

### SDG Goal 4 Quality Education

Year	Event
Ongoing	TU Dublin, as part of a consortium with Belfast Metropolitan College, collaborated on the <a href="#">European digital construction project - 'ARISE'</a> . The mission is to contribute to the European Recovery and Resilience Plans 2021 –2027, by providing the construction sector workforce with digital and sustainable energy skills of the future. The project also provides demand side guidelines for marketable appreciation of skills and exploitation of benefits thereof.
Ongoing	TU Dublin is a signatory to <a href="#">Principles for Responsible Management Education (PRME)</a> , a United Nations initiative that was founded to support the integration of universal values into curricula and research with a view to contributing to a more sustainable and inclusive global economy and help build more prosperous societies.
Ongoing	The EUT+ alliance made progress in the design of <a href="#">European Degrees in Engineering</a> at Bachelor and Master levels. Bachelors and Masters' clusters have a common objective based on mobility and expertise. These will be clusters of pre-existing national curricula, which converge progressively towards a common road map, involving at least three EUT+ partner institutions.
Ongoing	<a href="#">TU Dublin Strategic Intent 2030</a> continues to be rolled out, committing to 'A dynamic new model of education producing the most sought-after digitally-literate graduates, [which] will be embedded in the University, transforming the learning opportunities and experience for all'.
Ongoing	On January 1 <sup>st</sup> 2024, the Higher Education Authority Performance Funding project ' <a href="#">Towards a Sustainable University Campus</a> ' was launched. This initiative is one for major decarbonization through upgrading existing monitoring and control systems, working cross- sector with stakeholders and digitizing exemplar buildings.
