Announcements for 2024 33
In these changing times, where choice has never been more important, picking a university, and a programme of study, can seem like a daunting task. This undergraduate prospectus aims to answer your questions about why TU Dublin might be right for you, and how we will help support you during your university experience. This prospectus holds only a small sample of what we offer at TU Dublin and, while all our undergraduate programmes provide a respected and rigorous education, we also provide opportunities within and outside your course to help you grow academically, personally, and professionally.

We are continuing an investment of €500m in our campus development projects, and are proud of our state-of-the-art, technology-enabled, facilities which enhance our students’ experience. We’re confident that our practice-based education puts our graduates in the best place to deal with whatever the future of work will bring. We also embed sustainability as a learning outcome across all our programmes, enabling our students to become global citizens, ready to contribute to innovative solutions to the world’s most pressing issues.

TU Dublin has a diverse student population, with almost 30,000 students from across Ireland and more than 140 other countries, based on campus locations in the City Centre, Blanchardstown and Tallaght. Our programmes are delivered through our five Faculties - Arts and Humanities; Business; Computing, Digital and Data; Engineering and Built Environment, and Sciences and Health.

I invite you to attend our open days across our five locations, each of which enables connection with our staff and students. Major campus investment includes our Grangegorman campus, which was made for collaboration with exceptional learning facilities and, on our Tallaght Campus, a brand-new Sports, Science and Health building, providing students with state-of-the-art teaching, research, laboratory, and recreation facilities. Other developments, opening in 2024 and 2025, include new Library and Learning facilities in Grangegorman, an Engineering and Sciences building in Tallaght and state-of-the-art teaching facilities in Blanchardstown. Whichever of our five locations you choose, our smaller class sizes allow you to build close working relationships with your fellow students and academic supervisors, getting the most from your university experience.

We look forward to welcoming you to campus very soon. In the meantime, visit our digital prospectus at tudublin.ie/cao, where you can discover a world of #InfinitePossibilities.

David FitzPatrick

President, TU Dublin
At TU Dublin, we have five distinct campuses across Dublin City. Our campuses are located in Aungier Street, Blanchardstown, Bolton Street, Grangegorman and Tallaght. While each campus differs in size and personality, as a student, not only will you get a third-level qualification from Dublin’s only Technological University, but you will also have access to state-of-the-art facilities.

**Grainseach Gormáin**
**Grangegorman**

Our campus at Grangegorman, which is the largest investment in Higher Education in Ireland in over a century, brings together many of our Dublin City activities in one vibrant, cutting-edge campus, providing our students with an incomparable educational experience.

Grangegorman has beautifully restored a historic part of Dublin City, based in the heart of the city between Smithfield and Stoneybatter, with entrances from Broadstone, Stoneybatter and North Circular Road. The Campus is the beating heart of this area.

The campus currently accommodates 10,000 students in our new buildings, the East Quad and the Central Quad, which will grow to 15,000 in 2026 with the opening of the West Quad. The Academic Hub & Library in Grangegorman will open in 2024, providing a library and learning spaces for the campus, including the Career Development Centre, the Maths Learning Centre, and Disability Support Services.

Adjacent to the recently completed Central Quad, the new Academic Hub & Library is currently under construction. Some 12,000m2 of new learning space will be delivered with the building, featuring a roof garden with spectacular views of the city. The project is on target for completion in the Summer of 2024. Also under construction is the West Quad which when complete, will be home to the College of Business, currently located in Aungier Street.

In keeping with our commitment to sustainability, TU Dublin is committed to promoting sustainable modes of transport. The campus is fully pedestrianised, and we encourage using public transport to access the campus. The Green Luas stops twice on the campus at Broadstone and Grangegorman and is a very short walk of five minutes from O’Connell Street.
Sráid Aungier
Aungier Street

Our Aungier Street campus, one of three Dublin City Centre locations, specialises in business related courses. With over 5,000 students, it is the largest business school in Ireland.

The campus, located on a 26,000sqm site on Aungier Street in Dublin 2, is built on the historical site of the former Jacob’s factory. The campus is close to the Green Luas line stop at St Stephen’s Green and a range of cross-city Dublin Bus routes stop outside the campus, including the 15, 16, 140, 83, 122, 68. The campus is a five minute walk from Dame Street which is serviced by a multitude of bus routes.

The activity on this campus is scheduled to move across the Liffey to our flagship campus at Grangegorman, on completion of the West Quad.

Sráid Bolton
Bolton Street

Our Bolton Street campus has been a centre for technological education for over 100 years. This three-storey neo-classical building was designed by CJ McCarthy and was built in 1908. It has since been extensively extended and retains many of its ornate features.

Specialising in the areas of Engineering, Architecture, Building and Environment, the campus is fully equipped with computer and electronic labs, lecture theatres with the latest audio-visual equipment and learning aids, fully equipped workshops, a library, restaurants, students’ union area, and student recreation area.

Bolton Street centrally located, just a five-minute walk from both O’Connell Street and the Grangegorman campus, is serviced by a wide choice of public transport options including the Green and Red Luas Lines.
Baile Bhlainséir
Blanchardstown

Our Blanchardstown campus, based in North West Dublin, is home to over 3,500 students. The campus is located on a 22.5-hectare site within the IDA College Business & Technology Park, Blanchardstown Road North, Dublin 15.

The modern campus comprises eight buildings, with a total area of over 22,000 sqm. The campus is fully equipped with computer labs, electronic labs, lecture theatres with the latest audio-visual equipment and learning aids, fully equipped workshops, library, restaurants, sports hall, fitness centre, students’ union area and lots of parking for bicycles.

Construction is currently underway on a state of the art teaching facility which will feature open flexible spaces for active learning.

To complement the many public transport options serving the campus, the university operates a dedicated shuttle bus throughout the academic year, which runs between Coolmine train station, serving selected stops in Dublin 15, including Blanchardstown Shopping Centre, where it links with Dublin Bus and Go-Ahead services.

In addition to the greater Blanchardstown area and the north and west of Dublin City, the campus also attracts students from neighbouring counties of Meath, Kildare, Cavan, Louth and beyond.

Tamhlacht
Tallaght

Our Tallaght campus, based in South West Dublin, is home to over 5,000 students. The campus is located on an 18-hectare site between Old Blessington Road, Belgard Road and Greenhills Road in Tallaght, Dublin 24. The campus is fully equipped with lecture theatres comprising of the latest audio-visual equipment and learning aids, science, electronic and computer labs, state-of-the-art culinary kitchens, restaurant, library, coffee shop and students’ union area. The campus also offers free parking for cars and bikes.

A €14.7 million Sports Science, Health and Recreation building on campus is now fully operational and provides an additional 3,282 sqm of space. This new building comprises of teaching laboratories incorporating a fitness suite, an exercise medicine laboratory, a sports hall, lecture theatres, classrooms and a grass playing pitch. The laboratories support research and teaching in exercise physiology, exercise rehabilitation, strength and conditioning, anthropometry, biomechanics and performance analysis.

The campus is easily accessible using the Red Luas Line. A range of cross-city Dublin Bus routes stop outside the campus, including the 54A, 27, 65, 49, 77A, 75, 56A, 76, 76A.

Getting to our Campuses

ON THE BUSES!

Dublin Bus: Serves all campuses. Check out the best bus route on the Dublin Bus website dublinbus.ie.

Private Providers: Matthews Coaches (Dundalk), Collins Coaches (Monaghan), Dublin Coaches (Kildare Village).

Orbital Routes: The 139 orbital route operates between Blanchardstown and Naas. The W4 orbital route operates between the Square in Tallaght, Grange Castle Business Park, Liffey Valley Shopping Centre and Blanchardstown Shopping Centre.

Shuttle Bus: Connecting the Maynooth Train line to Blanchardstown. Operating at selected times between Coolmine Train Station, Blanchardstown Shopping Centre to the Blanchardstown campus.

ON YOUR BIKE!

1 in 10 students cycle to college and it’s a great way to keep fit and save money. Use the Transport for Ireland Cycle Planner app to identify the shortest, safest route to your campus. Most TU Dublin sites have secure bike racks and onsite showers for cyclists.

LUAS, DART & IRISH RAIL

Luas Green Line serves TU Dublin at Grangegorman, Bolton Street and Aungier St. Luas Red Line is convenient to TU Dublin at Tallaght, Bolton Street and Grangegorman. Check out luas.ie.

Irish Rail and Dart stations at Heuston Station, Broombridge, Connolly Station, Pearse Street, and Tara Street are in walking distance or have easy bus and Luas connections to all city centre campus locations. Visit irishrail.ie.

For detailed information on travel options to each of our campuses, please scan the QR code provided.

David Thornbury - Process Instrumentation & Automation
This course is unlike any other as it combines both in class learning and paid work placements for students. This provides a well rounded learning experience through theory and practical workshops run on campus and work placements where students can apply their learning. This combination equipped me with the knowledge and experience needed to find a job after graduating and is one of the best decisions I have made. I started my work placement on a site in the biopharma sector in 2021 and have been working and learning there since. The best thing about doing this course is that I now have a full-time role secured once I graduate and the opportunities from there are endless.

Naomi Connolly - Applied Social Studies in Social Care
I had worked in finance for almost 20 years and didn’t particularly love what I was doing. I always wanted to work in healthcare from the time I was a child, but I didn’t follow that path. I completed a QQI Level 5 course and when it came to the CAO application, TU Dublin made sense for me as I live close by. The course is very interesting with a broad range of modules.

The practice placement is a real eye-opener, and it is really interesting to see how the theory fits into practice. It’s also great that the university helps you to find a placement, as this takes so much stress off. The best thing about the course is that it is CORU approved, so students won’t need to worry about registration when they graduate.

Siobhan Boyle - Culinary Arts
I chose this course because from an early age I had a huge passion for cooking. I am a mature student at TU Dublin and I am now following my passion to become what I dreamt of for many years - a successful chef in the Culinary Arts world.

This course has provided me with great insight into how a professional kitchen operates, it has given me many new skills such as the use of professional equipment; learning about different foods and the background of where it comes from. I am so looking forward to continuing on my journey to complete this course and enter into the culinary arts world.

If you have a real passion for cooking, I would highly recommend this course. It really inspires you to push yourself out of your comfort zone, and with the backing from the tutors, this course will inspire you to achieve your full potential.

Accommodation

Choosing your location
Our TU Dublin campuses are located in Dublin City Centre, in Blanchardstown and in Tallaght. Dublin City Centre has three locations: Aungier Street, Bolton Street and Grangegorman. Commuting to college may be cheaper and easier if you choose accommodation in an area that is close to your campus location. Please use Google Maps to check the distance before you decide on a place to live.

Host Family accommodation
Host families let out a room in their home to students for the duration of their studies. Last summer the average cost was between €125 - €220 per week.

- Cost includes utilities - no need to transfer bill into your name
- Some host families provide a light breakfast or evening meal
- Choose 3 - 5 day options if you plan to go home at weekends (7 days also available)
- Flexibility in starting and finishing term
- Ideal for your first year for lots of reasons: cost, comfort, security...and parents’ peace of mind!
- Register with StudentPad using your university email address. If you haven’t got one yet use your personal email address and contact us to obtain access.

Host family Accommodation can be found on TU Dublin StudentPad: tudublinstudentpad.ie

Purpose Built Student Accommodation (PBSA)
PBSA are campus style accommodation that will make your student life an experience to remember.

- PBSA’s are close to most campuses
- Modern fully equipped rooms
- 24 hour security
- Study and social areas
- In house events
- Costs include 7 day week accommodation for the entire academic year.

On Campus Accommodation
TU Dublin does not have student accommodation on campus, however, there is a variety of student accommodation hubs close to most campuses.

Contact Us
studentaccommodation@tudublin.ie
+353 1 220 5600

NB. Do not pay a deposit on any private rented accommodation until you have seen the accommodation in person or have asked someone known to you to visit the property.
TU Dublin Students’ Union represent the interests and voices of almost 30,000 TU Dublin students. We work for you and provide a range of services and supports to help you make the most of your university experience and have the best year possible.

The core work of the SU is to elect and support all class reps in the University, to represent your voice on decision making committees, to run campaigns on Education, Welfare and Equality topics, to organise events, run activities and promos, and to provide impartial and confidential advice for any issues you may experience during your time in university.

The Officers are elected by students to speak for students on any issues or concerns that arise. We work closely with TU Dublin to try to resolve issues, to ensure you have the best experience possible during your college years. We have elected representatives sitting on boards and committees across the University, this means the student voice is expressed at all levels. As a member organisation of USI (Union of Students Ireland) we not only represent students on a local level in TU Dublin but also on national issues.

University should be a varied experience that offers students not just the opportunity to gain world class qualifications, but also to grow, explore, try new things, find their tribe and make lifelong friends along the way. Students often learn as much out of the classroom as they do in it so, TUDSU offer a range of events and activities across our campuses for students to get involved, have some fun and meet new people.

A key area of work we are passionate about this year is increasing the diversity in our democracy system. The students in TU Dublin are from diverse cultural and social backgrounds, with diverse needs and abilities, this needs to be reflected in the voices representing students. We are striving to increase the diversity in our class reps, school reps, student council, and elected reps. This is something our whole team is committed to. We hope to see students get involved and have lots of fun this coming year.

Check out tudublinsu.ie for all our details, then contact your local SU office to find out more about getting involved and, all our upcoming events and activities. We hope to hear from you soon!
Societies
In the TU Dublin Societies Office we endeavour to promote and provide a huge and diverse range of student lead volunteering opportunities, societies, activities and events. With a broad choice of societies to choose from, like the Drama Society, Gamesoc, Islamic Society, Amnesty Society, Photo Society and Debating Society, there's lots more to get involved in!

Benefits of Societies
～ Pursue special interests
～ Skills & leadership development opportunities
～ Enhancing your CV
～ Meet new people
～ A break from studying
～ Having fun
～ Recognition rewards

Want to Start a New Society?
All you need is:
～ A good idea
～ Great aims and objectives
～ Fellow students to support your application

Volunteering
Whether you have one free afternoon each month or you can give an entire evening each week, we will work with your schedule and find the right opportunities for you:
～ Through our clubs and society committees, through our peer mentor programme and as a class rep, among other on campus volunteering roles
～ With external charities and partners – we ensure our students have a wide range of opportunities to volunteer with a cause or organisation that you are passionate about
～ By starting your own volunteering initiative or campaign as an individual or with a group, and we offer the necessary advice and support. Just get in touch!

Getting involved in Student Volunteering is a fantastic opportunity
～ to make a positive difference in the world
～ to make friends
～ to develop team working & leadership skills while building your confidence.

Career Development Centre
We understand that starting a new chapter in your education journey is exciting, but can also be daunting and you may have questions about your future career. At TU Dublin, we are dedicated to supporting your career development at every stage of your university experience, from the early days of your first year to the critical decisions you’ll make in your final year and beyond.

Our Career Development Centre offers a comprehensive range of services tailored to meet your unique needs and empower you to make informed decisions about your professional path. Some of the services we provide include:

- Career Coaching
- Online Resources
- Events/Career Workshops
- Employer Events and Careers Fairs
- Job Hunting Preparation
- Further Study

In addition, the webpage for the course that you are applying for will contain a wealth of information about the broad and varied career options that await you upon graduation. Making decisions about your career can be challenging, but rest assured that we are here to make the process a little easier by offering resources, support, and guidance along the way.

To learn more about the specific supports and services available through our Career Development Centre, please visit tudublin.ie/careers.

Work Placement
Work placement is an integral part of many courses at TU Dublin, serving as a bridge between classroom learning and the professional world. It will empower you to apply your knowledge, develop practical skills, and gain invaluable insights into workplace dynamics. By immersing yourself in real work environments, you can assess your compatibility with different career paths and make informed decisions about your future. Work placements not only enhance employability but also foster your personal and professional growth. They offer a glimpse into the requirements and expectations of the workplace, equipping you with the knowledge and experience needed to thrive in your chosen field.

Erasmus
Erasmus+ presents an exciting study abroad opportunity for students enrolled in select courses at TU Dublin. With Erasmus+, you can experience a semester or full academic year studying at another European college or embark on a traineeship in a European company. The benefits are immense: academic enrichment, social connections, personal growth, and cultural immersion. Erasmus+ offers a unique avenue for expanding your horizons, gaining valuable international experience, and broadening your perspective. As an integral component of your qualification at TU Dublin, participating in Erasmus+ opens doors to new knowledge, skills, and intercultural understanding, preparing you for a globalized world, visit tudublin.ie/erasmus.
TU Dublin strives to provide opportunities for students to engage in sport and fitness and perform at the highest competitive level.

**Sport Clubs**
Sports Clubs provide a huge range of opportunities to train, play and compete in sport, no matter what your interest, ability or level. With nearly 40 Sports Clubs to choose from ranging from team sports to water sports and adventure sports, there is something for everyone! If you would like to get fit and healthy, try something new or meet new friends and have a bit of craic, TU Dublin Sport has a Club for you!

**Sports Scholarships - Athlete Support Programme**
TU Dublin was awarded the Sport Ireland Institute Accreditation for Student Athlete Support (ASAS), which recognises good practice in ‘dual career’ support for student athletes. The University is fully ASAS Accredited for 2022 and 2023 by the Sport Ireland Institute.

Our University wide Athlete Support Programme is one of Ireland’s most highly regarded performance programmes and is the third level sporting destination of choice for many aspiring sports performers. Through this programme, talented young people are given the opportunity to combine their education with their sporting career by offering the highest standards in sport service provision and academic mentoring support. Talented young sportspeople with the potential to compete will be eligible for support. This includes individual sports performers from the smaller, lesser known NGB sports.

**Sports & Fitness Facilities**
TU Dublin Sport boasts a wide range of top-quality sport, fitness and performance facilities across our campus locations. Whether you are a recreational gym user, training, participating or competing in sport or a performance athlete going for gold, our sports facilities will cater for you.

- Synthetic and Natural Grass Pitches
- 5-A-Side and 7-A-Side pitches
- Sport Halls
- ‘State of the Art’ Gyms with world-class fitness equipment
- Exercise and Fitness Studios
- Hurling Skills Wall

We strive to deliver top class, safe and exceptional facilities for our users. Our facilities have achieved the Outstanding Award under the National Quality Standard award (NQS) accredited by Ireland Active, the National governing body for health, fitness, and leisure industry.

Use the QR code to find out more about our sports scholarships, clubs, facilities or email one of the team at sport@tudublin.ie.

**Contact Us**

1. TU Dublin Camogie players, Ashbourne Cup Winners 2023
2. JB Murphy, Irish Racing Cyclist
3. Rachael Darragh, Irish International Badminton Player
4. Nicole Turner, Irish Para Swimmer, Tokyo 2020 Olympic Games
5. Club of the Year Winners, The Surf Club
6. TU Dublin Badminton Team
7. Patrick Monahan, Para Athlete
Your success at TU Dublin is inextricably linked to your health. We try to create a culture that supports healthy choices, and will empower you to actively look after your own health.

As you start third level, you’ll be learning how to manage your lifestyle, creating lifelong habits and attitudes that help to determine your learning, social and emotional growth, health awareness and wellbeing.

Student Life
Student Life provides a range of opportunities for students to engage in a healthy, active, social experience. We hope that you will improve your chances of good wellbeing by getting involved in one or more of programmes or initiatives that take place across our University.

Access any of our campus based gyms to get physically active
- Join a sport club to feel part of a team
- Find likeminded students in any of our 80+ Societies
- Get a sense of giving back through our volunteering service
- Have fun while being active in any of our social sport and fitness programme

Student Health Centres
Our Student Health Centres provide a holistic approach to health, providing on-campus health care to students. Our service incorporates physical, psychological and social aspects of student health and health promotion.

Counselling Service
At any point in our lives, we may experience periods of feeling low or depressed. We can reach out for ways to cope that may help. If you find that you’re not coping with the demands of college and feel stressed and worried about life, don’t feel that you have to cope alone.

For support or assistance, make an appointment with your local counselling team who’ll be glad to help.

Disability Support Services
The Disability Support Service aims to ensure that any student with a disability does not experience educational disadvantage and that all students can access and equally participate in and benefit from educational opportunities in our University. The Disability Support Service provides confidential one-to-one needs assessments to all students registered with the service. Following this the relevant supports are put in place based on the recommendations of these needs assessments to enhance the educational experience.

Pastoral Care and Chaplaincy
Students come to the Chaplaincy to:
- Talk to one of the chaplains confidentially
- Seek conversation and support
- Enjoy a place of hospitality & kindness
- Meditate or pray in the Quiet Room
- Enjoy a break between classes
- Experience inter-cultural and religious exchange

Online Resources for Wellbeing
TU Dublin subscribes to Silvercloud – a service offering programmes designed to help you improve and maintain your wellbeing by addressing underlying issues that can have a negative impact on how you would like to live your life. Based on years of clinical research, the programmes are interactive and delivered via an online user-friendly platform.
Discover Your Path to Success
When it comes to applying to university, the journey may not always be a straight line to your dream course, but fear not! By thinking strategically and embracing flexibility, you can make a big difference in achieving your ultimate goal.

Every year, many students miss out on potential offers from the CAO because they limit their options when completing their application. Don’t let that happen to you! When filling out your CAO form, it’s crucial to consider more than just that one course you like. Explore all the possibilities that can lead you to your desired outcome. Remember, there are multiple pathways to most careers, and the more open-minded you are with your CAO choices, the greater your chances are of reaching your goals.

To ensure a smooth application process, make sure you check key dates on the CAO website and submit your application on time. Please note that missed deadlines are not accommodated, so staying on top of these dates is essential.

The CAO website offers valuable video resources, including a detailed demo of the application process. We highly recommend taking a look at these resources. Investing a little time at the beginning will save you a lot of heartache later on by ensuring that everything is completed and submitted correctly.

If you have access to a Guidance Counsellor at your school or college, consider booking some time with them to research your best options. Their knowledge and expertise can be invaluable to your decision-making process. Additionally, reach out to people who have gone through the application process before. Most people will be more than willing to help you avoid any pitfalls they encountered along the way.

Making your choices
When selecting a course, it’s important to think about the career you envision or the field you’d like to work in. Once you have clarity on that, it’s time to work backward and explore the available courses that align with your aspirations. Determine how each course can contribute to your desired career.

On your CAO application, you can apply for up to twenty courses: ten on the level 8 list and ten on the level 6/7 list. If you only complete the level 8 list and disregard the level 6/7 options, you essentially cut your chances of receiving a college course offer in half.

Many applicants only consider Level 8 courses, overlooking the Level 6/7 options available. Others may find themselves undecided about which course to choose. However, there are numerous benefits to including both level 6 and 7 courses in your CAO choices.

Firstly, the points and entry requirements for level 6/7 courses are often lower than their level 8 equivalents, making them more attainable. Secondly, a more flexible approach to education appeals to many students. By initially committing to a two or three-year level 6/7 course, you can choose to graduate upon completion or choose to progress into an advanced year of a related level 8 course. Our flexible education model also allows graduates to return at a time that suits them best to complete a level 8 qualification.

So, take the time to explore all your options, think strategically, and consider the bigger picture. Your path to success at university begins with an open mind and a willingness to embrace the possibilities. Start your journey now and let your dreams flourish at the university that will help you achieve your goals.
Unlock Your Potential at University

The information provided above applies to all students applying to the University through the CAO, regardless of whether you are a Leaving Cert student, coming from higher education, or a mature student. At TU Dublin we believe that everyone deserves the opportunity to pursue their desired course, and we are here to support you every step of the way.

We understand that many students hesitate to select their dream course out of fear that the required points are unattainable. It’s important to remember that points vary each year, reflecting the demand for the course. Even the university offering the course cannot predict the exact points required. So, don’t let those worries hold you back. Dare to dream and list your desired course in order of preference.

In some cases, students excel in the Leaving Cert and achieve more points than they initially anticipated. This is another reason to include your dream course in your choices. You never know what you’re capable of until you give yourself the chance.

Once you’ve added your dream course, it’s time to think pragmatically and include courses where you believe you have a strong chance of acceptance. Lastly, add courses that you are confident you can achieve. By following this strategy and ensuring you fill out all your choices on the CAO form, you set yourself up for success and prepare for various possibilities.

As mentioned earlier, there are numerous benefits to considering level 6/7 courses. On the next page, we have outlined some scenarios that demonstrate how choosing these courses can help students achieve their goals.

At TU Dublin, we embrace diversity and welcome students from all backgrounds. We believe in your potential and we are dedicated to providing a supportive environment where you can thrive academically and personally. By choosing our university, you open doors to a world of opportunities and set yourself on a path to a fulfilling future.

Don’t let any doubts or uncertainties hold you back. Seize the chance to pursue your passions and embark on an enriching educational journey. The possibilities are endless, and we can’t wait to see what you’ll achieve. Start shaping your future today at TU Dublin.

EMBRACE THE UNEXPECTED AND UNLEASH YOUR POTENTIAL - FOLLOW IN LUKE’S FOOTSTEPS

Meet Luke, an aspiring marketeer who draws inspiration from his older brother’s successful career in a multinational company. With a burning ambition, he sets out to pursue his dream in the dynamic field of marketing. When filling out his CAO form, Luke wisely chooses the Level 8 marketing degree at TU Dublin, following his brother’s footsteps. His goal is to secure a place in the company’s graduate program, which requires an honours degree.

Confidently approaching his Leaving Cert, Luke dedicates himself to thorough preparation, convinced that his results will meet the necessary grades. Luke achieves the points required but unfortunately, underperforms in his Maths exam and falls short of the required Maths grade.

But every cloud has a silver lining. Luke had wisely listed alternative options on his CAO application, ensuring a backup plan. On offer day, he faces a choice: his 6th place option at Level 8 or his 1st place option at Level 6/7. Surprisingly, the Level 6 offer aligns perfectly with his passion for marketing, a chance he hadn’t seriously considered until now.

Driven by curiosity, Luke consults with TU Dublin’s admissions team, who present an exciting opportunity. If he maintains an average grade of 55% or above throughout the two-year Level 6 course, he can seamlessly transition into the third year of the Level 8 course, ultimately attaining a Level 8 qualification in marketing. Luke is overjoyed and wholeheartedly accepts the Level 6 offer, embracing a new path that leads to his desired destination.

Luke’s story imparts a valuable lesson: setbacks and challenges can reveal hidden opportunities. By embracing the unexpected, we open doors to remarkable possibilities. At TU Dublin, we celebrate such journeys and are committed to helping students like Luke achieve their dreams, regardless of the path they choose.

UNLEASH YOUR PASSION FOR SCIENCE AND PURSUE YOUR DREAM – RACHEL’S JOURNEY

Rachel has been crazy about science ever since she got a surprise gift of a chemistry set for Christmas when she was 9; she really wants to be a scientist.

Rachel’s mother is a Garda, and really loves her job. Rachel thinks she might like it too but also loves science so much she cannot decide. Her Guidance Counsellor suggests Forensic Science where she could work on criminal investigations and immediately she knows this is the career for her.

She checks out the options and decides she wants to study DNA and Forensic Science at TU Dublin, a course that is available at both level 7 and level 8. Rachel works hard for her leaving cert, but unfortunately falls just short of the points she needs for both the level 8 and the level 7.

Her Guidance Counsellor had suggested that Rachel also look into the QQI route, this would allow her to study a science programme to prepare her for college but also to help her decide if this is what she really wants.

She takes up a QQI programme, she loves it so much she finds it easy to get 6 distinctions. She applies to CAO again this time with her QQI results, she is offered the level 8, Rachel is delighted and immediately accepts her place; it has taken her a little bit longer than she initially planned but she also feels much more prepared for the programme.
TU Dublin is the largest provider of third level education to students presenting with QQI (formerly known as FET/FETAC) Level 5/6 awards. Over 500 first-year places are available, for applicants, on our Higher Certificate, Ordinary Degree and most Honours Degree courses.

Here are some key points to keep in mind if you’re considering studying a QQI course to access a course in TU Dublin in the future:

- You must apply for your desired course at TU Dublin via the CAO.
- In order to apply, you must have obtained a full major award. A Component Certificate (minor award) is not sufficient.
- The best 8 modules of your award are used for ranking purposes.
- If you’ve achieved your major award over more than one academic year, you’ll need to apply to QQI for a major award.
- Full QQI Level 5/6 awards eliminate the need to meet minimum entry requirements based on Leaving Certificate results. Your QQI Level 5/6 award is accepted in its own right. However, you will still need to achieve the appropriate number of CAO points for your desired course. You can use the QR code provided on this page to access a QQI points calculator for reference.
- While the process of accessing university is competitive, QQI students are not in direct competition with Leaving Cert students for places. QQI offers are provided through a quota system, which makes it somewhat easier to secure a place.
- QQI Entry Requirements for courses differ, so please refer to the relevant course page for specific details on the QQI Entry Requirements for that course.

You can read more about further education options online at careersportal.ie, qqi.ie and qualifax.ie. You can also contact our Admissions team for advice on your pathway by email at admissions@tudublin.ie.

We will hold a QQI Information Session on Wednesday 24 January 2024. Please check our website for updates.

Meet Jacob, who is contemplating his pathway to becoming an Engineer. Jacob wants to study engineering at TU Dublin, but his Leaving Cert results have fallen short for the courses he had in mind. As an alternative route of entry, Jacob’s Guidance Counsellor suggests studying a QQI qualification for a year.

After careful consideration, Jacob selects the QQI course - 5M5010 Construction Technology, as it meets the QQI minimum entry requirements for TU805 Engineering, TU833 Construction Management and TU837 Quantity Surveying in TU Dublin.

To learn more about his chosen QQI course, Jacob visits www.qqi.ie and searches for the 5M5010 code. He is delighted to find that the course is being offered at a nearby College of Further Education, easily accessible by bus.

Jacob will need to achieve five distinctions in his QQI course to gain entry to his desired course in TU Dublin and fortunately, he already holds an H4 grade in Leaving Cert Maths, which meets the Maths requirement for matriculation. He plans to work hard to secure the distinctions, but he is also considering listing the engineering program at level 7 on his CAO application, taking advantage of the progression opportunities within the course which will allow him to achieve his level 8 qualification later.

Jacob successfully completes his QQI course achieving the required grades and in Round 0 of the CAO receives his offer notice. He is delighted to have been offered his chosen course at TU Dublin he has been considering, but he is unsure if he is 100% ready to commit to one subject. His Guidance Counsellor suggests taking a year studying a QQI qualification to help him make his mind up and prep for university.
Iarratasóirí QQI
 QQI Applicants
 Mature Students Applicants
Whatever your reason for coming back to education – to update your skills, gain a new qualification, achieve a personal goal or ambition, TU Dublin welcomes all mature students.

TU Dublin has a range of supports in place to help you decide what course to take, how to get through the application process and get settled into college life. We will hold a Mature Student Information Session on Thursday 25 January 2024. Please check our website for updates.

What age do I need to be?
To be classified as a mature student, you must be 23 years of age or older on or before 1st January in the year you’re applying. You must also be an Irish/EU citizen.

You make your application for admission to the first year of any undergraduate full-time course through the Central Applications Office (CAO).

Submitting your Application
You will apply through the CAO, some of the questions you will be asked will include:

- Details of your schooling
- Any further education you may have completed
- If you are currently studying, details of these studies
- Information about your work and life experience
- A personal statement about how these relate to your application

We recommend mature applicants apply to the CAO by 1st February. Late Applications (excluding restricted courses) will be accepted up to 1st May but places are limited, especially for our more popular courses.

For full details on how to apply to the CAO as a mature student, ensure to read the mature applicants sections on the CAO website at cao.ie/mature and on our website at tudublin.ie/mature.
We are committed to ensuring that all individuals, regardless of financial or other circumstances, are encouraged to consider higher education and are supported in accessing the course that interests and best suits them. We offer a wide range of entry routes, the national schemes such as HEAR and DARE, and also our own Access & QQI Access routes. We also offer a Foundation Programme to help students prepare for higher education.

HEAR, DARE, Access and QQI Access routes are open to school leavers under the age of 23 as of 1 January of the year they are applying. Applications to HEAR/DARE can only be made online through the CAO. Applications to Access & QQI Access are made directly to TU Dublin.

Being eligible for an Access entry route does not guarantee you a place, it places you in a position to compete for a reduced points place once you meet the minimum entry requirements and any specific programme requirements on the course.

Higher Education Access Route (HEAR)
HEAR is a third level alternative admissions scheme for school leavers who have experienced socio-economic disadvantage. HEAR offers places at lower points to school leavers who, due to their socio-economic background, have experienced additional educational challenges in second level education. Eligible applicants who are offered a place through the HEAR route will receive academic, personal and social supports in TU Dublin. For more information, check out the HEAR website at accesscollege.ie/hear.

Disability Access Route to Education (DARE)
DARE is a third level alternative admissions scheme for school leavers whose disabilities have had a negative impact on their second level education.

DARE offers places at lower points to applicants who as a result of having a disability have experienced additional educational challenges in second level education. Once you have accepted your place, additional supports will be provided to assist you in your studies in TU Dublin. For more information, check out accesscollege.ie/dare.

Access TU Dublin
Access TU Dublin is a flexible entry route aimed at school leavers from socio-economically disadvantaged backgrounds, who would like to study a full-time undergraduate course at TU Dublin. Eligible students are advised to apply for both the HEAR and Access TU Dublin entry routes. For more information visit tudublin.ie/access.

QQI Access TU Dublin
QQI Access TU Dublin, is an entry route aimed at students, from a socioeconomically disadvantaged background, who have already completed a QQI Level 5 or 6 course and are applying to TU Dublin through the Higher Education Links Scheme (HELS). For more information visit tudublin.ie/access.

Access Foundation Programme
Our Access Foundation course (TU699) is a multidisciplinary one year full-time course that prepares students to pursue undergraduate study at TU Dublin. Students who successfully complete the course will be offered a place on an appropriate undergraduate course at the University. We provide a wide variety of supports to help students adjust to university life so that you gain maximum benefit from your time with us. This course is not offered on the CAO, instead applications are made directly to TU Dublin. Further information on how to apply is available at tudublin.ie/access.
Are you unsure if you want to complete an apprenticeship or go to university? If so, you might be interested in our Learn + Work courses which blends the strength of university education with an apprenticeship style work placement and are designed specifically to create a work-ready university graduate in the shortest possible time.

Each year, students divide their time between full time study blocks in the university and significant periods of paid work placement with industry partners. We have two Learn + Work courses to choose from:

**TU655 Higher Certificate in Science in Computing in Networking Technologies (Level 6)**

This two-year course is designed for trainee network technicians and was developed in response to the industry's growing need for people who can design, install, and maintain computer systems and IT infrastructure. This course will help you develop the knowledge and skills you need to pursue the many job opportunities in the ICT and Networking field.

Students can also gain Industry Certified Awards, including; Cisco Certified Networking Associate (CCNA), CompTIA A+, CompTIA Security+, Linux Professional Institute (LPIC-1), Microsoft Certified Systems Expert Server Infrastructure (MCSE), VMWare Certified Associate – Cloud (VCA-Cloud).

Our students undertake work placements with our Industry partners, which include the following companies: Auxilion, Citrix, Concern, Eir, Emerald Park, Equinix, Fujifilm, Lantech, Liberty IT, Macro Evolution Services, Microsoft, MJ Flood, Netspeed, TU Dublin, Viatel, Vodafone, WiLine.

TU655 is not offered on the CAO. Prospective students for TU655 apply directly to the university and will be required to undertake an aptitude test and interview.

**TU722 Bachelor of Science in Process Instrumentation & Automation (Level 7)**

Process Instrumentation & Automation involves the measurement and control of physical quantities (temperature, level, pressure, flow and many others) used in advanced manufacturing systems. Engineers use instrumentation and control to monitor and maintain processes for improved production, quality, and safety in manufacturing facilities in the Pharmaceutical, Food & Drinks, Water/Wastewater, Oil & Gas industries among others. This three-year course provides a pipeline of skilled, in-demand work-ready talent into STEM industries through industry partnership.

Our students undertake work placements with our Industry partners, which include the following companies: Alexion, Bonner, Breedon Group, Bristol-Myers Squibb, CalX Instrumentation Services Ltd, EMR Integrated Solutions, Hanley Calibration, Intel, LotusWorks, McL Automation, SGS Gas Analysis Services, West Pharmaceutical Services.

Prospective students for TU722 apply via the CAO and will be required to undertake an aptitude test and interview.

Find out more about our Learn + Work courses on our CAO Hub at tudublin.ie/cao or if you have a question you can email our team at courses@tudublin.ie.
Scholarships
TU Dublin Foundation, an independent registered charity, is dedicated to advancing the mission of TU Dublin by fostering an innovative, responsive, and student-centered teaching and learning environment. Our commitment is to provide quality education to students of all ages and backgrounds. Through the generosity of our alumni, individuals, and partner companies, TU Dublin students receive transformative support through a wide range of awards and scholarships across various disciplines.

For many students, financial assistance is crucial to pursue full-time education. Our scholarships not only recognize their hard work and dedication but also enable them to focus on achieving excellence in their chosen fields. In 2021, we awarded almost €200,000 to 85 deserving students through 17 different funds and scholarships. These financial contributions make a significant impact, breaking down barriers and allowing students to fully engage in their academic journey. TU Dublin Foundation offers two primary types of support:

1. Scholarships: These awards are typically based on interviews and criteria agreed upon with the donors, focusing on academic engagement and financial need. Recipients receive €3,000 to be used towards their university fees.

2. Awards: Merit-based awards are presented directly to outstanding students or exceptional projects. The monetary value of these awards can range from €500 to €1,000, acknowledging exceptional achievements.

Applying for a scholarship is a straightforward process for registered TU Dublin students. While some scholarships prioritize academic performance, others focus on financial need or personal journey and passion. In most cases, students are required to complete an application form and submit a personal statement or essay. Certain fields, such as Fine Art, Architecture, and Architectural Technology, may require portfolio submissions. Additionally, shortlisted candidates are often invited to participate in interviews conducted by a panel of internal and external representatives. Visit tudublin.ie/scholarships to learn more about the remarkable possibilities that our scholarships and awards offer.

Fees
Tuition fees are set annually by the Department of Education & Skills. EU nationals attending a full-time undergraduate course for the first time are normally only required to pay the student contribution fee of €3,000 (cost for 2023), if they meet the residency requirements. The student contribution fees covers the costs of essential student services.

EU nationals who are following a second or subsequent third-level course, depending on the type and duration of the previous course attended, will be liable for tuition fees in addition to the student contribution fee. EU tuition fees for 2022/23 (fees for 2024 not yet available):
- Higher Certificate (Level 6) - €3,250
- Ordinary Degree (Level 7) - €3,250
- Engineering Honours Degree (Level 8) - €4,450
- Other Honours Degree (Level 8) - €3,819

To assist students in paying student fees, the following payment options are in place:

Option 1: Full Payment of Student Contribution & Tuition (if applicable) on Registration.

Option 2: Pay in Instalments.
First Instalment: 25% of fees due on Registration.
Second Instalment: A further 25% of fees due by 31st October 2024.
Third Instalment: Balance of fees due by 31st January 2025.

Option 3: If you have applied for a Student Grant through SUSI. You are not required to make payment at this time pending a decision on your application. You are required to submit your SUSI reference when completing your Online Registration.
Immerse yourself in a remarkable journey that began in 2020, where TU Dublin is passionately dedicated to nurturing the talents of its staff and students to make a positive impact on our world. In just two years, our commitment to the Sustainable Development Agenda 2030 has gained global recognition in the Times Higher Education Impact Rankings.

At TU Dublin, our Strategic Intent is guided by the UN Sustainable Development Goals (UN SDGs), driving our progress. We have made significant strides, leaping from the 201-301 bracket to the 101-200 bracket, placing us among the few Irish higher education institutions that have improved their impact ratings. These prestigious international rankings evaluate universities against the UN SDGs and include 1,406 universities worldwide.

The UN’s 17 SDGs represent a call to action, addressing the most critical challenges and opportunities facing humanity and our planet. TU Dublin proudly ranks in the top 100 for three categories: SDG 11 (Sustainable Cities and Communities), SDG 1 (No Poverty), and SDG 13 (Climate Action).

Our success in advancing SDG 13 - Climate Action is exemplified by the Resilient Design Curricula project, a ground-breaking initiative in architectural education. Led by the TU Dublin School of Architecture in collaboration with schools nationwide, this project integrates the principles of the UN SDGs into our curricula, equipping future architects to address climate and housing crises while promoting inclusive and resilient design.

Additionally, our highest impact ranking lies in SDG 11 - Sustainable Cities and Communities, recognizing our diverse work in this field. Notably, our development of the Grangegorman campus showcases our commitment to preserving historical significance and architectural heritage. We collaborate with the Grangegorman Development Agency to preserve existing structures and repurpose materials from buildings that cannot be further utilized.

Join TU Dublin and unlock your potential to shape a better world. As a student, you'll be part of a vibrant community that embraces sustainability, fights poverty, and tackles climate challenges head-on. Experience an education that empowers you to create a lasting positive impact. Together, let’s build a future where innovation and compassion intersect to transform our world for the better.

Unlock Your Potential at TU Dublin - Shaping a Better World Together

SUBJECT KEY

1. 2nd Year Options: Biosciences, Industrial/Environmental Physics or Medicinal Chemistry & Pharmaceutical Sciences.
2. On application choose ONE location: Blanchardstown (BSB) or Tallaght (BST) - choice of location guaranteed.
3. On application choose from Business (BUS), Business with IT (BIT) or International Business (INB). Applicants who are undecided on choice should choose General Entry (GEN) and selection option following orientation.
4. On application choose ONE of the following: Blanchardstown (AFB) or Tallaght (AFT) - choice of location guaranteed.
5. On application choose ONE location - Blanchardstown (ECB) or Tallaght (ECT) - choice of location guaranteed.
6. 2nd Year Options: Computer Engineering or Mechatronic Engineering.
7. 2nd Year Options: Building, Civil, Computer/Communications, Mechanical, Structural, Electrical/Electronic or Manufacturing/Design.
8. 2nd Year Options: Computing with Software Development or IT Management.
9. 2nd Year Options: Electronic Engineering or Engineering Software.
10. On application choose from International Business (INB), Management (MGT) or Marketing Management (MKT).
11. With later specialisation in: Mechanical Engineering or Automation Engineering.
12. With later specialisation in: Automation Engineering, Biomedical Design or Mechanical Engineering.
13. Option to pursue 1st Year Level 8 Engineering (General Entry) or 2nd Year Engineering Degree streams in Engineering Reliability Management, Mechanical, Automation, Electronics/Communications, Civil, Electronic/Control or Building, Electrical Services.
14. 2nd Year options: Analytical Chemistry (Environmental Forensic and Pharmaceutical), Biomedical & Molecular Diagnostics, Chemical Sciences and Medical Chemistry, Culinary Science, Food Innovation or Nutraceuticals in Health & Nutrition.

A At least H4 in one of French, German, Irish, Italian or Spanish.
B At least H4 in one of: French, German, Italian or Spanish.
C At least H4 in one of Art, Construction Studies, Design & Communication Graphics, Engineering or Technology.
D Or at least H4 in Applied Mathematics if combined with a minimum grade of H6 in Mathematics.
E At least O6/H7 in one of Physics, Chemistry, Physics & Chemistry, Biology, Agricultural Science or Home Economics.
F At least O6/H7 in Physics, Chemistry, Physics & Chemistry, Biology, Agricultural Science or Home Economics.
G At least O4/H7 in one of Physics, Chemistry, Physics & Chemistry, Biology, Agricultural Science, Home Economics, Applied Mathematics or Engineering.
H At least a H4 in one of: Physics, Chemistry, Physics & Chemistry, Biology or Technology.
I At least H4 in one of: Physics, Chemistry, Physics and Chemistry, or Biology.
J At least H4 in Chemistry.
L At least H4 in one of: Physics, Chemistry, Physics and Chemistry, Biology, Agricultural Science, Engineering, Technology or Applied Mathematics.
N At least H4 in one of: Mathematics, Applied Mathematics, Physics, Chemistry, Physics and Chemistry, Biology, Agricultural Science, Engineering or Technology.
O At least O4/H7 in one of: Physics, Chemistry, Physics & Chemistry, Biology, Applied Mathematics, Home Economics or Agricultural Science.
P At least O4/H7 in one of: Physics, Chemistry, Physics & Chemistry or Biology.
Q At least O4/H7 in one of: Physics, Chemistry, Physics & Chemistry or Biology, Applied Mathematics, Home Economics or Agricultural Science.

* Applicants will be advised of and must attend a suitability test & interview.
∩ Direct Application to TU Dublin, not on CAO. Students will be advised and must attend a suitability interview.
# Students must undergo Garda Vetting.
Δ Garda Vetting required for some but not all placements.
Ο Applicants will be advised of and must submit a portfolio in March.
¶ Applicants will be advised of and must attend an audition/interview in March/April.
X Or Applied Mathematics.
† Includes score for suitability test/interview/portfolio/audition.
$ Includes minimum score of 110 for interview and aptitude test.
AQA AQA All Qualified Applicants.
∞ Anyone with a medically diagnosed food allergy (note: not a food intolerance) should be aware that, in this programme, you will come in contact with food.

DISCLAIMER
It is deemed to be accepted by all applicants that the contents of this Guide are for information purposes only and are not to be regarded as providing the basis for any contract between the university and any student, applicant or other person. The delivery of the programme elements included in this Guide, is subject to the University having the required suitably qualified academic staff, teaching and technical support, accommodation/equipment, and financial resources to run each programme element, and also to sufficient numbers of students presenting for registration and taking up allotted places on a programme element. The University reserves the right to withdraw any programme element, and/or amend fees and/or timetables at any time.
