MSc Digital & Content Marketing

Full-Time

Gain skills to launch your digital marketing career

TU Dublin's School of Marketing has developed a new and innovative programme for business graduates who wish to specialise in the area of digital marketing.

The MSc Digital Marketing is designed to build participants expertise in three key areas: strategy, analytics, and technology. Graduates working in marketing and business are learning on the job how to 'do digital', this programme will build knowledge, competency and skills that will allow graduates to enter the workforce prepared for digital marketing practice.

Despite the recent reinvigoration of curricula in the area of digital marketing there is still a gap in the market for employers seeking out graduates with extensive grounding in enabling technologies. The Masters in Digital Marketing addresses that need. The work-placement aspect of this exciting new programme allows the participants to build their experience of the digital marketing work environment.

This programme is delivered by leading marketing academics, with a wide range of industry engagement – from working with real-client projects to having industry guest speakers in the class room.

- Cutting Edge Seminar Series
- Expert Guest Lecturers

“ I thoroughly enjoyed the experience of the MSc Digital Marketing at TU Dublin. The various skills I learnt through modules such as Value-Driven Strategic Marketing, Social Media Marketing and Data Analytics are skills that I use every day in my current role.

Throughout the year, there were many talks from industry experts and visits to successful companies within the industry such as LinkedIn and Google. The lecturers are a healthy balance between academics and those working within the Digital Marketing space, which provides relevant and essential learnings from each perspective. Additionally, the course provided an invaluable opportunity to create relationships with industry experts who provided career advice and help throughout the year.

The assignments are very much based on the concept of 'on-the-job' learning, which is inherently important to TU Dublin. We got the opportunity to work with real companies and live clients, creating social media campaigns and digital marketing projects that actually came to life. Additionally, the work placement aspect of the course provided me with the opportunity to work with a world-class agency where I continue to work as a Social Media & Content Specialist.”

“ If I were given an opportunity to choose my postgraduate college again, I'd still choose TU Dublin.

The amount of support given from staff and lecturers in TU Dublin was tremendous. With the positive, open culture flowing in the campus, it makes blending in the college environment so much easier, especially for international students like myself.
