperson’s responsibility to make such issues known to the Minister.

The HEA must be notified without delay where:
i) there are serious weakness in controls that have not been addressed despite being drawn to the attention of the Governing Body or the Chairperson;
ii) there is a significant strategic or reputational risk to TU Dublin that is not being addressed; and/or
iii) there are serious concerns about possible illegality or fraud occurring in TU Dublin. A Governing Body member may have obligations under company law (if it applies) in situations where TU Dublin or its subsidiary is not being conducted in accordance with law.

3.4 Professional Advice: The Governing Body should, in a Governing Body resolution, lay down formal procedures whereby Governing Body members, in the furtherance of their duties, may take independent professional advice, if necessary, at the reasonable expense of TU Dublin where they judge it necessary to discharge their responsibilities as Governing Body members. The Governing Body should have in place a procedure for recording the concerns of Governing Body members that cannot be resolved.

3.5 Letter of Appointment: A formal standard letter of appointment should be issued to new Governing Body members from the Minister for Education and Skills. The letter of appointment should include the following:

- role of the Governing Body and that of a Governing Body member;
- the Governing Body’s terms of reference;
- duration of appointment and renewal provisions;
- support and training to be provided;
- the time commitment involved;
- level of remuneration;
- conflict of interest rules;
- termination arrangements; and
- Rules on confidentiality.

The letter is to be provided to the Secretary of the Governing Body for record.

Briefing for New Members of the Governing Body

3.6 On the appointment of new members of the Governing Body, the Secretary of the Governing Body should provide them with the following information:
- a formal schedule of matters reserved to the Governing Body for decision (see paragraph 1.7);
- procedures for obtaining information on relevant new laws and regulations
- procedures to be followed when, exceptionally, decisions are required between Governing Body meetings;
- a schedule detailing the composition of all Governing Body committees and their terms of reference;
- a statement explaining the Governing Body members’ responsibilities in relation to the preparation of the financial statements, TU Dublin’s system of internal control and audit and for reporting on the business as a going concern with supporting assumptions or qualifications as necessary;
- a statement informing Governing Body members that they have access to the advice and services of the Secretary, who is responsible to the Governing Body for ensuring that procedures are followed and that these procedures comply with the applicable rules and regulations;
- a copy of the code of ethics/conduct for Governing Body members, including requirements for disclosure of members’ interests and procedures for dealing with conflict of interest situations;
- specific information on the role and responsibilities of TU Dublin;
- a copy of relevant legislation (or excerpts thereof) together with the most up to date version of this Code and any relevant circulars and/or guidance notes; and
- a listing of the statutory requirements relating to TU Dublin.

3.7 Independent judgement: All members of the Governing Body should bring an independent judgement to bear on issues such as strategy, performance, resources, key appointments, and standards of conduct. Section 3 of this Code sets out the approach to dealing with any business or other interests of a Governing Body member that could affect his/her independence.

3.8 Attendance Requirement: Members of the Governing Body are appointed as they bring specific knowledge, skills, experiences and expertise to the deliberations of the Governing Body and its committees and this is only possible if members attend all meetings and contribute as appropriate. The Governing Body should clarify an expectation of 100% attendance at all Governing Body meetings and, as part of the assignment of a new Governing Body member, evaluate attendance where the member may be re-appointed.

3.9 Access to Secretary of the Governing Body: All members of the Governing Body should have access to the advice and services of the Secretary of the Governing Body, who is responsible to the Governing Body for ensuring that Governing body procedures are complied with. The Secretary of the Governing Body is also responsible for the formal induction of new Governing Body members and organising mentoring for members where required.
4. Governing Body Effectiveness

Guiding Principles

The Governing Body and its committees should have the appropriate balance of skills and knowledge to enable them to discharge their respective roles and responsibilities effectively.11

Governing Body members should receive formal induction on joining the Governing Body and should regularly update and refresh their skills and knowledge.12

The Governing Body should be supplied in a timely manner with information in a form and of a quality appropriate to enable it to discharge its duties.13

Governing Body members need to be able to allocate sufficient time to discharge their responsibilities effectively.14

The Governing Body should undertake an annual self-assessment evaluation of its own performance and that of its committees. Evaluation of the Governing Body should consider the balance of skills, experience, independence and knowledge of TU Dublin on the Governing Body, its diversity, including gender, how the Governing Body works together as a unit, and other factors relevant to its effectiveness.15

The Chairperson should act on the results of the performance evaluation by addressing any weaknesses identified through the Governing Body self-assessment evaluation.

4.2 **Skills and Knowledge:** Governing Body members should have the appropriate skills and knowledge, updated as required, appropriate to the activities of TU Dublin, to enable them to discharge their respective duties and responsibilities effectively. This should include the identification by the Governing Body of any gaps in competencies and ways these gaps could be addressed through future appointments.

4.3 **Specific Skills:** In compliance with the Guidelines on Appointments to State Boards, in preparing a specification for a role on a Governing Body the Minister for Education & Skills will consult with the Chairperson of the Governing Body to seek his or her view on the specific skills that are required on the Governing Body.

In addition Section 12 (4) of the Technological Universities Act 2018 applies here:

Before appointing members under subsection (1)(h) or (2)(h) the governing body shall agree with An tÚdarás the competencies required of such members relating to areas such as business, enterprise, finance, law, corporate governance, human resources, community organisation or other areas relevant to the functions of the technological university.

Section 12 (5) (b) of the Technological Universities Act 2018 applies here:

In making regulations of a technological university under paragraph (a) the Technological university shall have regard to the objective that at least 40 per cent of members of the governing body shall be women and at least 40 per cent shall be men.

4.5 **Terms of Appointment:**
The terms of appointment of Governing Body members are made in line with the Technological Universities Act 2018 Section 12.

4.6 **Performance Review:** Monitoring of effective corporate governance by the Governing Body includes continuous review of the internal structure of TU Dublin to ensure that there are clear lines of accountability for management throughout TU Dublin. In addition to requiring the monitoring and disclosure of corporate governance practices on a regular basis, the Governing Body should undertake an annual self- assessment evaluation of its own performance and that of its committees. An external evaluation proportionate to the size and requirements of TU Dublin should be carried out at least once in the term of every Governing Body. These evaluations should incorporate a detailed analysis of the gender, diversity and skills mix within the Governing Body. Please refer to Appendix N Governing Body Self-Assessment Evaluation Questionnaire.
4.7 **Statement of How the Governing Body Operates:** The annual report should include a statement of how the Governing Body operates.

4.8 **Appointment of President as Chairperson:** In general, the President should not go on to be the Chairperson of TU Dublin.

   A President shall not hold any other office or position without the consent of the Governing Body.

4.9 **Frequency of Governing Body Meetings:** The frequency of meetings of the Governing Body and its committees and the attendance of each Governing Body member at Governing Body meetings should be reported in the annual report.

5. Codes of Conduct, Ethics in Public Office, Additional Disclosure of Interests by Governing Body Members and Protected Disclosures

Guiding Principles

To ensure continued integrity and transparency, and to avoid public concern or loss of confidence, the Governing Body should ensure that appropriate policies are in place so that members and staff take decisions objectively and steps are taken to avoid or deal with any potential conflicts of interest, whether actual or perceived.\(^\text{16}\)

These policies should ensure that any potential or actual conflicts of interest arising in the case of decision-making by Governing Body members and TU Dublin’s employees are addressed.

The Ethics in Public Office Acts 1995 to 2001 set out statutory obligations which apply to Governing Body members and employees separately from the provisions of this Code.

Code Provisions

5.1 **Codes of Conduct:** TU Dublin should have published Codes of Conduct for its Governing Body and employees. The codes should be developed via a participative approach and should be approved by the Governing Body taking into account the implications of all the relevant provisions of the Technological University Act 2018 as well as the Ethics in Public Office Act 1995 and Standards in Public Office Act 2001. A suggested framework for such a code is contained in Appendix D. The Code of Conduct, a copy of which should be made available to all members of Governing Body and Employees for their retention, should embrace such matters as duty to TU Dublin, principles for addressing conflict of interest, limits on outside activities, acceptance of gifts and honesty in dealings. The up-to-date codes of conduct should also be available upon request with a copy of each such code being accessible through TU Dublin’s website and brought to the attention of all Governing Body members, management and employees.

5.2 **Scope of Application:** The Code of Conduct should contain a description of nature, intent and scope of application of the Code and a statement of the guiding principles and obligations.

\(^{16}\) Adapted from “International Framework: Good Governance in the Public Sector” (IFAC/CIPFA, July 2014) pages 13-14
5.3 **Compliance Requirements:** The Code of Conduct should refer to the need for the Governing Body and staff to comply with relevant legislative and regulatory requirements. The Code of Conduct for Subsidiaries should also refer to the need for the Governing Body and staff to comply with relevant legislative and regulatory requirements. It should identify the relevant provisions regarding conduct/conflicts of interest in the governing legislation of TU Dublin.

5.4 **Ethics in Public Office:** The Code of Conduct should refer to the need for each member of the Governing Body holding a Designated Governing Body membership and each person occupying a Designated Position of employment with TU Dublin to ensure his/her compliance with relevant provisions of the Ethics in Public Office Acts 1995 and 2001. Each Governing Body member, whether he/she holds a designated directorship under the Ethics in Public Office Acts 1995 and 2001 or not, is required to follow the obligations set out in Appendix C regarding disclosure of interests.

As a matter of best practice, this Code requires each Governing Body member to submit, under the Ethics in Public Office Acts, an Annual Return including a nil return of interests where applicable. This ensures that there is evidence that each member has considered their obligations.

5.5 **Conflicts of Interest:** The Code of Conduct should set out procedures for addressing conflicts of interest. In particular the Code of Conduct should recommend that the acceptance of further employment where the potential of conflict of interest arises should be restricted during a reasonable period of time after the exercise of a function in TU Dublin has ceased. This should be brought to the attention of Governing Body members on their appointment to the Governing Body.

5.6 **Non-disclosure of Information:** The Code of Conduct should make clear that obligations of the Governing Body and employees regarding the non-disclosure of privileged or confidential information do not cease when their membership or employment in TU Dublin has ended. This should be brought to the attention of employees and of Governing Body members on their appointment to the Governing Body. Former Governing Body members should treat commercial information received while acting in that capacity as confidential.

5.7 **Document Retention:** Governing Body members should not retain documentation obtained during their terms as members and should return such documentation to the Secretary of the Governing Body or otherwise indicate to the Secretary of the Governing Body that all such documentation in their possession has been disposed of in an appropriate manner. In the event that former Governing Body members require access to Governing Body papers from the time of their term on the Governing Body, this can be facilitated by the Secretary of the Governing Body.

Additional Disclosure of Interests by Governing Body Members

Code Provisions

5.8 Disclosure of Interests by Governing Body Members

i) Periodic Disclosure of Interests: On appointment and annually thereafter, each member of the Governing Body should furnish to the Secretary of the Governing Body or other nominated person a statement in writing of:

(a) the interests of the Governing Body member;
(b) the interests, of which the Governing Body member has actual knowledge, of his or her spouse or civil partner, child, or child of his/her spouse or civil partner;

which could materially influence the Governing Body member in, or in relation to, the performance of his/her official functions by reason of the fact that such performance could so affect those interests as to confer on, or withhold from, the Governing Body member, or the spouse or civil partner or child, a substantial benefit.

For the purposes of this disclosure, interests has the same meaning as that contained in the Ethics in Public Office Act 1995. The statement of interests form used for annual statements under the 1995 Act could be utilised for this purpose on an administrative basis. Where the Governing Body member is also a designated director for the purposes of the Ethics Acts, the annual statement of interests furnished in January each year under section 17 of the Ethics in Public Office Act 1995 will suffice for the purposes of the annual disclosure of interests under this Code.

ii) Disclosure of interest relevant to a matter which arises: In addition to the periodic statements of interest required under (i) above, members of the Governing Body are required to furnish a statement of interest at the time where an official function falls to be performed by the Governing Body member and he/she has actual knowledge that he/she, or a connected person as defined in the Ethics Acts, has a material interest in a matter to which the function relates. For the purposes of this disclosure, material interests has the same meaning as that contained in the Ethics in Public Office Act 1995.

iii) Doubt: If a Governing Body member has a doubt as to whether an interest should be disclosed pursuant to this Code, he/she should consult with the Chairperson of the Governing Body and/or the nominated person in TU Dublin for dealing with such queries.

iv) Confidential Register: Details of interests disclosed under this Code should be kept by the Secretary of the Governing Body or other nominated person in a special confidential register. Access to the register should be restricted to the Chairperson and Secretary of the Governing Body and other members of TU Dublin on a strictly need to know basis.

v) Chairperson’s Interests: Where a matter relating to the interests of the Chairperson arises, the other members attending the meeting shall choose one of the members present at the meeting to chair the meeting. The Chairperson should absent himself/herself when the Governing Body is deliberating or deciding on a matter in which the Chairperson or his/her connected person has an interest.
vi) **Documents withheld:** Governing Body or TU Dublin documents on any deliberations regarding any matter in which a member of the Governing Body has disclosed a material interest should not be made available to the Governing Body member concerned.

vii) **Early return of documents:** As it is recognised that the interests of a Governing Body member and persons connected with him/her can change at short notice, a Governing Body member should, in cases where he/she receives documents relating to his/her interests or of those connected with him/her, return the documents to the Secretary of the Governing Body at the earliest opportunity.

viii) **Absent:** A member of the Governing Body should absent himself/herself when the Governing Body is deliberating or deciding on matters in which that member (other than in his/her capacity as a member of the Governing Body) has declared a material interest. In such cases consideration should be given as to whether a separate record (to which the Governing Body member would not have access) should be maintained. (NB. Members of the Governing Body who are designated directors should note the separate requirements under the Ethics in Public Office Acts 1995 and 2001 regarding a ‘material interest’).

ix) **Uncertainty:** Where a question arises as to whether or not an interest declared by a Governing Body member is a material interest, the Chairperson should determine the question as to whether the provisions of this Code apply. Where a Governing Body member is in doubt as to whether he or she has an obligation under the Ethics in Public Office Acts 1995 and 2001, he or she should seek advice from the Standards in Public Office Commission under section 25 of the Ethics in Public Office Act 1995.

5.9 **Other Membership Conditions:** The Technological Universities Act 2018 provides for the following under Schedule 1 section (4):

A member of the governing body shall cease to be qualified for office and shall cease to hold office if he or she—

(a) is adjudicated bankrupt,
(b) makes a composition or arrangement with creditors,
(c) is sentenced by a court of competent jurisdiction to a term of imprisonment,
(d) is convicted of any indictable offence in relation to a company or any other body corporate,
(e) is convicted of an offence involving fraud or dishonesty,
(f) has a declaration under section 819 of the Companies Act 2014 made against him or her or is deemed to be subject to such a declaration by virtue of Chapter 5 of Part 14 of that Act, or
(g) is subject or is deemed to be subject to a disqualification order, within the meaning of Chapter 4 of Part 14 of the Companies Act 2014, whether by virtue of that Chapter or any other provision of that Act.

Where any of the above applies, the Governing Body member must inform the Chairperson immediately and tender their resignation from the Governing Body.
Protected Disclosures Legislation

5.10 **Protected Disclosures Act 2014**: Section 21 of the Protected Disclosures Act 2014 requires that TU Dublin shall establish and maintain procedures for the making of protected disclosures by workers who are or were employed by TU Dublin and for dealing with such disclosures. Written information in relation to those procedures must be provided to workers employed by TU Dublin.

5.11 **Guidance**: The Minister for Public Expenditure and Reform has published Guidance for the purpose of assisting public bodies in the performance of their functions under section 21(1) of Protected Disclosures Act 2014 (available on the Department of Public Expenditure and Reform website). TU Dublin shall have regard to this Guidance when establishing and maintaining their own protected disclosures procedures under the Act.

5.12 **Annual Report**: TU Dublin shall publish a report on protected disclosures in accordance with Section 22 of the Protected Disclosures Act 2014 not later than 30 June in each year.

Guiding Principles

Taking account of public accountability and the special considerations which attach to TU Dublin in relation to its management and operation, the annual report and financial statements, taken as a whole, should be fair, balanced and understandable and provide the information necessary for an assessment of TU Dublin’s financial performance, financial position, business model and strategy.\(^{17}\)

A fundamental duty of the Governing Body is to ensure that a balanced, true and fair view of TU Dublin’s financial performance and financial position is made when preparing the annual report and financial statements of TU Dublin and when submitting these to the HEA and Minister for Education and Skills.

The Governing Body should ensure that timely and accurate disclosure is made to the Minister on all material matters regarding TU Dublin, including the business context, financial performance and position, and governance of TU Dublin.\(^ {18}\)

Code Provisions

The publication of an annual report and audited financial statements is a primary expression of public accountability for TU Dublin. The objective of financial statements is to provide information about the financial performance, position and cash flows of TU Dublin that is useful for economic decision-making for a broad range of stakeholders.\(^ {19}\)

The Governing Body of TU Dublin is required to arrange for the preparation of the financial statements in respect of each financial year. The annual financial statements are prepared from the information contained in TU Dublin’s accounting records and other relevant information and in accordance with the accounting standards applicable to TU Dublin in a form as may be approved by the HEA.

\(^{17}\) Adapted from the Financial Reporting Council’s “UK Corporate Governance Code” (2016) page 16

\(^{18}\) Adapted from “G20/OECD Principles of Corporate Governance” (OECD, September 2015) page 41

\(^{19}\) Adapted from “FRS 102” (Financial Reporting Council, September 2015) page 28
The Governing Body must present TU Dublin’s financial statements that give a true and fair view of the income, expenditure (financial performance), assets, liabilities and capital (financial position) of TU Dublin as at the financial year end.

Reference to financial statements giving a “true and fair view” means in the case of an entity and group financial statements, that the financial statements present fairly the income and expenses (financial performance), assets, liabilities and capital (financial position), and cash flows of TU Dublin or group concerned.

In order for a set of financial statements to give a true and fair view they should:

- comply with the accounting standards applicable to TU Dublin;
- incorporate judgment as to valuation, disclosure, and materiality that aim to give a true and fair view;
- be prudent in the consideration of matters of judgment in the financial statements, especially where there is uncertainty; and
- ensure that the financial statements reflect the commercial substance of transactions, and not just their legal form.

In accordance with the Technological University Act 2018, the Governing Body is required to arrange for the financial statements to be audited by the Comptroller and Auditor General as TU Dublin’s independent auditor.

An audit is an independent examination of the financial statements. The purpose of an audit is to enhance the degree of confidence of intended users in the financial statements. Having conducted an examination of the financial statements, the Comptroller and Auditor General is required to report to the Governing Body of TU Dublin. In that report, the Comptroller and Auditor General is required to form an opinion on a number of matters including, for example whether the financial statements give a true and fair view and whether the financial statements are in agreement with the underlying accounting records.

The annual report, comprising the financial statements and commentary thereon, is a comprehensive report of TU Dublin’s activities throughout the preceding year. Annual reports are intended to give stakeholders information regarding TU Dublin’s activities and financial performance.

The annual report is to be submitted to the HEA within one month from the receipt by TU Dublin of the Audit Certificate from the Comptroller and Auditor General.

The Chairperson of the Governing Body is required to submit an Annual Governance Statement to the Minister for Education and Skills/HEA in accordance with the specific reporting requirements set out in paragraph 6.10 of this Code. It includes items such as affirmation that Government policy is being complied with, significant post balance sheet events, a statement on the system of internal control and an outline of all commercially significant developments affecting TU Dublin in the preceding year.

Annual Report and Financial Statements

6.1 **Audited Financial Statements:** TU Dublin is required to publish audited financial statements. As set out above the financial statements are a formal record of the financial performance and financial position of TU Dublin.

6.2 **Preparation of Annual Report and Financial Statements:** TU Dublin is required to produce an Annual report and Financial Statements. The Governing Body is responsible for the preparation of the annual report and financial statements in accordance with relevant legislation and accounting standards. The Governing Body is required to:

- ensure consistent application of accounting policies;
- make judgements and estimates that are reasonable and prudent; and
- ensure the preparation of the financial statements on a going concern basis unless it is inappropriate to presume that the entity will continue in existence for the foreseeable future.

Financial statements should be subject to external audit by Comptroller and Auditor General before inclusion in TU Dublin’s annual report. It is important that every effort is made not to delay the presentation of the financial statements before the Houses of the Oireachtas while completing other elements of the annual report.

6.3 **Annual Report and Financial Statements:** In addition to disclosure requirements of TU Dublin’s governing legislation, applicable accounting standards and other regulations applying to TU Dublin, specific elements to be disclosed in the annual report and financial statements include:

1. A Statement of how the Governing Body operates, including a statement of types of decisions to be taken by the Governing Body and which are to be delegated to management.\(^\text{21}\)

2. The names of the Chairperson, the deputy Chairperson (if any), the President and members of the Governing Body and Governing Body committees.

- **Termination/Severance Payments and Agreements** – “The financial statements should disclose details of payments and agreements with an aggregate value in excess of €10,000 made in the reporting period. This includes severance/termination payments, granting of added years for pension purposes or early retirement without normal actuarial reductions. The value of the latter can be determined in accordance with guidance to be issued by the Department of Public Expenditure and Reform from time to time. Given the policy underlying the Freedom of Information Acts, in concluding settlements TU Dublin should not enter into confidentiality agreements which preclude it from disclosing details of the settlement reached in the financial statements,

\(^{21}\) Taken from the Financial Reporting Council’s “UK Corporate Governance Code” (2016) page 7
save in exceptional circumstances and on foot of legal advice that they are necessary in the circumstances of the case. When, in those circumstances, confidentiality agreements are entered into, parties to the agreements should be given prior notice that they may be subject to disclosure in any case where an overriding public interest is identified or when required by law.

- Travel and Subsistence - The financial statements should disclose the total costs incurred in relation to travel and subsistence for TU Dublin analysed between national and international travel.

- Hospitality Expenditure - The financial statements should disclose the aggregate total expenditure incurred in relation to hospitality in the period. (This includes Christmas parties, retirement parties, expenditure on staff wellbeing, contribution to sports and social clubs, One4all vouchers, retirement/leaving gifts, flowers, etc.)

- Legal Costs/Settlements – in cases where cumulative legal costs incurred in the year of account exceed €50,000, a note should be included in the financial statements with a breakdown of the total costs as between legal fees and compensation paid.

6.4 Reporting Requirements: Reporting requirements should be adhered to as follows:

- It is important to note that Departments of Education & Skills/HEA may choose to seek additional financial information at more frequent intervals than those outlined below.

  i. Draft Unaudited Financial Statements: In line with Section 22 (2) of the Technological Universities Act 2018 Draft unaudited financial statements for TU Dublin should be furnished to the Comptroller and Auditor General by such date as the Comptroller and Auditor General may from time to time determine. A copy will be furnished at the same time to the HEA.

  ii. a. Salaries and short term employee benefits by reference to salary grades
b. Post-employment benefits; and

TU Dublin shall also disclose key management personnel compensation in total. Compensation includes all employee benefits.

Key management personnel are those persons having authority and responsibility for planning, directing and controlling the activities of the entity, directly or indirectly, including any Governing Body members (whether executive or otherwise) of that entity who report directly to President. This would normally be the senior leadership team of TU Dublin.

The following arrangements should also apply:

a) TU Dublin should disclose in their financial statements the aggregate amount of total compensation paid to employees including employee numbers in whole time equivalent format.
b) The aggregate total compensation paid to employees should be split between salary, overtime and allowances.
c) A separate note on President’s salary and benefits (and termination payment if relevant) should also be included.

vi. Such fees should be itemised by category as stated below or as TU Dublin considers appropriate having regard inter alia to its size and competitive position and to the extent to which information is already disclosed:
- Legal (legal fees across all areas to be included here e.g. for pension, HR etc.);
- Tax and financial advisory (e.g. due diligence, accounting, corporate finance);
- Public relations/marketing; and
- Pensions and human resources; and
- Other.

Note that financial advisory excludes what is currently required to be disclosed in respect of fees paid to the auditors.

In procuring the services of external consultants, TU Dublin should comply with all applicable laws and Code guidelines regarding competitive tendering.

6.6 **Annual Governance Statement:** The Annual Governance Statement (paragraph 6.10) should be sent directly to the HEA and should not be included in the Annual Report of TU Dublin.

6.7 **Statement on Internal Control:** The Statement of Internal Control (paragraph 6.10(v)) should be included in the annual report of TU Dublin. This statement should be reviewed by the Comptroller and Auditor General to confirm that it reflects TU Dublin’s compliance with the requirements of paragraph 6.10(v) and is consistent with the information of which it is aware from the audit work on the financial statements. The Comptroller and Auditor General should include its report on this matter in its audit report on the financial statements.

6.8 **Deadlines:** Where the audit has been unavoidably delayed and fulfilling the requirements in paragraph 6.4 would cause unjustifiable difficulties for TU Dublin, the relevant deadline can be extended, subject to the consent of the HEA.

6.9 **Web Publication:** Annual reports should be published on TU Dublin’s website.
**Additional Reporting Requirements**

President of TU Dublin must inform the HEA without delay of any circumstance that is having or is likely
to have material adverse effect on the financial position of TU Dublin or its ability to maintain its capacity
to deliver relevant education programmes, research and related activities.

The Chairperson should report to the HEA on significant commercially sensitive developments in the
preceding 12 months and likely developments for the rest of the year as part of the Annual Governance
Statement.

7. Risk Management, Internal Control, Internal Audit and Audit and Risk Committees

Guiding Principles

The Governing Body should have formal and transparent arrangements for governance, risk management and internal control and for maintaining an appropriate relationship with the Comptroller and Auditor General, the external auditors.

Risk management and internal control are important and integral parts of a performance management system and crucial to the achievement of outcomes. They consist of an ongoing process designed to identify and address significant risks involved in achieving an entity’s outcomes.24

Advising on key risk is a matter for the Governing Body. The Audit and Risk Committee should support the Governing Body in this role.

Code Provisions

7.1 Risk Management Policy: TU Dublin should develop a Risk Management Policy and the Governing Body should approve the risk management framework and monitor its effectiveness. The Governing Body should review material risk incidents and note or approve management’s actions, as appropriate.

7.2 Risk Management: Key elements of the Governing Body’s oversight of risk management include:

- establishing an Audit and Risk Committee to give an independent view in relation to risks and risk management systems;
- making risk management a standing item on the Governing Body meeting agenda;
- advising the Minister for Education and Skills of the need to include risk management experience/expertise in the competencies of at least one Governing Body member. Where composition of the Governing Body does not allow for this, expert advice should be sought

24 “International Framework: Good Governance in the Public Sector” (IFAC/CIPFA, July 2014) page 27
Internally;
- appoint a Chief Risk Officer or empower a suitable management alternative, and provide for a direct reporting line to the Governing Body to identify, measure and manage risk and promote a risk management culture in TU Dublin;
- approve the risk management policy, set TU Dublin’s risk appetite, and approve the risk management plan and risk register at least annually;
- review management reporting on risk management and note/approve actions as appropriate;
- require external review of effectiveness of risk management framework on a periodic basis; and
- confirmation in the annual report that the Governing Body has carried out an assessment of TU Dublin’s principal risks, including a description of these risks, where appropriate, and associated mitigation measures or strategies.

Internal Control

7.3 **Internal Control:** The Governing Body is responsible for ensuring that effective systems of internal control are instituted and implemented in TU Dublin including financial, operational and compliance controls and risk management and the Governing Body should review the effectiveness of these systems annually.

The following are the key internal control procedures designed to provide effective internal control including:

i) the steps taken to ensure an appropriate control environment (such as clearly defined management responsibilities and evidence of reaction to control failures);

ii) processes used to identify business risks and to evaluate their financial implications;

iii) details of the major information systems in place such as budgets, and means of comparing actual results with budgets during the year;

iv) the procedures for addressing the financial implications of major business risks (such as financial instructions and notes of procedures, delegation practices such as authorisation limits, segregation of duties and methods of preventing and detecting fraud);

v) the procedures for monitoring the effectiveness of the internal control system which may include: Audit and Risk Committees, management reviews, consultancy, inspection and review studies, the work of internal audit, and quality audit reviews; and

vi) Confirmation in the annual report that there has been a review of the effectiveness of the system of internal control.

Review of Effectiveness of Internal Control

7.4 **Effectiveness of Internal Control:** The existence of risk management policies and internal control systems do not on their own constitute effective risk management. Effective and on-going monitoring and review are essential elements of sound systems of risk management and internal control. Reviewing the effectiveness of internal control is an essential part of the Governing Body’s responsibilities. The
Governing Body is required to form its own view on effectiveness of internal control systems based on the information and assurances provided.

7.5 **Annual Review of Effectiveness of Internal Control:** The Governing Body should undertake an annual review of the effectiveness of internal control systems to ensure that it has considered all aspects of risk management and internal control for the year under review and up to the date of approval of the annual report and financial statements.

The annual review of effectiveness should consider the following:

- changes since the last review in the nature and extent of significant risks and the ability of TU Dublin to respond effectively to changes in its business and external environment;
- the scope and quality of management’s ongoing monitoring of risks and the system of internal control and, where applicable, the work of its internal audit unit and other providers of assurance;
- the extent and frequency of the communication of the results of the monitoring to the Governing Body, or its committees, which enables it to build up a cumulative assessment of the state of control in TU Dublin and the effectiveness with which risk is being managed;
- the incidence of significant control failings or weaknesses that have been identified at any time during the period and the extent to which they have resulted in unforeseen outcomes or contingencies that have had, could have had, or may in the future have, a material impact on TU Dublin’s financial performance or condition; and
- the effectiveness of TU Dublin’s public reporting process.

The annual review of effectiveness should conclude on the extent to which controls are adequate, and were operating and should outline actions required to address any deficiencies arising.

7.6 **Timely Completion of Review:** Timely completion of the annual review is critical if it is to fulfil its objectives of providing assurance in relation to the operation of controls in the reporting period. The annual review should be conducted close to the end of the period under review or as soon as possible after the end of the financial period under review, and no later than three months after the period end.

**Internal Audit**

**Principle**

Internal auditing is an independent, objective, assurance and consulting activity designed to add value and improve TU Dublin’s operations. It helps TU Dublin accomplish its objectives by bringing a systematic, disciplined approach to evaluate and improve the effectiveness of risk management, control and governance processes.

25 Adapted from “Internal Control: Revised Guidance for Directors on the Combined Code” (FRC, October 2005) paragraph 31

26 Definition from TU Dublin of Internal Auditors UK and Ireland (http://www.theiia.org/guidance/standards-and-guidance/ippf/definition-of-internal-auditing/?search%20definition)
Code Provisions

7.7 **Internal Audit Unit:** TU Dublin should have a properly constituted independent internal audit unit or engage appropriate external expertise which should operate in accordance with the provisions set out below.

7.8 **Independence:** The internal audit unit shall be independent of the activities it audits. This is to provide it with an environment in which it can make unbiased judgements and provide impartial advice to management.

7.9 **Internal Audit Universe:** The internal audit unit should have the right to review all the management and control systems both financial and operational. The internal audit unit shall have unrestricted access to all functional areas, records (both manual and electronic), property, and personnel in the performance of its audits.

Specifically, the internal audit unit shall be responsible for the effective review of both internal control and risk management.

7.10 **Annual Programme of Audits:** The head of the internal audit unit shall be responsible for drawing up an annual programme of audits having regard to the organisation’s Statement of Strategy and Risk Management policy in consultation with the Audit and Risk Committee.

The internal audit unit shall demonstrate objectivity, comprehensiveness and relevance to management, the Audit and Risk Committee and the Board in respect of the areas to be audited and the respective priorities for these audits within the programme.

The existence of the internal audit unit does not relieve line management of its responsibility for effective control of the activities for which it is responsible.

7.11 The internal audit unit shall function professionally, adhering to the Code of Ethics and International Standards of TU Dublin of Internal Auditors or equivalent professional standards.

The operation of the internal audit unit should follow the principles below:

i) **Charter:** The internal audit unit should have a formal charter, which has been approved by the Governing Body. The reporting structure for internal audit should be clear and formally documented.
ii) **Head of Internal Audit:** The head of the internal audit unit should have considerable seniority within TU Dublin and the content of all internal audit reports should be entirely at his/her discretion. The head of internal audit should report directly to the Audit and Risk Committee and should also have access to the Chairperson of the Governing Body and the Chairperson of the Audit and Risk Committee. Functionally, the head of internal audit should report within TU Dublin to such person as the Governing Body decides and to the President.

iii) **Compliance Tests:** In carrying out its on-going work, the internal audit unit should assess, using a risk based approach, the areas within its terms of reference (as set out in the audit charter), and report its findings to the Audit and Risk Committee.

iv) **Resources:** The internal audit unit should be appropriately resourced consistent with its responsibilities under this Code with the necessary skills including the ability to deal with non-financial aspects.

v) **Comptroller and Auditor General and Internal Audit:** The internal audit unit should liaise with the Comptroller and Auditor General so that the potential for co-operation between the two is maximised. The work carried out by these two entities can frequently be complementary and effectiveness can be increased through regular consultation.

vi) **Value for Money Auditing:** In planning, executing and reporting its work, the internal audit unit should ensure that value-for-money auditing receives adequate attention based on the principles and provisions of the Public Spending Code, where relevant.

**Procurement and Disposal:** The internal audit unit in TU Dublin should review compliance with procurement and disposal procedures as required by the Audit and Risk Committee, from time to time, and report to the Audit and Risk Committee on these matters.

Please see Appendix E: Model Internal Audit Activity Charter

---

**Audit and Risk Committee**

**Code Provisions**

7.12 **Audit and Risk Committee:** The Governing Body of TU Dublin should establish an Audit and Risk Committee of, at least three, independent non-executive members, with written terms of reference which deal clearly with its authority and duties.

It is recommended for an Audit and Risk Committee to have members drawn from outside the
Governing Body. An Audit and Risk Committee is more likely to have the broad range of skills and experience necessary where its membership is not restricted to the Governing Body. The Audit and Risk Committee may procure specialist skills and specialist advice at a particular time at reasonable and approved expense to the organisation to assist the committee with specific areas of committee business.

In general, while the Audit and Risk Committees should be combined, however, there may be a requirement for separate Audit and Risk Committees.

The Audit and Risk Committee Guidance associated with this Code is contained in Appendix M.
The Minister/Department of Education and Skills/HEA should have written oversight arrangements with TU Dublin appropriate to the scale, nature, responsibilities and functions of TU Dublin.

The oversight agreement is a written statement between the Minister/Department of Education and Skills/HEA and TU Dublin which clearly defines the terms of the Minister’s/Department’s/HEA’s relationship with TU Dublin.
8 Relations with the Oireachtas, Minister and Department of Education and Skills and HEA

Guiding Principles

Good governance in the public sector is to ensure that entities achieve their intended outcomes as defined in their governing legislation and Statements of Strategy while acting in the public interest. This requires effective arrangements for defining outcomes in terms of sustainable economic, social, and environmental benefits which should be included in TU Dublin’s oversight agreement with the Minister/Department of Education and Skills/HEA.\(^{27}\)

Good governance requires effective procedures for the definition of responsibility and accountability, allocation of budgets, defining expected outputs and outcomes and clear procedures for monitoring performance.

The Department of Education and Skills/HEA should have written oversight agreements with TU Dublin. Where TU Dublin has derogations from the provisions of this Code it should have such explanatory notes written into its oversight agreements. Reasons for exemptions should be clearly explained in the oversight agreement with the Minister/Department of Education and Skills/HEA.

There should be an ongoing dialogue between the Department of Education and Skills/HEA and TU Dublin based on a common understanding of the objectives of TU Dublin and the actions through which it seeks to achieve those objectives.

Code Provisions

The statutory basis for TU Dublin set out in the Technological Universities Act 2018 defines the parameters for the level of operational autonomy and independence under which TU Dublin operates in pursuit of its objectives. Irrespective of the degree of autonomy and independence applying to TU Dublin, it must be subject to sufficient oversight and accountability to ensure that it is performing effectively and delivering its objectives to ensure that public resources are used efficiently and effectively.

\(^{27}\) “International Framework: Good Governance in the Public Sector” (IFAC/CIPFA, July 2014) page 10
TU Dublin may have certain functional independency with other statutory bodies. Functional independence can be achieved and is fully compatible with statutory and financial oversight by the Minister/Department of Education and Skills and with proper and effective accountability. Effective accountability is strongly dependent on establishing clearly defined roles and responsibilities in accordance with the State bodies governing legislation which are clearly understood and observed in practice by both parties.

Parent Department Oversight Role

8.1 Comply or Explain: TU Dublin and its subsidiaries are required to confirm to the HEA and Minister for Education and Skills that they comply with this Code in their governance, practices and procedures.

This Code makes provision for certain requirements to be applied proportionately, subject to the written agreement of the Minister/Department/HEA. In such cases, TU Dublin should reach agreement with the Minister/Department/HEA on the extent to which the compliance requirement might be suitably adapted in its case. TU Dublin should then note the agreement reached in its annual report and explain whether the requirements are to be phased-in over a longer period of time, or otherwise varied in some way.

Oversight Agreements

8.2 Oversight Agreements: The Department of Education and Skills and the HEA should ensure that they have written oversight agreements with TU Dublin which clearly define the terms of TU Dublin’s relationship with the Minister/Department of Education and Skills and the HEA.

8.3 The Oversight agreements in place with the Technological University comprise:

1) Performance Compacts: The National Strategy for Higher Education performance based framework for the system governance of higher education in Ireland sets out the areas of responsibility for setting national priorities of Government and related short to medium term objectives for the higher education system. The HEA mandate encompasses the responsibility to create a well-coordinated system of higher education institutions which is capable in its totality of delivering on national objectives set for the system by the Minister.

This aspect of the role requires the HEA:

• To focus on outputs and the performance of TU Dublin and the higher education system as a whole.
• To negotiate a performance compact with TU Dublin reflecting its distinct mission.

• To monitor performance against agreed deliverables, and

• To provide funding based on performance

The HEA utilises this framework as the context for conducting a process of strategic dialogue with individual institutions where institutions will agree performance compacts with the HEA with institutional key performance indicators reflecting their contribution to overall system objectives.

Performance against the compacts is monitored via a system of annual reporting and the strategic dialogue process, whereby the HEA meets with TU Dublin to review performance and confirm good ongoing governance and accountability of the public funding distributed.

2) **Annual Governance Statement**: TU Dublin is required to submit an Annual Governance Statement to the HEA in accordance with the specific reporting requirements set out in section 6 of this Code. The statement includes items such as affirmation that Government policy is being complied with, significant post balance sheet events, a statement on the system of internal control and an outline of all commercially significant developments affecting TU Dublin in the preceding year. The statement must be submitted to the HEA within 6 months of completion of the financial year. In addition, TU Dublin is expected to flag all major governance issues to the HEA on an ongoing basis. The template statement for the Technological University is set out as Appendix I and Appendix J.

3) **Financial Memorandum**: The ongoing responsibilities and arrangements between the HEA and TU Dublin are set out in a financial memorandum which is signed by each institution on an annual basis (See Appendix K). The financial memorandum requires:

• Agreement on budgets and financial plans

• Provision of required Recurrent Grant Allocation Model (RGAM) returns

• Compliance with public pay policy

• Adherence to the borrowing and departures frameworks (if applicable)

• Compliance with public sector capital expenditure requirements

• Compliance with public sector procurement requirements

• Compliance with the process for land purchases
8.4 Oversight agreements should reflect the:

- legal framework of TU Dublin;
- environment in which it operates;
- purpose and responsibilities of TU Dublin;
- TU Dublin’s level of compliance with Code;
- details of the Performance Delivery Agreement; and
- arrangements for oversight, monitoring and reporting on conformity with the oversight agreement including those actions and areas of expenditure where prior sanction from the Minister/Department of Education and Skills, the HEA and/or the Department of Public Expenditure and Reform is required. Absent clear authority to make payments, TU Dublin should seek prior sanction from the Department of Education and Skills.

Given the policy underlying the Freedom of Information Acts, in concluding settlements TU Dublin should not enter into confidentiality agreements which preclude it from disclosing details of the settlement reached in the financial statements, save in exceptional circumstances and on foot of legal advice that they are necessary in the circumstances of the case. When, in those circumstances, confidentiality agreements are entered into, parties to the agreements should be given prior notice that they may be subject to disclosure in any case where an overriding public interest is identified or when required by law.

The oversight agreement should be a dynamic document insofar as it should be modified in light of changing circumstances. The oversight agreement should be reviewed annually and updated as required.

Roles and Responsibilities

8.5 Roles: It is recommended that the Department of Education sets out in writing the respective roles and responsibilities of its Accounting Officer, as well as the Chairperson of the Governing Body and the President of TU Dublin.

8.6 Accounting Officer: The Accounting Officer of the Department of Education and Skills should satisfy him/herself that the requirements of this Code are being properly implemented and observed. In support of this role, the Accounting Officer or the Department may also request further information/evidence that TU Dublin is in compliance with the Code and TU Dublin should comply with all such reasonable requests.

If information available to the Department indicates to the Accounting Officer that problems or difficulties exist, the Accounting Officer should ensure that appropriate action is taken as soon as possible.

8.7 Accountable Person: Under Section 9(1) of the Schedule 2 of the Technological Universities Act 2018, the President of TU Dublin is the “Accountable Person” to the Oireachtas and his/her accountability to
the Oireachtas should be differentiated from the general responsibility to the Governing Body. Please see detail below.

8 (1) The president shall, whenever required in writing to do so by the Committee of Dáil Éireann established under the Standing Orders of Dáil Éireann to examine and report to Dáil Éireann on the appropriation accounts and reports of the Comptroller and Auditor General (in this paragraph referred to as the “Committee”), give evidence to that Committee in relation to—

(a) the regularity and propriety of the transactions recorded or required to be recorded in any book or other record of account subject to audit by the Comptroller and Auditor General that the technological university is required by this Act to prepare
(b) the economy and efficiency of the technological university in the use of its resources,
(c) the systems, procedures and practices employed by the technological university for the purpose of evaluating the effectiveness of its operations, and
(d) any matter affecting the technological university concerned referred to in a special report of the Comptroller and Auditor General under section 11(2) of the Comptroller and Auditor General (Amendment) Act 1993, or in any other report of the Comptroller and Auditor General (in so far as it relates to a matter specified in clause (a), (b) or (c)) that is laid before Dáil Éireann.

The System Performance Framework

TU Dublin should agree Performance Delivery Agreements with the HEA on behalf of the Minister for Education and Skills and report on progress against targets to the HEA and Minister. These agreements will act as a performance contract between the Department of Education and Skills and TU Dublin in which an agreed level of performance / service is formalised and which will ultimately result in improved efficiency and effectiveness in the delivery of educational services.

The agreements allow for the adoption of both annual and multi-annual targets, and the development of output and outcome indicators, including milestones to measure performance against targets.

The system performance framework defined by the Minister for Education and Skills, is the anchor document to the content and objectives of the Performance Delivery Agreement taking account of TU Dublin’s legal framework. The performance compact agreed between the HEA and TU Dublin aligned to specific objectives in the Department of Education and Skills’ System Performance Framework, and consistent with TU Dublin’s legal mandate, and with any Government policies for the reform and modernisation of the Education Sector.

The Governing Body of TU Dublin should ensure that this Performance Delivery Agreement and TU Dublin’s Statement of Strategy are communicated to all employees and that they have a clear understanding of their role in achieving these objectives.

8.8 Performance Delivery Agreements: The Strategic Dialogue process, Performance Compact and Financial Memorandum outlined in section 8.3 of this Code together with the system of multi-annual budgeting and management reporting constitute the performance delivery agreement between the HEA and TU Dublin, and include:

- high level goals and objectives;
  - identify the key programmes of activity for the TU Dublin including for each individual
expenditure programme;

▪ set out the key outputs specified in quantitative, measurable terms;
▪ identify the targets for that output in annual and multi annual targets with clear milestones;
▪ identify the cost of delivery of that programmes of activity; and
▪ set out the process for the formal review of the performance agreement.

8.9 High Level Goals and Objectives: In stating High Level Goals and Objectives, the Performance Delivery Agreements in aggregate:

▪ set out relevant, quantitative metrics of impacts and/or results that will support examination of the effectiveness of the programme; and
▪ include annual and multi-annual targets that set out clear milestones to measure progress toward a goal.

8.10 Key Outputs: In stating Key Outputs, the Performance Delivery Agreement will:

▪ set out relevant, quantitative metrics of outputs that will support examination of the efficiency of the programme; and
▪ include annual and multi-annual targets that set out clear milestones to measure delivery.

8.11 Review of Performance Delivery Agreement: There should be at least one formal meeting per annum between the HEA and the Chairperson or non-executive nominees of the Governing Body and top management of TU Dublin to review the Performance Delivery Agreement and to strengthen the relationship between the two organisations.

Periodic Critical Review

8.13 Periodic Critical Review: The System Performance Framework and the associated strategic compact and dialogue process agreed with the HEA outlined in section 8.3. of this Code, provides a system of periodic critical review over a cycle of four years. This includes annual system performance reporting to the Minister for Education and Skills and review of overall achievement of objectives and targets at the end of each four year period.

The periodic critical reviews themselves should be:

▪ **Proportionate.** Reviews must not be overly bureaucratic, administratively burdensome and should be appropriate for the size of TU Dublin.
▪ **Timely.** Reviews should be completed quickly in order to minimise disruption and reduce uncertainty about TU Dublin’s future.
▪ **Challenging.** Reviews should be robust and rigorous and examine and evaluate as wide a range as possible of delivery options.
▪ **Open and Inclusive.** Key stakeholders should have the opportunity to contribute to reviews.
▪ **Transparent.** Reviews should be routinely published.
Procedures for Procurement

Code Provisions

8.14 Public Procurement: It is the responsibility of the Governing Body to satisfy itself that the requirements for public procurement are adhered to and to be fully conversant with the current value thresholds for the application of EU and national procurement rules.

The Governing Body should satisfy itself that procurement policies and procedures have been developed and published to all staff. It should also ensure that procedures are in place to detect non-compliance with procurement procedures. TU Dublin should have a contracts database/listing for all contracts/payments in excess of €25,000 with monitoring systems in place to flag non-competitive procurement. Non-competitive procurement should be reported to the HEA in the Annual Governance Statement and Statement of Internal Control.

8.15 Procedures: Similarly, the Governing Body should ensure that competitive tendering should be standard procedure in the procurement process of TU Dublin. Management, and ultimately the Governing Body, should ensure that there is an appropriate focus on good practice in purchasing and that procedures are in place to ensure compliance with procurement policy and guidelines.

8.16 Legal Obligations: EU Directives and national regulations impose legal obligations on public bodies in regard to advertising and the use of objective tendering procedures for awarding contracts above certain value thresholds. Even in the case of procurement which might not be subject to the full scope of EU Directives, such as certain ‘non-priority’ services or service concessions, the EU Commission and European Court of Justice have ruled that EU Treaty principles must be observed.

8.17 EU Treaty Principles: The essential Treaty principles include non-discrimination, equal treatment, transparency, mutual recognition, proportionality, freedom to provide service and freedom of establishment. There is a strongly implied requirement to publicise contracts of significant value to a degree which allows parties in other Member States the opportunity to express an interest or to submit tenders.

8.18 Corporate Procurement Plan: The Office of Government Procurement Policy framework requires that all non-commercial State bodies, including TU Dublin, complete a Corporate Procurement Plan. This plan is underpinned by analysis of expenditure on procurement and the procurement and purchasing structures in the organisation. The plan should set practical and strategic aims, objectives for improved procurement outcomes and appropriate measures to achieve these aims should be implemented.

The Chairperson should affirm adherence to the relevant procurement policy and procedures and the development and implementation of the Corporate Procurement Plan in the Annual Governance Statement.

8.19 Procurement Information: Information on procurement policy and general guidance on procurement matters is published by the Office of Government Procurement. This can be viewed or downloaded from its website at https://ogp.gov.ie/
Property Acquisition and Disposal of Surplus Property

Code Provisions

8.20 **Acquisition or Disposal of Assets:** The Chairperson of the Governing Body should seek the approval of the HEA/Minister for Education and Skills and the Minister for Public Expenditure and Reform in advance of any material acquisition or disposal of land, buildings or other material assets proposed by TU Dublin. This also includes long term leases or purchase of right to use (rather than own) an asset.

8.21 **Circulars and Guidelines:** In addition to any specific guidelines which apply to TU Dublin, all acquisitions, disposals or proposals to share property should be conducted in accordance with current Department of Public Expenditure and Reform circulars and guidelines as follows:

- 11/2015 – Protocols for the Transfer and Sharing of State Property Assets;
- 17/2016 – Policy for Property Acquisition and for Disposal of Surplus Property; and
- 02/2016 – Arrangements for Digital and ICT-related Expenditure in the Civil and Public Service.

Department of Public Expenditure and Reform Circular 02/2016 must be complied with by TU Dublin considering expenditure on IT and telecommunications projects, systems and infrastructures.

Acquisition of Land, Buildings or other Material Assets

8.22 **Procedures:** In addition to the requirements set out in Department of Public Expenditure and Reform circulars, as amended from time to time, the following procedures should apply:

(i) **Independent Valuation:** Where land or property is being considered for acquisition an independent valuation must be obtained. These valuations should be obtained before any decision is taken by the Governing Body to purchase/acquire or sell/dispose lands. The valuations should be obtained from professional property valuation surveyors.

(ii) **Listing of Parties to Transaction:** All parties to land and property transactions should be clearly reported to the Governing Body when transactions are being considered. Any Governing Body resolution related to the purchase of land or property should state the party or parties the asset is being purchased from.

(iii) **Options by Others to Purchase:** Where a third party developer has obtained an option to purchase land and is selling this option to TU Dublin any profit margin, where it can be determined, being charged by the developer should be reported to the Governing Body.

(iv) **Board Resolutions:** Any Governing Body resolutions regarding the purchase or sale of an asset
should state the price the asset has been purchased or sold for.

(v) **Transparency:** Purchase of land or property should be conducted in as transparent a manner as possible without compromising the negotiating position of TU Dublin.

(vi) **Due diligence:** A full due diligence report should be prepared for land or property that are being considered for acquisition.

(vii) **Nominated Staff Member:** A staff member should be nominated to have responsibility for the acquisition, management and sale of land or property. This staff member should report directly to the President regarding property issues.

(viii) **Legal Matters:** When dealing with the acquisition or sale of land or property there should be an active engagement with the solicitors involved and the nominated staff member shall ensure that the commercial and technical aspects of the transaction are fully addressed.

(ix) **Title Registration:** There should be a planned follow up with the solicitors involved to ensure that the title to any land or property acquired are properly registered with the Property Registration Authority.

(x) **Legal Obligations:** There should be a planned follow up to ensure that any undertakings, obligations and other matters are completed following the acquisition or sale of land or property. TU Dublin should instigate periodic (depending on the size of the property portfolio) reviews with its solicitors, and any internal staff dealing with property management, to audit the current status of title registration, way leave agreements, leases, bonds, planning permissions and any other matters which affect its property portfolios.

### Capital Investment Appraisal

**The Public Spending Code:** The Public Spending Code (see [https://publicspendingcode.per.gov.ie/](https://publicspendingcode.per.gov.ie/)) is the comprehensive set of expenditure appraisal and value for money requirements and related guidance covering all public expenditure.

8.23 The Governing Body should ensure that robust and effective systems and procedures are in place in TU Dublin concerned to ensure compliance as appropriate, with the relevant principles, requirements and guidelines of the Public Spending Code. The Chairperson of TU Dublin should confirm in the Annual Governance Statement that TU Dublin is adhering to the relevant aspects of the Public Spending Code.

8.24 **Investment Appraisal:** In addition, the Governing Body should ensure that TU Dublin should have regard to appropriate models for investment appraisal in its sector and seek to apply the best practice financial and economic appraisal principles contained in the Public Spending Code for the appraisal and management of all investment proposals.
Diversification, Establishment of Subsidiaries and Acquisitions by TU Dublin

8.25 **Governing Body and Ministerial Approval:** The Chairperson should seek the approval of the Minister for Education and Skills, together with the consent of the Minister for Public Expenditure and Reform for any intended action which would extend or change significantly the nature, scope or scale of the activities in which it (or any subsidiary) engages (including through any joint venture). This provision requires Ministerial consent for any significant change in the (agreed) scope or function of TU Dublin. Any intended action covers anything that TU Dublin may be contemplating doing that would involve it straying (significantly) into a new area which it had never envisaged that it would be involved in or significantly changing the scale of its operations.

The financial consequences of such actions and their consistency with the existing remit of TU Dublin (if any), notably its statutory remit, should be clearly set out by the Governing Body.

8.26 **Subsidiaries:** The establishment or acquisition of subsidiaries is subject to the legal capacity to do so and requires appropriate approval in line with Section 25 (3) of the Technological Universities Act 2018.

For all other subsidiaries, joint ventures and the acquisition of shares by TU Dublin, by its subsidiaries or by joint ventures in which either a State body or its subsidiaries participate (“TU Dublin joint ventures”) is subject to the legal capacity to do so and, in respect of TU Dublin and its subsidiaries, to the prior written approval of the relevant Minister, given with the consent of the Minister for PublicExpenditure and Reform. If TU Dublin or its subsidiaries plans a shareholding offering or to acquire shares the offer/application must refer expressly to such legal capacity and approval requirements.

8.27 **Ministerial Approval:** The Ministerial consent requirements applicable to a TU Dublin joint venture should be considered and determined in the context and at the time of consideration and approval of the formation of the joint venture in the first instance.

8.28 **Approval Process:** When seeking such approval, the Chairperson should supply the Minister for Education and Skills with complete details of such proposed subsidiaries, joint ventures or acquisitions and should do so at the earliest opportunity in order to avoid delays. The Minister should respond to the Chairperson in a timely manner.

8.29 **Details:** Such details should include, the following (which is not an exhaustive list) together with such other information as may be requested:

- the full business case for the proposal;
- cash flows and projections;
- risk analysis of proposal;
- the amount of share capital proposed to be acquired compared with the entire issued share capital of the company concerned;
- details of any shares held in such company by any other State body, its subsidiaries or State body joint ventures;
- data on the financial commitment and exposure of the parent body, whether by way of equity, loans, guarantee or otherwise;
- other potential liabilities that may have a negative impact on the company;
- outstanding borrowings of such company from all sources, whether guaranteed or not, and any commitments by them which could involve financial exposure for TU Dublin; and
- in seeking approval for the establishment or acquisition of subsidiaries, the proposed approach
to the remuneration and conditions of employment of the CEO/Managing Director and, where appropriate, other employees of the subsidiaries should be outlined.

8.30 **Shareholdings (30%+):** Where TU Dublin, its subsidiaries and/or TU Dublin joint ventures have a combined holding in any company exceeding 30% of the entire issued share capital of such company, TU Dublin should notify the Minister for Education and Skills and the Minister for Public Expenditure and Reform of such shareholdings.

8.31 **Borrowing Limits:** Borrowing by TU Dublin is subject to the limitations of Section 25 (2) of the Technological Universities Act 2018.

8.32 **State Guarantees:** State guarantees cannot be given without explicit statutory authority and may only be given by the Minister for Education and Skills with the consent of the Minister for Finance and the Minister for Public Expenditure and Reform. State guarantees may also be subject to approval by the EU Commission under the Treaty rules on State Aid. As a general rule, current policy is not to issue new State guarantees to State bodies due to the potential impact on the State’s Balance Sheet and to allow outstanding guarantees to expire as the relevant borrowings are repaid.

**Disposal of State Assets**

8.33 **Disposal:** The Governing Body should ensure that arrangements are in place such that the disposal of assets of TU Dublin or the granting of access to property or infrastructure for commercial arrangements, e.g. joint ventures with third parties, are at a fair market-related price. Disposals or grants of access with an anticipated value at or above a threshold level of €150,000 should be by auction or competitive tendering process, other than in exceptional circumstances. The method used should be both transparent and likely to achieve a fair market-related price. The anticipated value may be determined either by a reserve price recorded in advance in TU Dublin’s records or by a formal sign-off by the Governing Body on the advice of the Legal Secretary or, if delegated by the Governing Body, sign-off by the Legal Secretary, that, in its view, the anticipated value is likely to be less or greater than €150,000. Valuations should be carried out by a qualified unconnected valuer.

**Compliance with use of Auction or Tendering Requirements**

8.34 **Governing Body Approval - Use of Competitive Process:** If an auction or competitive tendering process takes place and the highest bid is not the bid accepted, then specific Governing Body approval is required before the disposal of the asset or granting of access to property or infrastructure for commercial arrangements with third parties can be completed. The Governing Body must ensure that the provisions of the EU Commission Communication on State Aid elements in sales of land and buildings by public authorities are complied with fully. Any such approvals together with the reason why a lower bid was permitted to be accepted should be noted in the minutes of the Governing Body. See [http://ec.europa.eu/competition/state_aid/legislation/compilation/index_en.html](http://ec.europa.eu/competition/state_aid/legislation/compilation/index_en.html)
8.35 **State Aid:** A measure constituting State aid shall not be implemented before it has been approved by the EU Commission. The EU Commission *Guidance Paper on State aid-compliant financing, restructuring and privatisation of State-owned enterprises* sets out EU State aid rules, which must be complied with when carrying out or financing, restructuring and/or privatisation of State-owned enterprises and provides clarifications on the way the Commission applies the main State aid principles.

8.36 **Governing Body Approval – Non-Use of Competitive Process:** Where an auction or competitive tendering process is not used and the agreed price is €150,000 or more, then specific Governing Body approval is required before negotiations start and also before the disposal of the asset or granting of access to property or infrastructure for commercial joint venture arrangements with third parties can be completed.

8.37 **Formal Certification:** No disposal of an asset or grant of access to property or infrastructure for commercial arrangements with third parties should be completed until the officer authorising the disposal or grant of access has certified formally that (i) Governing Body approval is not necessary, with the reasons, or (ii) Governing Body approval, where necessary, has been obtained.

8.38 **Disposal of Assets to Governing Body Members, Employees or their Families:** Disposal of assets to Governing Body members, employees or their families or connected persons should, as with all disposals, be at a fair market-related price. Where the Governing Body is considering a proposal for any such disposal, the Governing Body member connected to the potential purchase should absent him or herself from the Governing Body deliberations on the issue. A record of all such disposals to such persons (to include details of the asset disposed of, price paid and name of the buyer) should be noted in a register kept for this purpose (minor disposals below €5,000, may be omitted from the register). This register should be available for inspection, if requested, by the Governing Body or by any Governing Body member. The Governing Body may specify that any disposal above an approved threshold should be formally endorsed by the Governing Body who may impose specific restrictions with regard to any such disposal.

8.39 **Reporting Disposals to the Governing Body:** Details of all disposals of assets or grants of access to property or infrastructure for commercial arrangements with third parties (save for connected third parties which is dealt with in paragraph 8.38) below the threshold value of €150,000 without auction or competitive tendering process should be formally reported to the Governing Body, including the paid price and the name of the buyer, on an annual basis.

8.40 **Reporting Disposals to the Minister:** Details of and explanations for the disposals of assets or grants of access to property or infrastructure for commercial arrangements with third parties above the threshold of €150,000 which have not been subject to auction or competitive tendering process should be included in the Annual Governance Statement (see paragraph 6.10 of this Code).

8.41 **Compliance:** The Chairperson should affirm in the Annual Governance Statement, that the disposal procedures, as outlined, have been complied with.

---

**Tax Compliance**

8.41 **Tax Clearance:** It is the responsibility of the Governing Body to satisfy itself that any Tax Clearance requirements regarding the payment of grants, subsidies and similar type payments, and regarding Public Sector Contracts, are fully adhered to. TU Dublin must have a valid tax clearance certificate when a contract is entered into and should maintain a valid tax clearance certificate or, where the contract is
a relevant contract, demonstrate satisfactory subcontractor tax compliance at the time of each payment.

8.42 **Taxation:** TU Dublin should be exemplary in its compliance with taxation laws and should ensure that all tax liabilities are paid on or before the relevant due dates. The Governing Body must take cognisance of any proposed corporate restructuring plans submitted for its approval and should ensure that they are being undertaken for bona fide commercial reasons and not as part of any tax avoidance scheme.

8.43 **Tax Avoidance:** TU Dublin while availing of all legitimate taxation arrangements, should not engage in unacceptable tax avoidance transactions. In broad terms, tax avoidance is offensive if it involves the use of the tax code for a purpose other than that intended by the Oireachtas (including an unintended use of a tax incentive) with a view to reducing the amount of tax to be paid by TU Dublin or some other party to a transaction in which TU Dublin participates. Where a doubt arises in a particular instance, TU Dublin should consult the Revenue Commissioners.

Where the approval of the Minister for Education and Skills with the consent of the Minister for Public Expenditure and Reform is required under legislation for any financial transaction, the Chairperson should provide confirmation from the Revenue Commissioners that the tax treatment of the financial transaction is compliant with Irish tax law.

8.44 **Report to Department:** A report on TU Dublin’s compliance with tax laws should be furnished each year to the Department of Education and Skills/HEA. The report should confirm that TU Dublin has complied with its obligations under tax law.

---

**Legal Disputes Involving Other State Bodies**

8.45 **Legal Disputes:** Where a legal dispute involves another State body, unless otherwise required by statute, every effort should be made to mediate, arbitrate or otherwise resolve before expensive legal costs are incurred. TU Dublin should pursue the most cost effective course of action in relation to legal disputes.

In addition to the annual reporting requirement concerning details of legal disputes with other State bodies, TU Dublin is required to provide details of such legal disputes involving expenditure of €25,000 or over to the HEA and to the relevant Vote section of the Department of Public Expenditure and Reform, once a year by 30th June of each year including an estimate of the legal costs incurred up to the date of such information.

This section addresses the following areas:

- Remuneration and Superannuation
- Fees to Governing Body Members
- Travel and Office Entertainment

Guiding Principles

The Chairperson and the Governing Body of TU Dublin are required to implement Government policy in relation to the total remuneration package (including basic salary, allowances, and all other benefits in cash or in kind), and in relation to other provisions for superannuation and termination benefits, of the President of TU Dublin.

The Chairperson and the Governing Body of TU Dublin are also required to implement any relevant Government policy, as expressed from time to time, with regard to remuneration of the Governing Body and other staff. This role is essential to maintaining public trust in as well as the credibility and reputation of TU Dublin.

The Governing Body should adhere to Government policy on the payment arrangements for the President as well as any conditions of sanction issued by the Department of Public Expenditure & Reform and/or the Department of Education and Skills.

TU Dublin is required to publish in its annual report details of non-salary-related fees paid in respect of the Governing Body, analysed by category, and the salary of the President.

Code Provisions

Remuneration and Superannuation

9.1 The Chairperson and the Governing Body of TU Dublin are required to implement Government policy in relation to the total remuneration package (including basic salary, allowances, and all other benefits in cash or in kind), and in relation to other provisions for superannuation and termination benefits of the President of TU Dublin.

9.2 Departmental Arrangements: Arrangements put in place by the Department of Education and Skills or the Department of Public Expenditure and Reform for determining and approving the remuneration of the President of TU Dublin should also be adhered to and implemented.

9.3 Other Staff: The Chairperson and the Governing Body are required to implement Government pay policy as expressed from time to time, in relation to other staff including, as appropriate, the President, CEO or equivalent and other staff of any subsidiary, as relevant.
9.4 *Departmental Consultation:* The Department for Public Expenditure and Reform should be consulted in good time prior to the implementation of any pay proposals, and of any likely developments, which could have significant implications for:

- general Government pay policy;
- TU Dublin’s finances;
- charges for goods or services provided; and/or
- other areas of the public sector.

9.5 *Public Service Standards:* Compliance with Government pay policy or with any particular Government decision should not be effected in ways which cut across public service standards or integrity or conduct or involve unacceptable practices which result in a loss of tax revenue to the Exchequer.

9.6 *Appointment of the President:* Procedures for the appointment of the President (including a standard employment contract template) are available from the HEA. The Governing Body must seek the approval of the Minister for the duration of the term of office of the President which shall not exceed 10 years in line with Schedule 2 Section 8 of the Technological Universities Act 2018.

9.7 *Single Pension Scheme:* Pension provision for all persons in pensionable posts, including senior management and the President, who are recruited on or after 1 January 2013 shall consist solely of membership of the Single Public Service Pension Scheme. This provision applies in all cases except where exempted under law (Public Service Pensions (Single Scheme and Other Provisions) Act 2012), and notwithstanding the existence in place of any private voluntary pension scheme for staff recruited on or prior to 31 December 2012.

Fees to Governing Body Members

**Guiding Principles**

As outlined in the Code, Governing Body members play a number of critical roles in setting the strategic direction and overseeing the performance of TU Dublin which are discharging key responsibilities laid down in legislation.

Inherent in the role of Governing Body is that of public value in seeking to ensure that TU Dublin carries out its responsibilities as effectively and efficiently as possible and maximises its contribution to outcomes for citizens.

The reformed system of appointments to State Board highlights the objective to attract high calibre individuals from all walks of life to serve on State Boards. Remuneration arrangements for Governing Body members of TU Dublin reflect the ethos of public value.

Public Servants and Public Sector employees cannot receive fees for their duties as a member of the Governing Body. Therefore this section in respect of fees is relevant to external members of the Governing Body and the Board of Subsidiaries only.

**Code Provisions**

9.8 *Authorised Fee Levels:* In general, for fees to be payable to the Chairperson or members of a Board an
enabling provision in the legislation governing the State body concerned is required. Schedule 1 Section 2 (2) specifies that members may be paid such remuneration (if any) as the Minister, with the consent of the Minister for Public Expenditure and Reform, may determine. Current fee rates for Category 1 - 4 State Boards are available from the Remuneration, Industrial Relations and Pensions Division of the Department of Public Expenditure and Reform.

9.9 **One Person One Salary Rules:** Since 1 November 2011 under the One Person One Salary principle it has been a requirement of that principle that public servants and public sector employees who sit on State Boards may not be paid Board fees. The criteria previously used to determine the eligibility of public servants and public sector employees to receive Board/Governing Body fee payments no longer applies in any such cases. The implementation of and adherence to these arrangements is the responsibility of TU Dublin.

9.10 **Option to Waive Board Fee:** All existing Governing Body members of TU Dublin, and any members that may be appointed in the future to such Governing Bodies, are to be given the option by the Minister for Education and Skills to waive the related Governing Body fee on a discretionary basis as a matter of formal protocol. The implementation of the arrangements necessary to ensure adherence to this requirement is a matter for the Department of Education.

9.11 **Authorised Fee Rates:** The Governing Body of TU Dublin must ensure that the fees paid to Chairpersons and the Governing Body member are at the rates sanctioned and approved by the Minister for Public Expenditure and Reform and that no fees are paid to public servants or public sector employees under the One Person One Salary rules.

9.12 **PRSI:** In general, fees paid to a Chairperson, Governing Body Members of TU Dublin are exempt from PRSI. Such persons are deemed to be Office Holders, provided TU Dublin was created by an Act of the Oireachtas or by statutory regulation and provided the holder of the Office may be removed if the instrument creating the Office authorises it. (Scope Section, Department of Social Protection provides direction and information on the insurability of employment in accordance with law).

9.13 **Tax:** Governing Body members fees are subject to taxation. The requirements are set out in Statement of Practice SP-IT/1/04 (Revised April 2011) ‘Tax Treatment of Remuneration of members of State and State Sponsored Committees, Boards, Commissions and other Bodies’, available from the Office of the Revenue Commissioners. Any queries in this regard should be directed to the Office of the Revenue Commissioners.

9.14 **Subsidiaries:** The fees paid to the Chairperson or Board members/Directors of any subsidiary or associated body will not exceed the rates applying to the Chairperson or Governing Body member, respectively, of TU Dublin and will, as a general rule, be significantly less. Any such fees must be at the rates sanctioned and approved by the Minister for Public Expenditure and Reform.

9.15 **Single Fee:** Only one fee will be payable to a person in respect of (a) service on the main Governing Body of TU Dublin and Boards of subsidiary or associated bodies or (b) service on subsidiary or associated State Boards only.

9.16 **External Boards:** An executive other than the President of TU Dublin will, subject to Governing Body approval, be allowed to hold membership of the Boards of State funded bodies which are not subsidiary to or associated with the main TU Dublin, but may not receive a Board fee under the One Person One Salary rules.

9.17 **Annual Governance Statement:** As part of the Annual Governance Statement, the Chairperson should affirm that Government Pay Guidelines is being complied with in respect of such appointees who serve on the Governing Body and any subsidiaries of TU Dublin. The Annual report should also include a schedule of
Travel and Official Entertainment

Guiding Principles

TU Dublin should be cognisant of the need to achieve economy and efficiency in expenditure on travel and official entertainment.

Code Provisions

9.18 **Travel Circulars:** TU Dublin should adopt, and comply in all respects with, the Department of Public Expenditure and Reform circulars and office notices regarding travel and subsistence, as amended from time to time.

The Governing Body members and employees must claim travel and subsistence only in respect of official business and not personal travel or accommodation and must not make a claim from more than one State body for the same journey. All Travel and Subsistence claims must have a clear stated business purpose.

The Department of Public Expenditure and Reform Circular 5/2017 Motor Travel Rates, Circular 6/2017: Domestic Subsistence Allowances, and the Circular 7/2017 Subsistence Allowances Abroad set out rates of subsistence allowance, which apply where applicable.

9.19 **International Travel:** If TU Dublin incurs significant expenditure on international travel by employees or members of the Governing Body, it should put in place appropriate monitoring and control procedures to ensure compliance with relevant Department of Public Expenditure and Reform circulars and requirements.

9.20 **Official Entertainment:** Department of Finance Circular 25/2000: Official Entertainment sets out the entertainment allowances, the limits on expenditure on official entertainment, and the numbers that can be accommodated at any given event (dependent on the grade or position of the host).

Please see Appendix L: Framework for a Travel Policy for TU Dublin.
10 Quality of Service Charter

Principle

In its dealings with the public, TU Dublin should publish a quality of service charter which outlines the nature and quality of service which customers and stakeholders, including learners, can expect.

The remit of the Quality of Service Charter does not extend to issues of quality assurance that are governed by TU Dublin’s relationship with QQI and covered by the relevant legislation such as the QQI Act as amended.

Code Provisions

10.1 Quality of Service Charter: TU Dublin should have a quality of service charter setting out the quality of education learners can expect and the level of service the general public and other stakeholders can expect of the organisation.

10.2 Charter Cycle: The 4 step cycle of the quality of service charter involves:
- Consultation with learners and stakeholders;
- Commitment to quality standards;
- Evaluation of performance; and
- Reporting on results

10.3 Display and Content: Quality of service charters should be displayed prominently (on websites and at the points of service). The charter should state TU Dublin’s commitment to providing:

- education and services in accordance with the legislative requirements established in the relevant Acts, (specifically the Qualifications and Quality Assurance Act 2012 and associated legislation, and the Technological Universities Act 2018); and
- the principles of quality assurance and enhancement of academic activities set down by the relevant State quality assurance agencies (specifically, Quality and Qualifications Ireland [QQI]).

In addition, with regard to service provision, the charter should take account of the twelve Principles of Quality Customer Service for Customers and Clients of the Public Service (see Appendix F). The charter should define service standards in clear terms and simple language and should inform students and other stakeholders of contact and feedback mechanisms.

10.4 Action Plan: The charter should be supported by an action plan, which describes in detail how the commitments and standards set out in the charter, and other enhancements, will be delivered and evaluated by TU Dublin.

10.5 Charters and Action Plans: Charters and action plans should be produced as part of the same process and have separate but complementary roles. While the charter is a short, easy to read, accessible document which acts as a public commitment to students and others on what they can expect to receive when dealing with TU Dublin, the action plan is a more detailed document which describes how the charter commitments will be delivered and evaluated by TU Dublin. Both documents
should share the same timeframe (ideally 5 years).

10.6 **Complaints Procedures:** TU Dublin should have published procedures for the management of complaints both in respect of students and of other stakeholders. Such processes should, where relevant, make reference to the role of Ombudsman and the Ombudsman for children.

Please see Appendix F: Principles of Quality Customer Service and Clients of the Public Service

Appendix C  Ethics in Public Office

Obligations under the Ethics Legislation
All those who hold designated directorships (Board memberships) or occupy designated positions of employment in public bodies, prescribed by regulation for the purposes of the Ethics legislation (i.e. the Ethics in Public Office Acts 1995 and 2001), must comply with the relevant provisions of the legislation. Compliance with the Ethics Acts is deemed to be a condition of appointment or employment. While the summary below is provided for information, detailed guidelines on compliance with the Ethics Acts has been published by the Standards in Public Office Commission (the Standards Commission) on its website at https://www.sipo.ie/en/

All persons who have obligations under the Acts are obliged to act in accordance with the guidelines and any advice given by the Standards Commission, unless by so doing they would be contravening another provision of the legislation.

This Code further requires all individuals who occupy designated positions to make an Annual Return including a nil return where applicable.

Disclosure of Registrable Interests
The Ethics in Public Office Act 1995 provides for the disclosure of registrable interests by holders of designated Board memberships and occupiers of designated positions of employment in public bodies prescribed for the purposes of the Ethics legislation. Briefly, the requirements are:

Designated Board Members: Are required in each year, during any part of which they hold or held a designated Board membership of a public body prescribed by regulations made by the Minister for Public Expenditure and Reform, to prepare and furnish, in a form determined by that Minister, a statement in writing of their registrable interests, and the interests, of which a person has actual knowledge, of his or her spouse or civil partner, a child of the person or a child of the person’s spouse or civil partner, which could materially influence the person in, or in relation to, the performance of the person’s official functions by reason of the fact that such performance could so affect those interests as to confer on, or withhold from, the person, his or her spouse or civil partner, a child of the person or a child of the person’s spouse or civil partner, a substantial benefit. The statement must be furnished to the Standards Commission and to such an officer of the body as determined by the Minister for Public Expenditure and Reform.

Designated Positions of Employment: Are required in each year, during any part of which they occupy or occupied a designated position of employment in a public body, prescribed by regulations made by the Minister for Public Expenditure and Reform, to prepare and furnish, in a form determined by that Minister, a statement in writing of their registrable interests, and the interests, of which a person has actual knowledge, of his or her spouse or civil partner, a child of the person or a child of the person’s spouse or civil partner, which could materially influence the person in, or in relation to, the performance of the person’s official functions by reason of the fact that such performance could so affect those interests as to confer on, or withhold from, the person, his or her spouse or civil partner, a child of the person or a child of the person’s spouse or civil partner, a substantial benefit. The statement must be furnished to the relevant authority for the position as determined by the Minister for Public Expenditure and Reform.

Material Interests: The holder of a designated Board membership or the occupier of a designated position of employment is required to furnish a statement of a material interest where a function falls to be performed, and where the Board member or the employee or a “connected person” (e.g. a relative or a business associate
of the Board member or employee) has a material interest in a matter to which the function relates. Such a statement must be furnished to the other Board members of the public body by a designated Board member or to the relevant authority by the occupier of a designated position of employment. The function must not be performed unless there are compelling reasons to do so. If a designated Board member or the occupier of a designated position of employment intends to perform the function, he or she must, either before doing so, or if that is not reasonably practical, as soon as possible afterwards, prepare and furnish a statement in writing of the compelling reasons to the other Board members and to the Standards in Public Office Commission if a designated Board member, or to the relevant authority if an employee. This obligation applies whether or not the interest has already been disclosed in a statement of registrable interests.

**Tax Clearance Obligations of Appointees to “Senior Office”**

The tax clearance provisions of the Standards in Public Office Act 2001 apply to persons appointed to "senior office", i.e. to a designated position of employment or to a designated Board membership in a public body under the 1995 Ethics Act, in relation to which the remuneration is not less than the lowest remuneration of a Deputy Secretary General in the civil service. All persons appointed to a designated Board membership “senior office” must provide to the Standards in Public Office Commission not more than nine months after the date on which he or she is appointed:

- a tax clearance certificate that is in force and was issued to the person not more than nine months before, and not more than nine months after, the appointment date; or
- an application statement that was issued to the person and was made not more than nine months before, and not more than nine months after, the appointment date; and
- a statutory declaration, made by the person not more than one month before, and not more than one month after, the date of appointment, that he or she, to the best of his or her knowledge and belief, is in compliance with the obligations imposed on him or her by the Tax Acts and is not aware of any impediment to the issue of a Tax Clearance Certificate.

**Investigations**

The Board and employees of public bodies can be subject to investigation by the Standards Commission, either where it considers it appropriate to do so, or following a complaint, or where there is contravention of the tax clearance requirements, and there is nothing that precludes the Standards Commission from taking into account this Code in such an investigation.

**Additional Information and Advice**

This appendix is provided for information purposes only and does not constitute a legal interpretation of the Ethics Acts. Regard should be had in the first instance to the Standards Commission’s guidelines. Requests for advice on compliance with the legislation should be referred to the Standards Commission.

**Complaints**
Maintain a well-publicised, accessible, transparent and simple-to-use system of dealing with complaints about the quality of service provided.

TU Dublin may be subject to complaints at both the level of the official and the organisation. These may relate to the quality of the service itself or the manner in which the service was delivered. The scope for student or other stakeholder dissatisfaction can be reduced by provision of appropriate information to the student or other stakeholder regarding the available service and training to staff in how to deliver the service.

In setting up systems to deal with student or other stakeholder dissatisfaction, organisations should ensure that all complaints are dealt with objectively in a consistent, open and fair manner.
Some elements to be included in Comments/Complaints systems include:

- information regarding complaints procedures should be freely available to the public at all points of service delivery and should be publicised by organisations;
- complaints procedures should be straightforward and access should be conveniently available to student or other stakeholder and clients at no cost wherever possible;
- all complaints should be directed to, and acknowledged, by a named officer of appropriate grade;
- appropriate training should be provided to all staff dealing with complaints. complaints should be addressed as quickly as possible and the customer should be kept informed of progress;
- complaints procedures should be subjected to regular review; and
- provisions should be made for speedy correction of errors and, where required, the making of appropriate redress to the complainant.

**Appeals**

Similarly, maintain a formalised, well-publicised, accessible, transparent and simple-to-use system of appeal/review for customers who are dissatisfied with decisions in relation to services.

**Consultation and Evaluation**

Provide a structured approach to meaningful consultation with, and participation by, the student or other stakeholder in relation to the development, delivery and review of services. Ensure meaningful evaluation of service delivery.

**Choice**

Provide choice, where feasible, in service delivery including payment methods, location of contact points, opening hours and delivery times. Use available and emerging technologies to ensure maximum access and choice and quality of delivery.

**Official Languages Equality**

Provide quality services through Irish and/or bilingually and inform student or other stakeholder of its right to choose to be dealt with through one or other of the official languages.

**Better Co-ordination**

Foster a more co-ordinated and integrated approach to delivery of TU Dublin’s services.

**Internal Customer**

Ensure that employees are recognised as internal stakeholders and that they are properly supported and consulted with regard to service delivery issues.

Appendix K  HEA Financial Memorandum

Financial Memorandum between the HEA and Higher Education Institutions

The financial memorandum has an effective date of 01 January 2017.

Preamble

1. This memorandum sets out the formal relationship between the Higher Education Authority (‘the Authority’) and each higher education institution (‘the institution’). The foundation of the relationship is provision of funding by the Authority to the institution, in accordance with relevant legislation and public policy and accountability for this funding within statutory and other agreed accountability frameworks detailed in the covering statement from the HEA (Appendix).

2. The basis for the relationship is laid down in relevant legislation, statutes, charters, articles and instruments of governance, particularly those which establish the Authority and the institution and regulate their governance, and those which establish the degree of their autonomy and set out their powers and duties.

3. For these arrangements to be effective the Authority and the institution have to work in partnership to achieve agreed objectives for higher education and to secure best value for funds provided by the State.

4. The Authority recognises that the Institution may also undertake activities and have to comply with legislation and regulation which fall outside the scope of this partnership.

Purpose of the memorandum

Accordingly, this memorandum sets out the agreed expectations which the institution, in the spirit of constructive partnership, has a right to have of the Authority. It also sets out the Authority’s expectations of the institution and the requirements which are a condition of the Authority’s funding.

What the Institution can expect of the Authority

The Authority will conduct its affairs at all times to the highest accepted standards for public sector bodies and in accordance with principles set out in the Code of Practice for the Governance of State Bodies. It will act reasonably on the basis of the fullest available evidence and objective analysis. Subject to any legal requirement to observe confidentiality, it will be open and transparent with the institutions it funds and other stakeholders, and will give or be prepared to give a public justification of all its decisions.

2. The Authority in line with the Code of Practice for State Bodies will maintain a policy of openness and transparency in relation to the work of the Authority and the services it aims to provide.

3. The Authority will maintain regular and frequent dialogue with institutions and their representative bodies where it seems appropriate in order to:

   • promote a shared understanding of the aspirations, needs and concerns of the various stakeholders;

Appendix L  Framework for a Travel Policy

Introduction

In matters of official travel and subsistence, TU Dublin should adhere to civil service procedures as set-out in guidance issued by the Department of Public Expenditure and Reform, either communicated directly or via the Department of Education and Skills.

TU Dublin’s Governing Body should satisfy itself that the principles of its travel policy are adhered to and that the internal audit process is effective in ensuring that TU Dublin is fully complying with the policy.

Governing Body members should be advised of the details of TU Dublin’s travel policy. Governing Body members and employees must only claim travel and subsistence allowances in respect of official travel and must not make a claim from more than one State body for the same journey.

Intent and Scope

The purpose of the travel policy should be to ensure that value for money is obtained in respect of each official trip undertaken, consistent with the requirements of official business. Alternatives to frequent travel, such as use of video conferencing facilities, should also be considered.

**Domestic Travel**

1.8.1.1 Maximum use to be made of public transportation options for official travel; the use of taxi services should be rationalised as much as possible.

**Air Travel**

1.8.1.2 A statement of the practice to be followed e.g. the criteria to be applied in choosing either restricted internet fares or fully-flexible economy class fares, where this approach is cost-effective.

1.8.1.3 Outline of the exceptional circumstances in which more expensive Business Class options may be considered (the use of premium rates can rarely be justified).

1.8.1.4 Frequent flyer points should not influence decisions taken in relation to the carriers used for official business.

**Accommodation**

1.8.1.5 A statement to the effect that if an employee is not required to stay in a particular hotel for business reasons, the standard of hotel used should not be extravagant e.g. that three or four star hotels should be used.
Appendix M  Audit and Risk Committee Guidance

Introduction

The purpose of this document is to set out Audit and Risk Committee best practice guidance under the *Code of Practice for the Governance of State Bodies*, to provide guidance to TU Dublin in making appropriate arrangements for their Audit and Risk Committee, and to assist the Audit and Risk Committee in carrying out their role and responsibilities.

Best practice requires that the Governing Body should ensure that the Audit and Risk Committee arrangements in place are suited to the particular circumstances of TU Dublin.

In general Audit and Risk Committees should be combined, however there may be requirement to have separate Audit and Risk Committees.

Audit and Risk Committee

Guiding Principles

While the Governing Body has a duty to act in TU Dublin’s interest, the Audit and Risk Committee has a particular role, acting independently of TU Dublin’s Management, to ensure that the interests of Government and other stakeholders are fully protected in relation to business and financial reporting and internal control.

Code Provisions

1.1  **Internal Controls**: The Governing Body should ensure that there are effective arrangements in place in TU Dublin for governance, risk management and internal control. The Governing Body should be supported by:

- an Audit and Risk Committee; and
- an Internal Audit Unit operating to the International Standards of the Institute of Internal Auditors or equivalent professional standards.

1.2  Audit and Risk Committee: The Governing Body should establish an Audit and Risk Committee of at
least 3 independent non-executive Governing Body members (excluding the Chair of the Governing Body) with written terms of reference which deals clearly with authority and duties.

The Governing Body should have due regard for the benefits of diversity on the Audit and Risk Committee including gender.

In general, the Audit and Risk Committees should be combined, however, it may be agreed that these are kept separate.

1.3 **Terms of Reference:** The roles and responsibilities of the Audit and Risk Committee should be set out in a written terms of reference which should be communicated to all members of the Committee.

The terms of reference for the Audit and Risk Committee should be set by the Governing Body and should include provisions regarding:

- membership;
- reporting requirements;
- authority to investigate;
- meetings – timing, conduct and frequency;
- information requirements;
- value for money;
- governance; and
- responsibilities regarding:
  - risk management;
  - internal control;
  - internal audit;
  - external audit; and
  - reviewing its own effectiveness.

The Audit and Risk Committee should review on an annual basis their terms of reference and recommend any necessary changes to the Governing Body. It is important that a balance is struck during Audit and Risk Committee meetings between governance, risk management, internal control, and financial reporting items.

**Exhibit A:** *Model Terms of Reference for Audit and Risk Committees*

1.4 **Chairperson of the Governing Body:** The Audit and Risk Committee may invite appropriate persons (including the Chair of the Governing Body) to attend an Audit and Risk Committee for a specific purpose.

1.5 **Appointments:** Appointments to the Audit and Risk Committee should be made by the Governing Body in consultation with the Chairperson of the Audit and Risk Committee. The Governing Body should satisfy itself that at least one member of the Audit and Risk Committee has recent and relevant financial experience.
1.6 **Duration of Appointment**: The duration of appointment of Audit and Risk Committee members should be clearly set out at time of appointment. It is recommended that the first appointment be for the term of the Governing Body, which can be renewed for one further term.

**Exhibit B: Model Letter of Appointment for an Audit & Risk Committee Member**

1.10 **Conflict of Interest**: The process for recording declarations of conflicts of interest in the Audit and Risk Committee should be the same used at Governing Body level. Each member of the Committee should take personal responsibility to declare any potential conflict of interest arising in relation to any items on the agenda for Audit and Risk Committee meetings.

1.11 **Register of Members Interests**: A register of Audit and Risk Committee members’ interests should be maintained by the Governing Body. Members should be required to declare any potential conflict of interest with any of the business items on the agenda for the Audit and Risk Committee meeting. The Committee should specify its procedures where a conflict of interest arises including
the requirement that the relevant member brings this to the attention of the Chairperson and, where necessary, leaves the room for the duration of the discussion and not take part in any decisions relating to the discussion. Similar arrangements should apply in relation to meeting documentation, where such documentation is not made available to the member. This should be noted in the minutes of the meeting.

1.14 **Authority to Investigate:** The Audit and Risk Committee should have explicit authority to investigate any matters within its terms of reference, as well as the resources and outside professional advice it needs to do so, and full access to information.

1.15 **Relationships:** As the business of the Audit and Risk Committee requires, the President, Secretary/Financial Controller, Head of Internal Audit and the Comptroller and Auditor General should attend for specific meetings or agenda items at the Committee’s request. 1.17 **Draft Financial Statements:** The Audit and Risk Committee should review the draft financial statements recognizing the role of the HEA and financial reporting standards, before recommending their adoption by the Governing Body and where possible, before submission for audit taking account of public accountability and the special considerations which attach to TU Dublin in relation to their management and operation, consider whether the annual report and financial statements, taken as a whole, is fair, balanced and understandable and provides the information necessary for an assessment of TU Dublin’s financial position and financial performance, business model and strategy.\(^{36}\)

Appendix N  Governing Body Self-Assessment Evaluation Questionnaire

Governing Body Self-Assessment Evaluation Questionnaire

To be completed by the Chairperson and each Governing Body member of TU Dublin

Instructions for Completion:

The intention is that each Governing Body member will complete this self-assessment questionnaire independently. The Chairperson of the Governing Body, after collating and reviewing the responses, should lead a discussion on the key issues arising from the questionnaire. The focus of the discussion should be on areas where improvement is required or where there is a wider variation in responses to the issues raised in the questionnaire.

The results of the self-assessment questionnaire and any actions arising should be reported to the Governing Body for further discussion. TU Dublin may wish to tailor this self-assessment questionnaire to the particular circumstances of TU Dublin giving more weight to certain aspects of the questionnaire depending on the nature, scale and responsibilities of TU Dublin. This will be influenced by the following factors:

- TU Dublin’s governing legislation;
- The Governing Body’s terms of reference;
- The environment within which TU Dublin operates.
- The maturity of the Governing Body; and
- TU Dublin’s corporate governance arrangements and performance.

Scoring is as follows:

1 = Very Dissatisfied
2 = Dissatisfied
3 = Neither Satisfied nor Dissatisfied
4 = Satisfied
5 = Very Satisfied
