Fáilte
Welcome

Welcome from Dr Deirdre Lillis, President of TU Dublin

I'm delighted you're considering TU Dublin as the place to take your next big step in your education and future career. Choosing a university in another country is a major, life-changing decision, and at TU Dublin, we are committed to giving you the strongest possible start, not just for your time at university, but for your entire career.

What sets us apart? At TU Dublin, you won't just attend lectures and sit exams; you will learn by doing, through hands-on projects, team collaboration, industry placements, and real-world problem-solving from your very first day. Many of our programmes are developed in close partnership with leading employers, so you graduate with the skills, experience, and professional network that today's global job market demands. This is why TU Dublin consistently achieves some of the best graduate employment rates in Ireland.

Our vibrant community includes over 27,000 students from Ireland and more than 100 countries worldwide, studying across five distinctive campuses in Dublin: Aungier Street, Blanchardstown, Bolton Street, Grangegorman, and Tallaght. Dublin itself is a friendly, multicultural European capital, a hub for global business, innovation, and the arts, offering many opportunities to launch your career.

TU Dublin is the only technological university in Dublin, and a leader in research and Innovation. TU Dublin is Ireland's top university for knowledge transfer to enterprise, with 35 patents, 44 spinouts, and €200m in revenue from research that delivers real-world impact.

If you're looking for a university where you can develop real-world skills, engage with innovative companies, and prepare to succeed in a global career, TU Dublin is your perfect choice.

We look forward to welcoming you to Dublin!

Warm wishes,

Dr Deirdre Lillis

President, TU Dublin

Welcome from the International Office

We're so excited you're thinking of joining us at TU Dublin. Whether you're planning a short-term study abroad, a full degree, or an Erasmus adventure, you'll find a friendly community that's ready to welcome you.

Our campuses across the city and suburbs are buzzing with ideas, creativity, and culture. You'll learn in state-of-the-art labs, studios, kitchens, or lecture theatres, depending on what you're studying! We've got student cafés, rooftop gardens, dance studios, sports facilities, and chill-out zones too. And don't worry, we also have excellent support services to help with everything from settling in to career planning.

As one of Ireland's largest and most diverse universities, TU Dublin is all about real-world learning, global thinking, and making friends for life. We can't wait to meet you!

The TU Dublin International Office Team

Contents

Ireland – Small Country, Big Welcome

Get ready to fall in love with the island of a thousand welcomes (or as we say, céad míle fáilte). Ireland is friendly, safe, and packed with personality. Picture dramatic coastlines, rolling green hills, and cities full of music, culture, and good vibes. It's a place where strangers chat at bus stops, where myth and modern tech mix seamlessly, and where your classroom might just be a 200-year-old building with superfast Wi-Fi. With easy access to the rest of Europe, Ireland is the perfect launchpad for your next adventure.

Dublin – Your New Favourite City

Dublin is buzzing with energy. It's creative, curious, and full of character. You'll find music on the streets, art around every corner, and students from all over the world filling the cafes, libraries, and city parks. It's home to global companies like Google and TikTok, but also the best bookshops, food markets, and vintage stores. Want a quick walk to the sea or the mountains? No problem. Dublin offers the best of both worlds, city life with nature on your doorstep.

TU Dublin at a Glance

5 Campuses
Grangegorman, Aungier Street, Bolton Street, Blanchardstown, and Tallaght, connected across Ireland's capital.

27,000+ Students from Over 100 Countries
A vibrant, multicultural community where every student belongs.

Top 100 Young Universities in the World
Ranked in the Top 100 globally in the Times Higher Education Young University Rankings. with top 100 companies in Ireland.

Affordable Tuition Fees & Flexible Payments
International fees range from €12,500–€21,750, depending on the course. Pay 50% to secure your place, and the remaining 50% by January 31st of the next year.

Career-Focused & Practical Learning
Hands-on projects, labs, and industry challenges designed to build real-world skills.

Internships & Global Exchange Opportunities
Many courses include work placements or study abroad through Erasmus+ and international partners.

Small Class Sizes & Personal Connections
Smaller cohorts and approachable lecturers create a supportive learning environment.

Industry-Qualified Lecturers
Many of our staff bring real industry experience into the classroom.

Globally Recognised Accreditations
Courses aligned with professional bodies like Engineers Ireland, Chartered Accountants Ireland, and the Law Society.

Ireland's Most Employable Graduates
Consistently named in The Irish Times as producing Ireland's most employable graduates.

Student Supports
Access medical care, counselling, career guidance, and academic support on campus.

Award-Winning Sustainability Initiatives Access TU Dublin is a Times Higher Education Impact Award finalist and a leader in Green Campus initiatives.

Foundation & Pre-Sessional Programmes

Code	Course	IELTS	Location	Years	Fees Per Year €
TU697	International Foundation Programme (September)	Note 1	Aungier Street	1	€ 12,500
TU698	International Foundation Programme (January)	Note 1	Aungier Street	1	€ 12,500
TU300	International Bridging Programme (July)	Note 2	Aungier Street	8 weeks	€3,500

Note 1. The minimum IELTS requirement is overall 5.0 for all programmes. Progression to some programmes may require a higher level so please contact the Programme Coordinator to confirm the level required. Commence undergraduate programme the following September.

Note 2: There are international bridging programmes for undergraduate, postgraduate and PhD preparation. The IELTS entry requirement is 0.5 of a band less than the direct entry requirement. This is overall 6 for most programmes. Upon successful completion of the programme you are guaranteed a place on your destination programme of choice. No further IELTS is required.

What is the International Foundation Programme?

The International Foundation Programme (IFP) is a one year programme run by TU Dublin. It has been developed for international students who need language and/or academic preparation for further study on undergraduate programmes in Ireland. Upon successful completion of the programme and International Foundation Certificate (Special Purpose Award, Level 6, 60 ECTS Credits) will be awarded by TU Dublin and you will be guaranteed a place on your undergraduate programme of choice at TU Dublin.

What is the International Bridging Programme?

The International Bridging Programme at TU Dublin is an intensive 8 week programme developed especially for international students who need further English language preparation to progress to their undergraduate studies at TU Dublin. If you have already met the academic requirements for direct entry and just need to further improve your English, it is the ideal pathway for you.

Advanced Entry

Advanced entry is available to some of our courses offered at TU Dublin and applications will open in November 2024. Availability of places will be only confirmed at the end of April 2025 and you will be notified after this date.

English Language Requirement

Undergraduate applicants whose first language is not English may be required to provide evidence of English language proficiency. The table below includes the English language proficiency tests and results which are acceptable for most programmes at undergraduate level. The certificate of your English language standard must have been issued within 2 years of the expected start of your course.

Undergraduate applicants who can verify that they have studied their school-leaving exams through English (e.g. A-Levels, SATs) but have not taken English as an examined language may also meet English language proficiency requirements. Note: where an undergraduate programme has a specific English entry requirement (e.g. TU985 Journalism), applicants must meet this requirement or equivalent.

In relation to IELTS, the minimum score is 6.0 with no less than 6 in each component unless otherwise stated. Please be aware that some programmes require a higher score. Details can be found on individual programme pages.

* Applicants will be advised of and must submit a portfolio.
~ Applicants will be advised of and must attend an audition.

Business

TU910 – BSc in Accounting (Level 8)
A 3–4 year honours degree located at Aungier Street, geared towards professional accountancy careers. It prepares students for roles in finance, corporate accountancy, and fund management, often leading to training contracts with firms.

TU912 – BSc in Business Analytics
A four year programme at Aungier Street blending statistical data analysis, business management, and computational thinking. Graduates are well-equipped for roles like data analyst, BI analyst, or IT consultant.

TU965 – BA (Hons) in International Business & Languages
A four year dual-discipline degree at Aungier Street that combines international business studies with language proficiency. Ideal for careers in global trade, market expansion, and consultancy.

A full list of business courses are available via the **QR Code below:**

IT & Digital

TU863 – BSc in Digital Forensics & Cyber Security
Based at Blanchardstown, this degree covers digital investigation, cyber threat analysis, and network security. Graduates are prepared for roles in cyber security, threat intelligence, and forensic investigation.

TU862 – BSc (Hons) in Computing with Machine Learning & AI
A fulltime four year programme at Tallaght integrating computing, AI, data science and business intelligence. Includes a sixmonth industry placement with leading tech firms.

TU850 – BSc (Hons) in Data Science & Artificial Intelligence
Based at Grangegorman, this course combines foundational computer science with advanced skills in AI, data analysis, and machine learning. Designed for careers in both tech and business sectors.

A full list of IT & Digital courses are available via the **QR Code.**

Health Sciences

TU864 – BSc (Hons) in DNA & Forensic Analysis
A Tallaght based degree combining biological and chemical sciences with hands on forensic and DNA fingerprinting training. Preps graduates for roles in biotechnology, clinical research, and quality assurance.

TU871 – BSc (Hons) in Optometry
Delivered at Grangegorman, this is a four year professional programme offering clinical and theoretical training in eye care. Students train in TU Dublin's National Optometry Centre and undertake external placements.

TU872 – BSc (Hons) in Public Health Nutrition
This four-year degree equips students with the skills to promote health and prevent disease through nutrition. Combining science, policy, and communication, it prepares graduates to work in public health settings, community outreach, or health promotion, with a strong emphasis on tackling nutrition-related health inequalities.

TU936 – BSc (Hons) in Sport Science and Health
This dynamic four-year degree explores the science behind athletic performance and physical well-being. Students study areas like physiology, biomechanics, and nutrition, alongside practical lab work and placements. Graduates are prepared for roles in sport performance, health promotion, rehabilitation, or further study in allied health professions. TU872 – Public Health Nutrition

A full list of health science courses are available via the **QR Code:**

Creative Arts & Design

TU974 – BA (Hons) Fine Art
A four year honours art programme at Grangegorman nurturing studio practice, conceptual thinking, and portfolio development.

TU811 – BSc (Hons) Product Design
Spanning Aungier Street, Bolton Street and Grangegorman, this vocational design degree emphasizes industrial design, prototypes, and creative problem-solving.

TU975 – BA (Hons) Interior Design
Based at Grangegorman, this course explores spatial design, exhibition development, and interiors through practical studio work.

TU963 – BMus (Hons) Music
A four year music degree at Grangegorman focusing on performance, composition, and music technology.

TU983 – BA (Hons) Film & Broadcasting
Based at Grangegorman, this honours programme covers filmmaking, digital media production, and broadcasting theory and practice.

A full list of creative arts and design courses areavailable via the QR Code below:

Hospitality & Culinary

TU954 – BA (Hons) in Event Management
Based at Grangegorman, this four year degree trains students in planning and managing large-scale events, combining marketing, logistics, and organizational strategy.

TU942 – BA (Hons) in Culinary Arts
A four year professional course at Grangegorman providing training in cooking techniques, kitchen operations, and culinary entrepreneurship.

TU952 – BSc (Hons) in International Hospitality Management
Delivered at Grangegorman, this course emphasizes global hospitality operations, strategic management, and tourism best practices.

A full list of culinry and hospitality courses are available via the **QR Code below:**

Architecture & Engineering

TU832 – BA/BArch Architecture
Publicly listed as an architecture programme; however, detailed description not available. Likely a four year honours architecture degree.

TU837 – BSc (Hons) in Quantity Surveying & Construction Economics
Located at Bolton Street, focused on construction cost, project management, and economics in the built environment.

TU804 – BEng (Hons) in Engineering (General Entry)
A four year general engineering programme offered at Blanchardstown with broad exposure across engineering disciplines.

A full list of Architecture and Engineering courses are available via the **QR Codes.**

Application Top Tips

1. **Start with Research**
Explore courses that match your interests, strengths, and future goals.

2. **Talk to Your Guidance Counsellor**

3. **Prepare Application Documents**
Get your passport, academic transcripts, grading scale, proof of English, and a CV ready. (Proof of English is only needed if your test was taken in the last 2 years.)

4. **Apply Through the TU Dublin CRM System**
Pay a €50 fee to apply for up to four programmes.

5. **Track Your Application**
Log in regularly to check your status and respond to any requests for more information.

6. **Upload Final High School Results**
Once received, upload your results to complete your application file.

7. **Accept Your Offer**
Secure your place by accepting the offer and paying at least 50% of your tuition fees.

8. **Receive Confirmation Receipt**
Your TransferMate payment receipt can be used as part of your visa application.

9. **Check Your Immigration Status**
Use the QR code provided to access visa application details and immigration guidance.

10. **Get Ready for Dublin!**
Start planning your arrival — TU Dublin offers support on accommodation, orientation, and student life.

Grangegorman

Our campus at Grangegorman, which is the largest investment in Higher Education in Ireland in over a century, brings together many of our Dublin city activities in one vibrant, cutting-edge campus, providing our students with an incomparable educational experience.

Grangegorman has beautifully restored a historic part of Dublin city, based in the heart of the city between Smithfield and Stoneybatter, with entrances from Broadstone, Stoneybatter and North Circular Road. The campus is the beating heart of this area.

The campus currently accommodates 10,000 students in our new buildings, the East Quad and the Central Quad, which will grow to 15,000 in the coming years with the opening of the West Quad.

The newly built Academic Hub & Library houses the library and learning spaces for the campus, including the Career Development Centre, Maths Learning Centre and Disability Support Service.

In keeping with our commitment to sustainability, TU Dublin is committed to promoting sustainable modes of transport. The campus is fully pedestrianised, and we encourage using public transport to access the campus.

Aungier Street

Our Aungier Street campus, one of three Dublin City Centre locations in the heart of South Dublin, specalises in business related courses.

The campus, located on a 26,000sqm site on Aungier Street in Dublin 2, is built on the historical site of the former Jacob's factory. The campus is close to the Green Luas line stop at St Stephen's Green and a range of cross-city Dublin Bus routes stop outside the campus, including the 14, 15, 16, 65, 140 and 142. The campus is a five minute walk from Dame Street, which is also serviced by a multitude of bus routes.

The Aungier Street campus is planned to relocate to Grangegorman following completion of the West Quad, currently estimated for the end of 2029. Students beginning their programmes in 2026 are expected to complete their studies at Aungier Street.

Bolton Street

Our Bolton Street campus has been a centre for technological education for over 100 years. This three-storey neo-classical building was designed by CJ McCarthy and was built in 1908. It has since been extensively extended and retains many of its ornate features.

Specialising in the areas of Engineering and the Built Environment, the campus is fully equipped with computer and electronic labs, lecture theatres with the latest audio-visual equipment and learning aids, fully equipped workshops, a library, restaurants, students' union area, and student recreation area.

Bolton Street is centrally located, just a five-minute walk from both O'Connell Street and the Grangegorman campus, is serviced by a wide choice of public transport options.

Blanchardstown

Our Blanchardstown campus, based in North West Dublin, is home to over 3,500 students. The campus is located on a 22.5-hectare site within the IDA College Business & Technology Park, Blanchardstown Road North, Dublin 15.

The modern campus comprises of nine buildings, with a total area of over 22,000 sqm. The campus is fully equipped with computer labs, electronic labs, lecture theatres with the latest audio-visual equipment and learning aids, fully equipped workshops, library, restaurants, sports hall, fitness centre, students' union area and lots of parking for bicycles.

A new building, Áras Gael, opened in 2025 creating room for 600 more students on the campus. It includes classrooms, computer labs, media labs and informal learning spaces.

Tallaght

Our Tallaght campus, based in South West Dublin, is home to over 5,000 students. The campus is located on an 18-hectare site between Old Blessington Road, Belgard Road and Greenhills Road in Tallaght, Dublin 24.

The campus is fully equipped with lecture theatres comprising of the latest audio-visual equipment and learning aids, science, electronic and computer labs, state-of-the-art culinary kitchens, restaurant, library, coffee shop and students' union area.

By September 2025, the University will open Tallaght North Block, a new facility for hospitality, culinary arts, engineering and apprenticeship students. This follows the recent opening of a Sports Science, Health and Recreation building, which offers state of the art facilities such as laboratories, a fitness suite, an exercise medicine laboratory, a sports hall, and additional lecture theatres.

What our students say...

Adele Poufong - IT management

I study computing with IT management on Tallaght campus. I applied as a mature student and I had some qualification as a QQI in computer science with networking and I had another qualification in business and in multimedia. I chose to study IT because that was something I was passionate about since and when I got to Ireland that was as well one of the things I was public in the market so I was interested in it. It was something that I feel like I can do. My favourite part is the getting together with all the other people, networking and as well the way the student help each other and with the help as well of all the lecturers. TU Dublin because it was convenient for me, easy to get here and as well because I had good review online about TU Dublin. I'm already working as a cybersecurity engineer and operation analyst at dell technology. I got my position when I did my internship there and I got the grad position. My one piece of advice for student is to take one day at a time choosing the course that you love it, that you are passionate about it. That will make you to continue going forward and just walking ahead of, no, not ahead of time, just walking with it as it comes and as it goes.

Raghav Bansal - Computer Science

I did the degree for Bachelor's of Computer Science International and my campus was Grangegorman. I picked my course due to two reasons. One is the foreign languages, you get to learn multiple foreign languages like German, Korean, Chinese and with that you can also learn some coding languages. And the second reason is you get to go abroad and study abroad with the multiple options. My favourite part of the course is to develop a game. You get to develop a game from zero to advanced level. So and mobile applications. So it's so many things to do when you don't have any idea. But when, when it's done, it's, it's the best thing to do. TU Dublin is one of the best university when I was researching. It's affordable, it's established, it's been here for more than 10 years. And the staff and the teachers are so good when when they are teaching you. So I'm just, I just graduated and I'm trying to find a job in computer science in my own field, something in software developer and software engineer. So I'll go and do some work in a good companies. One piece of advice is don't stress out. It's 4 year course and it's going to be hard, but you can do it. Just attend your classes, attend your labs, and it's easy for you smooth road.

Alex Anthony Dela Cruz - Digital Forensics and Cyber Security

I chose this course because I've always had a curious mind and an interest in computers, and I wanted to turn that curiosity into a career. I never really liked building projects but rather analysing them and delving deeper into a system. The course has been incredibly satisfying, especially when I can apply what I've learned in real-world scenarios. The group thesis has really developed my interest into radio access technologies. Out of the classroom, I've also enjoyed being part of MMA and badminton clubs. My advice? Don't do this just for the money talk to your lecturers, build relationships, and you'll get so much more out of it.

Careers Shaped by Industry

Practice Makes Professional

From day one, you'll be learning by doing, whether that's in cutting-edge labs, professional kitchens, media studios or real workplace settings. Our programmes are built around hands-on experience with internships, industry projects, simulations and live briefs that give you the tools to thrive in your chosen field. You won't just earn a qualification you'll graduate with experience, confidence, and career-ready skills that employers are actively seeking.

Leading in WorldSkills

TU Dublin leads Ireland's participation in WorldSkills, the global competition often called the "Olympics of Skills." Whether it's cloud computing, culinary arts, or creative design, our students compete and win on the international stage, building the professionalism, adaptability and performance under pressure that top employers value.

"At TU Dublin, we believe in empowering students through practical excellence.

Partnering with WorldSkills allows us to champion world-class standards and inspire the next generation of skilled professionals to innovate, compete, and lead on a global stage."

Ray English, Board Member
Strategic Development
WorldSkills International

Built with Industry, Backed by Employers

At TU Dublin, we don't just teach about industry we build with it. Our programmes are co-designed with employers like Amazon, Microsoft, Diageo, and Fidelity, ensuring every module is aligned to what the workforce actually needs. You'll learn from lecturers who bring real-world expertise, backed by guest lectures, site visits, live projects and career mentoring that connect your classroom to your future.

Our graduates are leading the way in the job market. The latest Higher Education Authority statistics show that our unique practice-based model delivers results:

78%
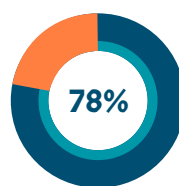

78% of our Level 8 (Honours Degree) graduates are in fulltime employment within just nine months of finishing, ranking TU Dublin #1 for employability in Dublin and #2 nationwide

82%
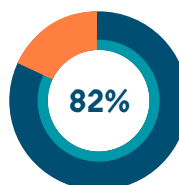

82% of our taught postgraduate graduates have secured full-time roles, again placing us #1 in Dublin and #2 in Ireland

Flexible Pathways

We meet you where you are and help you build a future that works for you. Whether you start with a Level 6 or go straight into a full Honours Degree, our step-by-step progression options let you move forward at your pace. With part-time, full-time, and earn-asyou- learn models, you'll find a route that fits your life, your goals, and your schedule.

Accommodation

One of the biggest decisions some students will have to make when you become a student is where you will live in Dublin. Finding a suitable place to stay while you study is essential, we are here to guide you through the available off-campus options and alternatives.

Choosing your Location
Our campuses are spread across Dublin, including the city centre, Blanchardstown, and Tallaght. When deciding where to live, it's important to consider transportation options (such as public transport, walking, or cycling routes), nearby amenities, housing costs, and the overall atmosphere of the area.

Before choosing your accommodation, use Google Maps to explore the available transport links to your campus. Living near your campus not only makes commuting more affordable and convenient, but it also supports sustainability and contributes positively to your student experience.

On-Campus Accommodation
Although we currently do not offer on-campus accommodation, we provide a wide range of host family and PBSA options to suit your needs.

Choosing the right accommodation can greatly enhance your university experience. If you have any questions or need assistance, feel free to reach out!

Important: Do not pay a deposit on any private rented accommodation until you have seen the accommodation in person or have asked someone known to you to visit the property. Use services like Secureprop for rental scam protection.

Host Family Accommodation
Host families offer rooms in their homes with flexible stays, ranging from 5 to 7 days a week, with options for shorter durations to meet different needs. Under our new rent cap policy, monthly rents range from €500 to €750. Payment is typically made for the weeks during the academic term.

- The cost includes utilities, so you won't need to transfer bills into your name
- Some host families provide a light breakfast or evening meal
- Flexibility in start and end dates

Ideal for first-year students for reasons such as cost, comfort, security, and parents' peace of mind.
A warm, homely atmosphere makes it a great option for easing into independent living.

You can find host family accommodation on tudublinstudentpad.ie. Incoming students can register using '1234' as their student number but must email studentaccommodation@tudublin.ie for access confirmation. Before committing, always visit the home in person and never pay a deposit before meeting the host and viewing the room.

Purpose-Built Student Accommodation (PBSA)
PBSA offers a living experience designed specifically for students, fostering a supportive community for both academic and social well-being. TU Dublin has partnered with Mezzino Student Living, providing exclusive access to a selection of rooms in several prime city locations.

To register your interest, visit Mezzino Student Living.

Student Services & Well-being

Your success at TU Dublin is inextricably linked to your health. We try to create a culture that supports healthy choices, and will empower you to actively look after your own health.

As you start third level, you'll be learning how to manage your lifestyle, creating lifelong habits and attitudes that help to determine your learning, social and emotional growth, health awareness and well-being.

Student Health Centres

Our Student Health Centres provide a holistic approach to health, providing on-campus health care to students. Our service incorporates physical, psychological and social aspects of student health and health promotion.

Counselling Service

The Student Counselling Service is available free of charge to all registered students at TU Dublin, and offers the following confidential supports for a wide range of psychological, mental health, and academic issues:

- One-to-one therapeutic counselling
- Skills sessions to manage specific challenges e.g; anxiety management, procrastination
- Group programmes for ADHD, body acceptance, managing emotions
- Peer Support from trained students
- Online supported mental health programmes via the SilverCloud platform
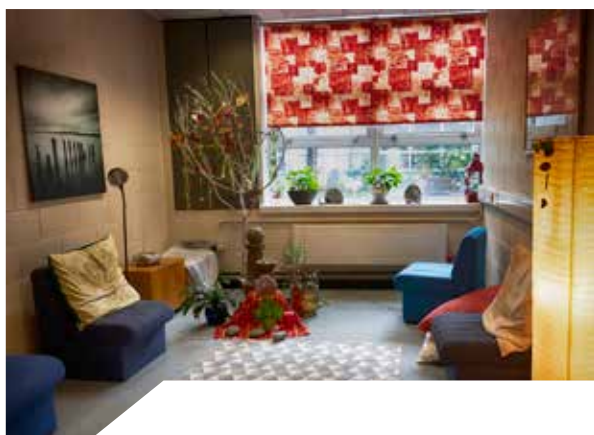

Disability Support Service

The Disability Support Service aims to ensure that any student with a disability does not experience educational disadvantage and that all students can access and equally participate in and benefit from educational opportunities in our University. The Disability Support Service provides confidential one-to-one needs assessments to all students registered with the service. Following this the relevant supports are put in place based on the recommendations of these needs assessments to enhance the educational experience.

Pastoral Care and Chaplaincy

Students come to the Chaplaincy to:
- Talk to one of the chaplains confidentially
- Seek conversation and support
- Enjoy a place of hospitality & kindness
- Meditate or pray in the Quiet Room
- Enjoy a break between classes
- Experience inter-cultural and religious exchange

Online Resources for Wellbeing

TU Dublin subscribes to Silvercloud - a service offering programmes designed to help you improve and maintain your well-being by addressing underlying issues that can have a negative impact on how you would like to live your life. Based on years of clinical research, the programmes are interactive and delivered via an online user-friendly platform.

Students' Union

TU Dublin Students' Union represent the interests and voices of almost 27,000 TU Dublin students. We work for you and provide a range of services and supports to help you make the most of your university experience and have the best year possible.

The core work of the SU is to elect and support all class reps in the University, to represent your voice on decision making committees, to run campaigns on Education, Welfare and Equality topics, to organise events, run activities and promos, and to provide impartial and confidential advice for any issues you may experience during your time in university.

The Officers are elected by students to speak for students on any issues or concerns that arise. We work closely with TU Dublin to try to resolve issues, to ensure you have the best experience possible during your college years. We have elected representatives sitting on boards and committees across the University, this means the student voice is expressed at all levels. As a member organisation of USI (Union of Students Ireland) we not only represent students on a local level in TU Dublin but also on national issues.

University should be a varied experience that offers students not just the opportunity to gain world class qualifications, but also to grow, explore, try new things, find their tribe and make lifelong friends along the way. Students often learn as much out of the classroom as they do in it so, TUDSU offer a range of events and activities across our campuses for students to get involved, have some fun and meet new people.

A key area of work we are passionate about this year is increasing the diversity in our democratic system. The students in TU Dublin are from diverse cultural and social backgrounds, with diverse needs and abilities, this needs to be reflected in the voices representing students. We are striving to increase the diversity in our class reps, student council, and elected reps. This is something our whole team is committed to. We hope to see students get involved and have lots of fun this coming year.

Check out tudublinsu.ie for all our details, then contact your local SU office to find out more about getting involved and, all our upcoming events and activities. We hope to hear from you soon!

Student Life

At TU Dublin, life goes way beyond the classroom. We have support to help you make the most out of student life, from clubs and events to volunteering and student-led adventures.

Societies That Spark Your Student Life

With over 120 student-led societies, there's something for everyone. Joining a society is one of the best ways to meet new people, explore your interests, and make university life even more rewarding. Here's just a taste of what's on offer or check out the full list at mystudentlife.tudublin.ie.

- Academic / Course Related
- Arts / Cultural / Languages
- Business / Enterprise
- Gaming / Technology
- Performing Arts

Volunteer Your Time – Make a Real Impact

Volunteering is a brilliant way to use your talents, meet new people, and make a positive difference. You can get involved in a wide range of projects through the following volunteering societies and events, or learn more at studentvolunteer.ie/tudublin.

- SVP Society
- Sustainability Society
- Enactus Society
- Volunteering Fairs
- Annual Christmas Appeal
- Student Volunteering Awards

Sports & Fitness Facilities

TU Dublin offers a diverse selection of high-quality sport, fitness and performance facilities. Whether you are a recreational gym user, team training, participating or competing in sport, our sports facilities and programmes will cater for you.

Our facilities have achievied outstanding awards under the National Quality Standard award (NQS) accredited by Ireland Active. We deliver top class facilities for all our users and provide athletes with the perfect environment for success.

- Synthetic and Natural Grass Pitches
- FIFA approved all-weather soccer pitches
- GAA Synthetic Pitch including Hurling Skills wall
- Sports Hall catering for Basketball, Badminton, Futsal, Volleyball and more
- Sport Performance Gyms
- Fitness Studios & Dressing Rooms

Parents and Counsellors

TU Dublin Safeguarding Statement

TU Dublin is committed to safeguarding the dignity, rights, and welfare of all members of its community, including children, young people, and vulnerable adults. In line with national legislation and guidance, the University strives to create a safe, inclusive environment that supports the educational and personal development of all students. We promote best practices in safeguarding, ensure strong accountability structures, and fully cooperate with national safeguarding authorities.

Global Standards in International Education

TU Dublin is proud to be part of a global community of universities committed to excellence in international education. As an institution that aligns with the values of the Council of International Schools (CIS), we uphold high standards in academic quality, student welfare, and global engagement. Our participation in international admissions networks, Erasmus+ mobility, and the European University of Technology (EUt+) alliance reflects our deep commitment to creating a welcoming and supportive environment for international students. We work closely with schools, counsellors, and families to ensure a smooth transition from secondary to higher education, with a focus on personalised support, practical learning, and real-world career outcomes.

Age Requirements

EEA and Swiss entrants admitted to TU Dublin must normally be seventeen years of age by 1 January following entry. However, the Registrar may grant dispensation for younger students to be admitted. All international entrants (entrants from outside the EEA and Switzerland) must be 18 years old by the 31st of December for September intakes and 18 years old by 31st of March for January intakes. Under-18 international students are required to provide proof of guardianship in advance of registration.

The Registrar can make an exception with regard to the age limit of Irish/EU entrants, but International Entrants must meet the age guidelines. They must also be able to provide proof of guardianship, which as you correctly stated in your email, TU Dublin cannot facilitate.

Health Insurance

All International (Non-EU/EEA) Students registering with TU Dublin will need to purchase their own private medical health insurance, as required by the Irish Naturalisation and Immigration Services (INIS). The insurance policy must cover you from the date you arrive in Ireland until the date you leave. This is an important document to have when you land and when you go to your immigration appointment.

Fees at TU Dublin

If you hold an Irish, EEA, or UK passport but have lived outside Europe, you are normally charged international non-EU tuition fees at TU Dublin. To support globally mobile families like yours, we offer a reduced and consistent annual tuition plan that spreads costs more evenly over four years

This scheme provides a saving of approximately 20% over the full duration of your degree, making it more affordable for students planning to fund their studies through loans or self-funding their education.

Here's how the savings break down across different programmes:

Study Mode	Year 1 Fee	Year 2 Fee	Year 3 Fee	Year 4 Fee	Annualised Fee
Direct Entry Engineering	€14,500	€14,500	€14,500	€4,450	€11,988
Direct Entry Non-Engineering	€13,500	€13,500	€13,500	€3,819	€11,080
Direct Entry Human Nutrition	€21,866	€21,866	€21,866	€4,450	€17,512
Foundation + Non-Engineering	€12,500	€13,500	€13,500	€3,819	€10,830
Foundation + Engineering	€12,500	€14,500	€14,500	€4,450	€11,488
Foundation + Human Nutrition	€12,500	€21,866	€21,866	€4,450	€15,171
