Fáilte
Welcome

Fáilte ón Dr. Deirdre Lillis, Uachtarán OT Baile Átha Cliath

Tá áthas orm go bhfuil tú ag smaoineamh ar do thodhchaí agus ar OT Baile Átha Cliath mar áit chun do chéad chéim eile a ghlacadh. Is cinneadh mór é ollscoil a roghnú, agus ba mhaith liom go mbeadh a fhios agat gurb í aidhm OT Baile Átha Cliath an tús is fearr agus is féidir a thabhairt duit, ní hamháin ar an ollscoil, ach i do shaol gairmiúil chomh maith.

Cad a dhéanann ollscoil ar leith muid? In OT Baile Átha Cliath, ní shuíonn tú i léachtaí agus scrúduithe an t-am ar fad. Foghlaimíonn tú trí pháirt a ghlacadh – trí thionscadal, obair i ngrúpaí, thaithí oibre, agus ag obair le gnólachtaí ón tús.
Tá baint mhór ag fostóirí sna rudaí a foghlaimíonn tú, ionas go mbaineann tú céim amach leis na scileanna agus taithí atá á lorg acu. Is é sin an fáth go n-aimsíonn ár gcéimithe poist iontacha go sciobtha; mar a tharlaíonn sé, tá na rátaí fostaíochta do chéimithe is fearr i mBaile Átha Cliath ag OT Baile Átha Cliath, agus cuid de na rátaí fostaíochta do chéimithe is fearr sa tír.

Tá breis is 27,000 mac léinn ó timpeall na tíre agus an domhain ag foghlaim le chéile ar chúig champas le féiniúlacht ar leith acu: Sráid Aungier, Baile Bhlainséir, Sráid Bolton, Gráinseach Ghormáin agus Tamhlacht. Más rud é go bhfuil suim agat sna healaíona, san eolaíocht, san innealtóireacht, sa teicneolaíocht, sa ghnó, nó rud ar bith eile, tá rud éigean anseo a oireann duit. Is muid an t-aon ollscoil in Éirinn inar féidir dul an bealach ar fad ó phrintíseach go PhD, mar sin is cuma cá thosaíonn tú, tá conair againn duit.

Táimid ag infheisitiú níos mó ná €500 milliún i bhfoirgneamh agus in áiseanna úrnua chun an eispéireas foghlama is fearr a thabhairt duit, le saotharlanna, leabharlanna, spásanna teicneolaíochta, agus spásanna do mhic léinn san áireamh.

Mar sin, má tá tú ag lorg ollscoil inar féidir scileanna úsáideacha a fhoghlaim, obair le gnólachtaí ceannródaíocha, agus ullmhú don saol oibre, d'fhéadfadh OT Baile Átha Cliath a bheith foirfe duit.

Táimid ag súil go mór le bualadh libh!
Beir bua,
An Dr. Deirdre Lillis, Uachtarán, OT Baile Átha Cliath

Welcome from Dr Deirdre Lillis, President of TU Dublin

I'm delighted you're thinking about your future and considering TU Dublin as the place to take your next big step. Choosing a university is a big decision, and I want you to know that TU Dublin is all about helping you get the best possible start, not just in college, but in your career.

What makes us different? At TU Dublin, you don't just sit in lectures and take exams. You'll learn by doing - through real projects, group work, work placements, and working with companies from day one. Employers are closely involved in shaping what you learn, so you graduate with the skills and experience they seek. That's why our graduates get great jobs quickly; in fact, TU Dublin has the best graduate employment rates in Dublin and one of the highest in the country.

We have over 27,000 students from across Ireland and the world, learning together on five campuses with a unique identity: Aungier Street, Blanchardstown, Bolton Street, Grangegorman and Tallaght. Whether you're interested in the arts, science, engineering, technology, business, or anything in between, there's something here for you. We're also the only university in Ireland where you can go all the way from an apprenticeship to a PhD, so no matter where you start, we've got a path for you.

We're investing over €500 million in brand-new buildings and facilities to give you the best learning experience, including labs, libraries, tech spaces, and places to relax and connect with others.

So, if you're looking for a university to help you learn real skills, work with cutting-edge companies, and prepare for the world of work, TU Dublin could be the perfect fit.

We can't wait to meet you!
Warm wishes,
Dr Deirdre Lillis, President, TU Dublin

Fógraí do 2026
Announcements for 2026

Code	Title	Details	Location
New Courses for 2026			
TU673	Business Management	Replaces TU678 Business (General Entry): Business Management (MGT)	Aungier Street
TU674	Business and Finance	Replaces TU678 Business (General Entry): Business and Finance (FIN)	Aungier Street
TU675	Marketing	Replaces TU678 Business (General Entry): Marketing (MKT)	Aungier Street
TU782	Digital Marketing	Replaces TU781 Digital Marketing	Blanchardstown or Tallaght
TU841	Biomedical Design	New Programme	Tallaght
TU848	Health Informatics	New Programme	Blanchardstown
TU842	Information Systems with Digital Transformation	New Programme	Tallaght
TU913	Business Information Systems	New Programme	Blanchardstown
TU920	Digital Marketing	Replaces TU921 Digital Marketing	Blanchardstown or Tallaght
TU980	Arts	New Programme (Major/Minor options available)	Aungier Street, Bolton Street & Grangegorman
Courses Not Running in 2026			
TU725	Mechanical Engineering	Biomedical Design option not running in 2026	Tallaght
TU772	Business [General Entry]	BIT (Business with IT) option not running in 2026	Blanchardstown
TU781	Digital Marketing	Replaced by TU782 Digital Marketing (see above)	Blanchardstown
TU828	Mechanical Engineering [General Entry]	Biomedical Design option not running in 2026, replaced by TU841 (see above)	Tallaght
TU902	Business [General Entry]	BIT (Business with IT) option not running in 2026, replaced by TU913 (see above)	Blanchardstown
TU921	Digital Marketing Technologies	Replaced by TU920 Digital Marketing (see above)	Tallaght
Course Title Changes for 2026			
TU725	Mechanical Engineering	Previously Mechanical Engineering [General Entry]	Tallaght
TU761	Dispensing Optician	Previously Ophthalmic Dispensing	Grangegorman
TU868	Clinical Measurement Physiology	Previously Clinical Measurement Science	Grangegorman
Entry Requirement Changes for 2026			
TU654	Pharmacy Technician Studies	Physics (PHY) or Home Economics (HEC/HEG) no longer required for entry purposes	Grangegorman

Other Requirements Key

1	2nd Year Options: Biosciences, Industrial/Environmental Physics or Medicinal Chemistry & Pharmaceutical Sciences
2	On application choose ONE location: Blanchardstown or Tallaght - choice of location guaranteed
3	On application choose from Business (BUS) or International Business (INB). Applicants who are undecided on choice should choose General Entry (GEN) and selection option following orientation
4	2nd Year options: Analytical Chemistry (Environmental, Forensic and Pharmaceutical), Biomedical & Molecular Diagnostics, Physics with Energy and Enviroment, Physics Technology, Science with Nanotechnology, Chemical Sciences with Medical Chemistry, Nutraceuticals in Health & Nutrition, Food Science, Pharamaceutical Healthcare, Biotechnology, Pharmacutical Sciences, DNA & Forensic Analysis, Environmental Health, Physics with Medical Physics & Bioengineering
5	2nd Year Options: Engineering Reliability Management, Mechanical, Automation, Electronics/Communications, Civil, Electronic/Control or Building, Electrical Services Engineering
6	2nd Year Options: Computer Engineering or Mechatronic Engineering
7	2nd Year Options: Building, Civil, Computer/Communications, Mechanical, Structural, Electrical/Electronic or Manufacturing/Design Engineering
8	2nd Year Options: Software Development, Machine Learning and Artificial Intelligence, Cloud Computing
9	2nd Year Options: Electronic Engineering or Engineering Software
10	On application choose from: International Business (INB), Management (MGT) or Marketing Management (MKT)
11	Students enrolling on the course must undergo Hepititis B vaccination
12	With later specialisation in: Automation Engineering or Mechanical Engineering

A	At least H4 in one of: French, German, Irish, Italian or Spanish
B	At least H4 in one of: French, German or Spanish
C	Or at least H4 in Applied Mathematics if combined with a minimum grade of H6 in Mathematics
D	At least O6/H7 in Chemistry, Physics & Chemistry or Biology
E	At least O4/H7 in one of: Physics, Chemistry, Physics & Chemistry, Biology, Agricultural Science, Home Economics, Applied Mathematics or Engineering
F	At least a H4 in one of: Physics, Chemistry, Physics & Chemistry, Biology or Technology
G	At least H4 in one of: Physics, Chemistry, Physics and Chemistry or Biology
H	At least H4 in Chemistry
I	At least H4 in one of: Applied Mathematics, Physics, Chemistry, Physics & Chemistry, Biology, Mathematics, Agricultural Science, Engineering, Technical Drawing, Technology or Design and Communication Graphics
J	At least H4 in one of: Physics, Chemistry, Physics and Chemistry, Biology, Agricultural Science, Engineering, Technology or Applied Mathematics
K	At least H4 in one of: Applied Mathematics, Physics, Chemistry, Physics and Chemistry, Biology, Computer Science, Agricultural Science, Engineering, Technical Drawing, Technology or Design and Communication Graphics
L	At least H4 in one of: Mathematics, Applied Mathematics, Physics, Chemistry, Physics and Chemistry, Biology, Agricultural Science, Engineering or Technology
M	At least O4/H7 in one of: Physics, Chemistry, Physics & Chemistry, Biology or Agricultural Science
N	At least O4/H7 in one of: Physics, Chemistry, Physics & Chemistry or Biology, Applied Mathematics, Home Economics or Agricultural Science
O	At least O4/H7 in one of: Physics, Chemistry, Physics & Chemistry or Biology

*	Applicants will be advised of and must attend an interview and/or suitability test
∩	Direct Application to TU Dublin, not on CAO. Students will be advised and must attend a suitability interview
#	Students must undergo Garda Vetting
Δ	Garda Vetting required for some but not all placements
Ω	Applicants will be advised of and must submit a portfolio in March
¶	Applicants will be advised of and must attend an audition/interview in March/April
X	Or Applied Mathematics
†	Includes score for suitability test/interview/portfolio/audition
$	Includes minimum score of 110 for interview and aptitude test
AQA	(All Qualified Applicants) All applicants who met the minimum entry requirements for the course were offered a place
∞	Anyone with a medically diagnosed food allergy (note: not a food intolerance) should be aware that, in this programme, you will come in contact with food

Alumni Suntasacha

Notable Alumni

Considering the rich history and heritage of our legacy institutions, TU Dublin has been a trailblazer in technological higher education for over 130 years. Our alumni's impact on innovation, economic and social development and culture and education, both in Ireland and worldwide, is undeniable. As we move forward, TU Dublin continues to adapt, meeting the changing needs of Ireland in the 21st century.

New Course

Bachelor of Arts (Honours)

Our new Bachelor of Arts (Honours) programme will start in September 2026. With future skills in mind, this course covers a wide and varied range of subjects across multiple disciplines that will help build skills in creative problem-solving, analytical thinking, adaptability, collaboration, and effective communication. It's designed to be very flexible, allowing students to create their own learning journey by exploring different subjects, both traditional and new.

This is not a typical Arts course. It's a future ready, four-year programme that lets you mix and match subjects as you explore a broad range of topics and try out new ideas. It will support you in figuring out what you're passionate about learning as you go, whether that's media, law, computing, languages, social sciences, or even business or music. You'll benefit from our unique one-to-one advisory support every year, with two guaranteed sessions a year with an academic adviser to help you at every step of your academic journey.

These four years will give you more time to explore different subjects, discover new interests, and develop a range of valuable skills like critical thinking, communication, and problem-solving. Opting for a four-year arts degree over a three-year degree encourages a deeper, more well-rounded education, and better prepares you for a future where jobs are constantly changing. As a graduate you'll be more adaptable which will open the door to more career options down the line, even for jobs that don't exist yet!

Flexibility
Choose from a wide range of subjects that match your interests and goals

Creative & Practical
Gain skills like critical thinking, communication and teamwork

Real World Experience
Learn by doing, with hands-on projects and structured work placements

What Makes it Different?

- Lots of Flexibility: Choose subjects that suit your interests and future goals
- Small Classes: Get support from expert lecturers who get to know you
- Real-World Experience: Learn by doing through hands on projects and optional placements
- Choose from a wide range of options from across the University, subject to timetable availability
- Creative and Practical: Develop skills like critical and creative thinking, communication, and teamwork that employers want.
- Chance to study abroad
- 1:1 advisor support at each stage of the degree to help you make your choices
- 18 months to explore options before choosing your major stream.

Who is it For?

This course is great for students who are:

- Looking for intellectual exploration and learning across multiple disciplines
- Keen to develop skills for the careers of tomorrow
- Looking for more choice on their student journey
- Seeking a transformational educational experience
- Looking for space and time to consider their preferred career path
- Want to build a strong foundation for postgraduate studies.

For example, whether you want to work in media, technology, education, public service, corporate services or the creative industries or continue on to further post-graduate study, this degree will help you to build the foundation you need to prepare you for the world of tomorrow.

What You'll Learn

The Arts Degree is broken down into three parts:

⌐ Core Curriculum

⌐ Choice of Major stream

⌐ Choice of Minor options and/or electives

Almost 90% of the programme is chosen by you within the pathways available.

Major Options

Students will have the option to choose from a range of majors, with the option to finalise your majors in Year 2

Beverage Studies	Graphic and Spatial Design
Business	Irish Cultural Studies
Computer Science	Languages
Art Practice and Visual Culture	Mathematics and Statistics
Events, Sports and Tourism	Media
Food & Nutrition Studies	Music
Economics	Hospitality

Minor Options

In addition to minor streams in the same areas as the majors already listed, students will have the option to choose from minors such as those listed below:

Audio and Podcasting	Food Creativity and Wellbeing
CAD and Techical Drawing for Interior Design	Food Entrepreneurship
Creative Industries	Health and Safety Management
Cinema, Literary & Cultural Studies	Management
Data Science and Artificial Intelligence	Photography
Energy Management	Architecture, Technology & Environment

You can view the full list of Core Subjects, Majors and Minors on our website
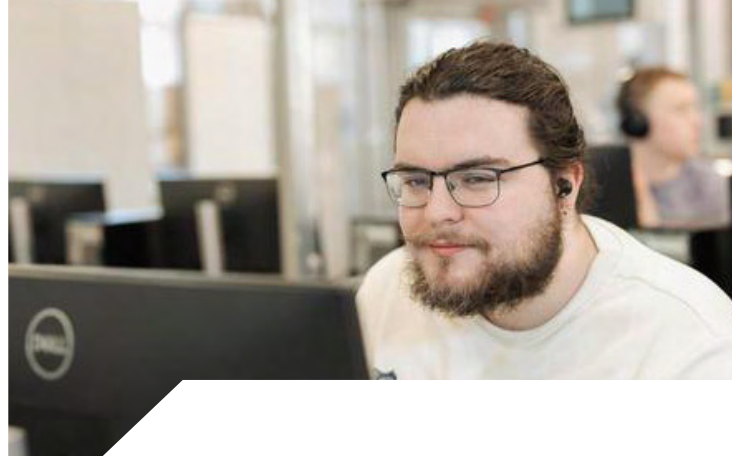

Developing Future Skills That Employers Want

The Future of Jobs Report 2025 by the World Economic Forum highlights a fast-changing employment landscape, where roles are evolving, new industries are emerging, and adaptability is key. In this context, Arts graduates are more relevant than ever.

Employers seek out graduates with transferable skills such as creative problem-solving, analytical thinking, adaptability, collaboration, and effective communication – all of which are at the core of this programme. These skills are essential in our world where many of tomorrow's jobs don't yet exist.

Graduates of our Bachelor of Arts (Hons) programme will be equipped to thrive in a wide range of careers in both established and emerging sectors e.g.:

⌐ Journalism & Media

⌐ Public Policy & Advocacy

⌐ Education & Research

⌐ Business & Management

⌐ Law & Human Rights

⌐ Creative & Cultural Industries

⌐ Non-Profit & International Development

⌐ Technology & Emerging Fields

⌐ Corporate and Public Services

Additionally, the degree lays a strong foundation for postgraduate study in Ireland and internationally, including Master's, MPhil, and PhD programmes.

This is a degree designed not just for the jobs of today, but for the opportunities of tomorrow. You'll graduate ready to adapt, lead, and thrive in a complex, constantly evolving world. To find out more about our new Bachelor of Arts programme, please visit our website at tudublin.ie/arts.

Gráinseach Gormáin
Grangegorman

Our campus at Grangegorman, which is the largest investment in Higher Education in Ireland in over a century, brings together many of our Dublin city activities in one vibrant, cutting-edge campus, providing our students with an incomparable educational experience.

Grangegorman has beautifully restored a historic part of Dublin city, based in the heart of the city between Smithfield and Stoneybatter, with entrances from Broadstone, Stoneybatter and North Circular Road. The campus is the beating heart of this area.

The campus currently accommodates 10,000 students in our new buildings, the East Quad and the Central Quad, which will grow to 15,000 in the coming years with the opening of the West Quad.

The newly built Academic Hub & Library houses the library and learning spaces for the campus, including the Career Development Centre, Maths Learning Centre and Disability Support Service.

In keeping with our commitment to sustainability, TU Dublin is committed to promoting sustainable modes of transport. The campus is fully pedestrianised, and we encourage using public transport to access the campus.

Sráid Aungier
Aungier Street

Our Aungier Street campus, one of three Dublin City Centre locations in the heart of South Dublin, specalises in business related courses.

The campus, located on a 26,000sqm site on Aungier Street in Dublin 2, is built on the historical site of the former Jacob's factory. The campus is close to the Green Luas line stop at St Stephen's Green and a range of cross-city Dublin Bus routes stop outside the campus, including the 14, 15, 16, 65, 140 and 142. The campus is a five minute walk from Dame Street, which is also serviced by a multitude of bus routes.

The Aungier Street campus is planned to relocate to Grangegorman following completion of the West Quad, currently estimated for the end of 2029. Students beginning their programmes in 2026 are expected to complete their studies at Aungier Street.

Sráid Bolton
Bolton Street

Our Bolton Street campus has been a centre for technological education for over 100 years. This three-storey neo-classical building was designed by CJ McCarthy and was built in 1908. It has since been extensively extended and retains many of its ornate features.

Specialising in the areas of Engineering and the Built Environment, the campus is fully equipped with computer and electronic labs, lecture theatres with the latest audio-visual equipment and learning aids, fully equipped workshops, a library, restaurants, students' union area, and student recreation area.

Bolton Street is centrally located, just a five-minute walk from both O'Connell Street and the Grangegorman campus, is serviced by a wide choice of public transport options.

Tallaght

Our Tallaght campus, based in South West Dublin, is home to over 5,000 students. The campus is located on an 18-hectare site between Old Blessington Road, Belgard Road and Greenhills Road in Tallaght, Dublin 24.

The campus is fully equipped with lecture theatres comprising of the latest audio-visual equipment and learning aids, science, electronic and computer labs, state-of-the-art culinary kitchens, restaurant, library, coffee shop and students' union area.

By September 2025, the University will open Tallaght North Block, a new facility for hospitality, culinary arts, engineering and apprenticeship students. This follows the recent opening of a Sports Science, Health and Recreation building, which offers state of the art facilities such as laboratories, a fitness suite, an exercise medicine laboratory, a sports hall, and additional lecture theatres.

Careers Shaped by Industry

Practice Makes Professional

From day one, you'll be learning by doing, whether that's in cutting-edge labs, professional kitchens, media studios or real workplace settings. Our programmes are built around hands-on experience with internships, industry projects, simulations and live briefs that give you the tools to thrive in your chosen field. You won't just earn a qualification you'll graduate with experience, confidence, and career-ready skills that employers are actively seeking.

Leading in WorldSkills

TU Dublin leads Ireland's participation in WorldSkills, the global competition often called the "Olympics of Skills." Whether it's cloud computing, culinary arts, or creative design, our students compete and win on the international stage, building the professionalism, adaptability and performance under pressure that top employers value.

"At TU Dublin, we believe in empowering students through practical excellence. Partnering with WorldSkills allows us to champion world-class standards and inspire the next generation of skilled professionals to innovate, compete, and lead on a global stage."

Ray English, Board Member
Strategic Development
WorldSkills International

Built with Industry, Backed by Employers

At TU Dublin, we don't just teach about industry we build with it. Our programmes are co-designed with employers like Amazon, Microsoft, Diageo, and Fidelity, ensuring every module is aligned to what the workforce actually needs. You'll learn from lecturers who bring real-world expertise, backed by guest lectures, site visits, live projects and career mentoring that connect your classroom to your future.

Our graduates are leading the way in the job market. The latest Higher Education Authority statistics show that our unique practice-based model delivers results:

78%
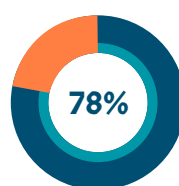

78% of our Level 8 (Honours Degree) graduates are in full-time employment within just nine months of finishing, ranking TU Dublin #1 for employability in Dublin and #2 nationwide

82%
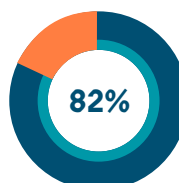

82% of our taught postgraduate graduates have secured full-time roles, again placing us #1 in Dublin and #2 in Ireland

Flexible Pathways

We meet you where you are and help you build a future that works for you. Whether you start with a Level 6 or go straight into a full Honours Degree, our step-by-step progression options let you move forward at your pace. With part-time, full-time, and earn-as-you-learn models, you'll find a route that fits your life, your goals, and your schedule.

Skills for Today, Ready for Tomorrow

Our programmes are aligned with the World Economic Forum's Future of Jobs Report 2025. Equipping our students with the core capabilities in demand today, and the skills that will shape the future of work. Our graduates are prepared to thrive in a rapidly evolving global economy. At TU Dublin your future skills are built today.

Core Essentials

- Analytical Thinking
- Resilience, Flexibility & Agility
- Leadership & Social Influence

Fastest Growing Skills

- AI & Big Data
- Cybersecurity
- Creative Thinking
- Curiosity & Lifelong Learning
- Resilience & Collaboration

Graduate with the Edge

Your education goes far beyond the lecture hall. Our programmes are designed to produce confident, career-ready graduates by embedding practical, industry-focused experience directly into the curriculum.

- Work Placements
- Employer Events
- Practice-Based Projects with real companies
- Careers Fairs
- Guest Lecturers
- Simulated Work Environments
- Career Coaching
- Masterclasses

Career Development

Our career counsellors work one-on-one with students to help identify career goals and build the skills and connections to reach them, supporting them with:

- Career Coaching
- CV Resources
- Interview Preparation
- Job and Internship Portal
- Career Planning Workshops
- Graduate support up to two years after graduation

Iarratasóirí QQI
QQI Applicants

At TU Dublin, we believe in multiple pathways to success and the QQI route is one of the most effective. If you're completing a QQI Level 5 or 6 course and want to progress to higher education, TU Dublin offers one of the widest and most welcoming pathways in the country.

Why Choose TU Dublin as a QQI Applicant?

✓ 97% of our undergraduate programmes have a QQI entry route

✓ We reserve places specifically for QQI applicants, you are not competing with Leaving Cert students

✓ TU Dublin uses the dedicated QQI points system, which is completely separate from the Leaving Certificate scale

✓ QQI students are highly successful at TU Dublin, coming in well prepared and thriving academically

TU Dublin Leads the Way
In 2024, TU Dublin made 23% of all QQI offers in Ireland making us the largest destination for QQI applicants nationally

Different Entry Route
QQI applicants are not competing with Leaving Certificate students. Places are reserved for QQI applicants on 97% of our courses

Points System
QQI points are calculated differently from the Leaving Cert. You are assessed on your QQI results only

A Clear Pathway to a University Degree

Whether you're studying Business, Science, Social Sciences, Engineering, Computing, or the Arts, there's a clear QQI pathway into TU Dublin. Our practice-based, applied learning environment is an excellent match for the experience QQI students bring.

What to Do Next?

⌐ Visit tudublin.ie/qqi to explore your course options

⌐ Make sure you are completing a full QQI Level 5 or Level 6 award (usually 8 modules)

⌐ Apply through the CAO using your QQI award. You'll be assessed separately through the QQI entry route

At TU Dublin, we're proud to support students from all backgrounds and we know QQI learners bring talent, ambition, and strong potential. If you're ready to take the next step, we're ready to welcome you.

Need More Information?
Join us for our QQI Information Webinar on **22 January 2026**. Visit our CAO Hub for the latest updates.

Mic Léinn Aibí
Mature Students

Whatever your reason for coming back to education, to update your skills, gain a new qualification, achieve a personal goal or ambition, etc. TU Dublin has a range of supports in place to help you decide what course to take, get through the application process and get settled into college life.

Who Qualifies as a Mature Student?

To be considered a mature student, you must:

- Be 23 years of age or older on or before 1 January in the year you apply
- Be an Irish or EU citizen

How to Apply?

Applications are assessed holistically, taking into account your academic background, work experience, and supporting documentation submitted with your CAO application.

Some applicants may be invited to complete a suitability test and/or interview, especially if they are not applying based on a Leaving Certificate or a QQI Level 5/6 award.

When writing your personal statement, consider addressing the following:

- Your research into the courses you are applying for
- Any recent study or preparation for higher education
- Relevant work experience or training
- Your understanding of the challenges of full-time study (e.g. workload, finances, lifestyle changes)
- Your career goals and motivations

For full details on how to apply as a mature student, visit tudublin.ie/mature.

Application Deadlines

We strongly recommend applying to the CAO by 1 February. Late applications (excluding restricted courses) are accepted up to 1 May, but availability is limited, especially for high demand courses.

"As a mature student, I returned to education to find a fulfilling career path, and TU Dublin helped make that possible. The course content, especially the Sociology and Communication modules, along with group projects, gave me practical skills and deeper insight into working with service users.

The support from both lecturers and classmates was incredible, creating a strong sense of community. I also had the opportunity to represent my course as a student ambassador, which was a proud moment.

It's challenging, but the knowledge and personal growth are lifelong. Get involved in campus activities and volunteer when you can – that's where lasting friendships begin."

Georgina Brassil - Applied Social Studies in Social Care

Foghlaim + Obair
Learn + Work

Not sure whether to choose an apprenticeship or University? TU Dublin's Learn + Work courses combine the best of both; University-level education and practical, paid work experience. These programmes are designed to fast-track your career by helping you develop real-world skills alongside your academic learning.

Students split their time between study blocks on campus and work placements with industry partners. This unique model allows you to build professional experience, earn while you learn, and graduate work ready.

Our students undertake work placements with our Industry partners, which include the following companies: Alexion, Bonner, Bristol-Myers Squibb, Eir, EMR Integrated Solutions, Fujifilm, Intel, McL Automation, Microsoft, SGS Gas Analysis Services, Vodafone, West Pharmaceutical Services.

"I wanted a mix of hands-on work and college life, and this course has delivered exactly that. I really enjoy the networking modules as it lets us get hands on experience with CISCO equipment that is used in different environments in the IT world"

Jamie Cullen - Computing Networking Technologies

Tertiary Education Programme

TU Dublin is proud to introduce a groundbreaking new degree programme as part of Ireland's National Tertiary Offering: **Bachelor of Arts (Honours) in Politics, Society and Media**.

Developed through a national collaboration between Further Education and Training (FET) and Higher Education (HE) providers, the tertiary programme offers a seamless route from local colleges into degree-level study.

This route is designed to make higher education more accessible with smaller class sizes, lower costs in the first two years and built-in support every step of the way.

You do not pay university tuition fees in Years 1 & 2. Once you move to TU Dublin in Year 3, standard HEA fees and student grant supports apply.

CAO Points
No CAO Points required for entry

Years 1 & 2 study at either:

⌐ City of Dublin FET College Rathmines

⌐ City of Dublin FET College Ballyfermot Road

⌐ Blackrock Further Education Institute (BFEI)

For Years 3 & 4:
Continue your studies at TU Dublin

For Further Information please visit our website

Bealaí Eile Iontrála
Alternative Entry Routes

Higher Education Access Route (HEAR)

HEAR is a third level alternative admissions scheme for school leavers who have experienced socio-economic disadvantage. HEAR offers places at lower points to school leavers who, due to their socio-economic background, have experienced additional educational challenges in second level education. Eligible applicants who are offered a place through the HEAR route will receive academic, personal and social supports in TU Dublin. For more information, check out accesscollege.ie/hear.

Disability Access Route to Education (DARE)

DARE is a third level alternative admissions scheme for school leavers whose disabilities have had a negative impact on their second level education.

DARE offers places at lower points to applicants who as a result of having a disability have experienced additional educational challenges in second level education. Once you have accepted your place, additional supports will be provided to assist you in your studies in TU Dublin. For more information, check out accesscollege.ie/dare.

Access TU Dublin

Access TU Dublin is a flexible entry route aimed at school leavers from socio-economically disadvantaged backgrounds, who would like to study a full-time undergraduate course at TU Dublin. Eligible students are advised to apply for both the HEAR and Access TU Dublin entry routes. For more information visit tudublin.ie/access.

QQI Access TU Dublin

QQI Access TU Dublin, is an entry route aimed at students, from a socio-economically disadvantaged background, who have already completed a QQI Level 5 or 6 course and are applying to TU Dublin through the Higher Education Links Scheme (HELS). For more information visit tudublin.ie/access.

Access Foundation Programme

Our Access Foundation Programme (TU699) is a multidisciplinary one year full-time course that prepares students to pursue undergraduate study at TU Dublin. Students who successfully complete the course will be offered a place on an appropriate undergraduate course at the University.

We provide a wide variety of supports to help students adjust to university life so that you gain maximum benefit from your time with us. This course is not offered on the CAO, instead applications are made directly to TU Dublin. Further information on how to apply is available at tudublin.ie/access.

Advanced Entry

If you've got relevant qualifications or work experience, you may be eligible to start in Year 2 or later of an undergraduate course, this is called Advanced Entry.

How to Apply (EU Applicants)

- Check course pages on our website to see if Advanced Entry is offered
- Apply through the CAO
- Closing Date: 12 July (earlier for high-demand courses)

What You'll Need

- Copies of QQI Level 5 or 6
- BTEC or other relevant qualifications
- Higher Education transcripts
- A CV with relevant experiences and references
- A personal statement
- Proof of English (if it's not your first language) See tudublin.ie/elr.

Offers are emailed via the CAO in July and August, based on availability and merit.

For queries regarding Advanced Entry, please contact admissions@tudublin.ie.

Athlete Support Programme

The TU Dublin Athlete Support Programme is one of Ireland's most highly respected athlete support pathways. Designed to help talented students balance their academic and sporting commitments, the programme provides access to high-performance training, performance support services and academic mentoring.

In recognition of our commitment to dual career development, TU Dublin has again achieved ASAS Accreditation from the Sport Ireland Institute for the period 2024–2026. This year, over 300 elite athletes across 32 sports are being supported through our university-wide Athlete Support Programme.

How to Apply?
Applications for the Athlete Support Programme for the 2026-27 academic year open on 1 February 2026 and the closing date for receipt of applications is 1 June 2026 at 5:00pm.

Applicants must also apply for a TU Dublin course via the CAO and complete an Athlete Support Programme online application form.

Criteria
- Meet CAO admission requirements and register for a TU Dublin course, or be a current student
- Accept a TU Dublin course via the CAO and complete registration
- Compete at regional, county, national or international level in a Sport Ireland recognised sport
- Commit to representing TU Dublin in the relevant competitive pathway, where possible
- Maintain satisfactory academic and sporting performance to renew the scholarship annually

Benefits of an award may include:
- Fee Waivers
- Accommodation Support
- Academic Entry (Additional CAO points)
- Financial Support
- Access to High Performance Training facilities
- Dual Career Support
- Academic Mentoring
- Strength and Conditioning
- Sports Nutrition
- Performance Skills Workshops
- Sports Mentoring
- Physiotherapy
- Career Guidance Support

Dul Chun Cinn
Progression

Moving from Level 6/7 to Level 8

If you're thinking about college but feeling unsure about the points or the pressure to get into a big university straight away, don't worry there's more than one way to get your degree. Unlike traditional universities, TU Dublin offers a flexible and supportive way to move from a Level 6 or Level 7 course to a full Level 8 degree, which is the same as a standard Honours Degree.

A More Flexible Path

Most universities in Ireland expect you to jump straight into a Level 8 course, which often means high points and a lot of pressure. TU Dublin does things differently. We understand that everyone learns at their own pace, and not everyone's journey is the same.

Here, you can start with a Level 6 (Higher Certificate) or Level 7 (Ordinary Degree) course. If you do well, you'll often be able to move straight into the third year of a related Level 8 course. It's like climbing a ladder, one step at a time instead of having to leap to the top all at once.

For instance, students who start with a Level 6 Higher Certificate or a Level 7 Ordinary Degree at TU Dublin have the opportunity on many courses to progress to a Level 8 Honours Degree. This progression is often seamless, with many students entering directly into the third year of a related Level 8 course, depending on their academic performance. This pathway not only enhances accessibility but also provides students with the time to mature academically and personally, setting them up for greater success at the Level 8 stage.

We support all our students, no matter where they come from or how they start. Whether you go straight into a Level 8 course or work your way up from Level 6 or 7, you'll be supported every step of the way both in your studies and in your personal growth.

Progress to Level 8

Year 1 · Year 2 · Year 3 · Year 4 · Graduate with Honours Degree

Progress to Level 7

Year 1 · Year 2 · Year 3 · Graduate with Ordinary Degree

OR

Commence Level 6

Year 1 · Year 2 · Graduate with Higher Certificate

OR
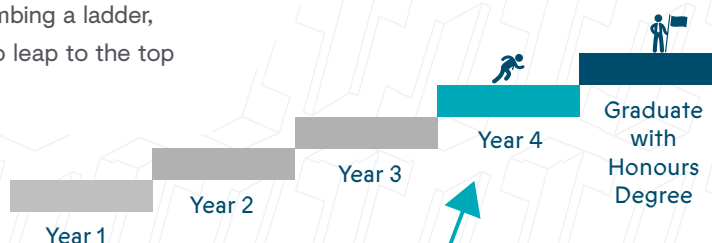

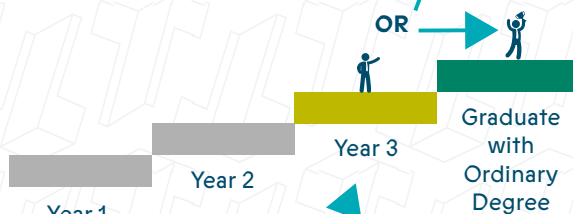

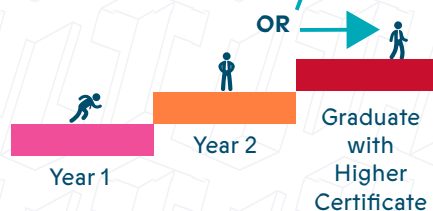

Progression is only possible to Year 3 on some Level 8 courses.
Direct progression to Year 4 is dependent on exam results.

Táillí 7 Tacaíochtaí Airgeadais
Fees & Financial Supports

Fees at TU Dublin

Fees are set annually by the Department of Education. For 2025, most EU nationals starting their first full-time undergraduate course only need to pay the student contribution fee of €3,000* per year, if they meet residency requirements. This fee covers essential student services.

If you've already completed a third-level course, you may also be liable for tuition fees, depending on your previous study.

Additional fees may be required for class equipment such as first aid, tool kits and culinary sets.

Financial Supports

The TU Dublin Foundation supports current TU Dublin students with a wide range of scholarships and awards thanks to generous donors, alumni and partners.

In the 2024–25 academic year so far, €205,654 has been awarded to 138 students across 45 different programmes. These supports help students stay focused on their studies, not financial stress.

- **Scholarships:** Typically based on financial need or personal dedication. Some offer up to €3,000 per year.
- **Awards:** Recognise exceptional academic or project work, usually €500 – €1,000.

Open only to registered TU Dublin students, the application process is straightforward and may include a personal statement, portfolio, or interview.

Explore opportunities at tudublin.ie/scholarships or email foundation@tudublin.ie for details.

SUSI (Student Universal Support Ireland)

SUSI grant applications open in April each year. You don't need to have applied to college to apply for a grant, so we recommend applying early.

Visit susi.ie in early 2026 to check opening dates and assess your eligibility.

Payment Options

1. **Full Payment** at registration
2. **Instalments:**
   - 25% at registration
   - 25% by 31 October
   - Remaining balance by 31 January
3. **SUSI Applicants:** No payment needed at registration while awaiting a decision. Just provide your SUSI reference when registering.

For Further Information regarding Fees & Grants please visit our website

Lóistín
Accommodation

One of the biggest decisions some students will have to make when you become a student is where you will live in Dublin. Finding a suitable place to stay while you study is essential, we are here to guide you through the available off-campus options and alternatives.

Choosing your Location
Our campuses are spread across Dublin, including the city centre, Blanchardstown, and Tallaght. When deciding where to live, it's important to consider transportation options (such as public transport, walking, or cycling routes), nearby amenities, housing costs, and the overall atmosphere of the area.

Before choosing your accommodation, use Google Maps to explore the available transport links to your campus. Living near your campus not only makes commuting more affordable and convenient, but it also supports sustainability and contributes positively to your student experience.

On-Campus Accommodation
Although we currently do not offer on-campus accommodation, we provide a wide range of host family and PBSA options to suit your needs.

Choosing the right accommodation can greatly enhance your university experience. If you have any questions or need assistance, feel free to reach out!

Important: Do not pay a deposit on any private rented accommodation until you have seen the accommodation in person or have asked someone known to you to visit the property. Use services like Secureprop for rental scam protection.

Host Family Accommodation
Host families offer rooms in their homes with flexible stays, ranging from 5 to 7 days a week, with options for shorter durations to meet different needs. Under our new rent cap policy, monthly rents range from €500 to €750. Payment is typically made for the weeks during the academic term.

- The cost includes utilities, so you won't need to transfer bills into your name
- Some host families provide a light breakfast or evening meal
- Flexibility in start and end dates

Ideal for first-year students for reasons such as cost, comfort, security, and parents' peace of mind.
A warm, homely atmosphere makes it a great option for easing into independent living.

You can find host family accommodation on tudublinstudentpad.ie. Incoming students can register using '1234' as their student number but must email studentaccommodation@tudublin.ie for access confirmation. Before committing, always visit the home in person and never pay a deposit before meeting the host and viewing the room.

Purpose-Built Student Accommodation (PBSA)
PBSA offers a living experience designed specifically for students, fostering a supportive community for both academic and social well-being. TU Dublin has partnered with Mezzino Student Living, providing exclusive access to a selection of rooms in several prime city locations.

To register your interest, visit Mezzino Student Living. https://www.mezzino.com/tudublin-accommodation-partner/

Cad a deir ár gcuid mac léinn
What our students say...

Dillon Slattery Lopez - Mechanical Engineering

I've always dreamed of working in F1, and studying Mechanical Engineering at TU Dublin is a step toward that dream. The experience has been brilliant so far, I've genuinely enjoyed nearly every part of the course and Engineering Drawing has stood out as a favourite module. Beyond the classroom, I've gotten involved in a range of activities that have made my time here even more rewarding. As a Student Ambassador and a member of the Enactus Team, my personal skills have developed. Working with the Growth Hub has been a great for developing entrepreneurial skills and meeting like-minded students. If you're passionate about engineering and want a well-rounded college experience, this course has everything you need.

Sorochi Akhamefule - Marketing

The course exceeded my expectations through its diverse teaching methods, engaging projects, and supportive environment that boosted my confidence. The Communications module, with debates and presentations on relevant topics, helped me overcome my fear of public speaking. Smaller class groups also made it easier to participate. One highlight was the Marketing module, where we ran a digital business simulation, developing and promoting a product while competing with classmates. It was both fun and educational, giving me the chance to apply what I learned in a practical, interactive way.

Alex Anthony Dela Cruz - Digital Forensics and Cyber Security

I chose this course because I've always had a curious mind and an interest in computers, and I wanted to turn that curiosity into a career. I never really liked building projects but rather analysing them and delving deeper into a system. The course has been incredibly satisfying, especially when I can apply what I've learned in real-world scenarios. The group thesis has really developed my interest into radio access technologies. Out of the classroom, I've also enjoyed being part of MMA and badminton clubs. My advice? Don't do this just for the money talk to your lecturers, build relationships, and you'll get so much more out of it.

Charlie Beaudelot - Human Nutrition and Dietetics

I've always been fascinated by how nutrition impacts our health, and this course brings that science to life, especially through hands-on culinary sessions and real-world placements. Clinical Chemistry was a standout module, offering real insight into the biology behind nutrition. Outside class, I've stayed active with the SVP Society, Student Union, and youth organisations like SpunOut and NYCI. It's a challenging course, but packed with rewarding opportunities.

Róisín Norris – Planning and Environmental Management

This course gave me the chance to explore both planning and environmental management in first year, before deciding which to specialise in. Studying both subjects is so useful as they regularly cross over the working world. The field trips were great and made everything more engaging and hands-on. TU Dublin has been incredibly supportive, offering everything from academic writing workshops to the laptop loan scheme. Plus the Bolton Street campus is right in the heart of the city, which makes commuting easy.

Thomas Kelly – Business and Law

This course was a perfect fit for me, combining my interests in both business and law. It's given me a solid grasp of how these two worlds connect in practice. I've especially enjoyed modules like Contract Law and Organisational Behaviour, they've been both insightful and fun. The lecturers at TU Dublin are passionate and bring great real-world perspectives. Outside the classroom, I've loved getting involved as PRO for the Horror Society and soon for the Boxing Club, they've been a huge part of my student life. My top tips? Start reading legal cases early and get stuck into campus life it makes the experience so much better.

Paula Valentina Garlito Gutiérrez – Automation and Robotics

I've always been really curious about how things work, especially when it comes to technology and systems that have a real impact on our daily lives. That's what made me choose this course. I wanted to challenge myself, keep learning, and eventually contribute to something meaningful. What I've enjoyed most is how hands-on the course is. We're not just sitting in lectures we're building, testing, and seeing our ideas come to life. Be ready to put in the work, because some parts can be challenging, but it's definitely worth it. Don't be afraid to ask questions, get involved in projects, and take every opportunity to learn beyond the classroom.

Student Life

At TU Dublin, life goes way beyond the classroom. We have support to help you make the most out of student life, from clubs and events to volunteering and student-led adventures.

Societies That Spark Your Student Life

With over 120 student-led societies, there's something for everyone. Joining a society is one of the best ways to meet new people, explore your interests, and make university life even more rewarding. Here's just a taste of what's on offer or check out the full list at mystudentlife.tudublin.ie.

- Academic / Course Related
- Arts / Cultural / Languages
- Business / Enterprise
- Gaming / Technology
- Performing Arts
- Political / Campaigning & Debating
- Religious / Faith-Based
- Special Interest / Social
- Student Media
- Volunteering / Civic / Charity

Volunteer Your Time - Make a Real Impact

Volunteering is a brilliant way to use your talents, meet new people, and make a positive difference. You can get involved in a wide range of projects through the following volunteering societies and events, or learn more at studentvolunteer.ie/tudublin.

- SVP Society
- Sustainability Society
- Enactus Society
- Volunteering Fairs
- Annual Christmas Appeal
- Student Volunteering Awards
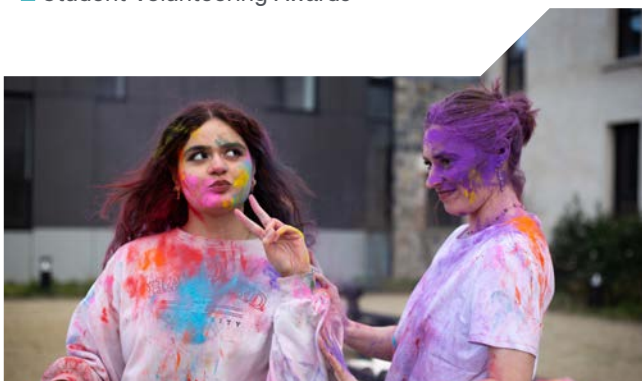

Students' Union - What the SU Can Do for You

The TU Dublin Students' Union (SU) is the official voice of students across all campuses. It exists to support students, represent their views, and help make college life as rewarding as possible. Led by elected student officers, the SU works to create real change, from tackling financial pressures to promoting inclusion and diversity. Whether students want to make a difference, meet new people, or just get the most out of their time at TU Dublin, the SU is there to help. Here's how:

- Supports Class Reps to represent student views
- Gives students a voice in university decisions
- Runs campaigns on key student issues
- Organises events and activities across campuses
- Offers confidential advice and support

Study or Work Abroad with Erasmus+

Fancy spending a semester or even a whole year living in another European country? With Erasmus+, you could study at a partner university or take on a traineeship with a company abroad, all while earning credit towards your degree and living a little differently. If your course includes Erasmus+, this is your chance to:

- Explore a new country as a local, not just a tourist
- Live in a new city and make international friends
- Try new food, new cultures, new ways of life
- Learn (or improve) another language
- Gain global experience that looks great on your CV
- Build confidence, independence and unforgettable memories

It's a life-changing opportunity that combines travel, learning, and personal growth. Find out more at tudublin.ie/erasmus.

Seirbhísí 7 Folláine na Mac Léinn
Student Services & Well-being

Your success at TU Dublin is inextricably linked to your health. We try to create a culture that supports healthy choices, and will empower you to actively look after your own health.

As you start third level, you'll be learning how to manage your lifestyle, creating lifelong habits and attitudes that help to determine your learning, social and emotional growth, health awareness and well-being.

Student Health Centres

Our Student Health Centres provide a holistic approach to health, providing on-campus health care to students. Our service incorporates physical, psychological and social aspects of student health and health promotion.

Counselling Service

The Student Counselling Service is available free of charge to all registered students at TU Dublin, and offers the following confidential supports for a wide range of psychological, mental health, and academic issues:

- One-to-one therapeutic counselling
- Skills sessions to manage specific challenges e.g; anxiety management, procrastination
- Group programmes for ADHD, body acceptance, managing emotions
- Peer Support from trained students
- Online supported mental health programmes via the SilverCloud platform
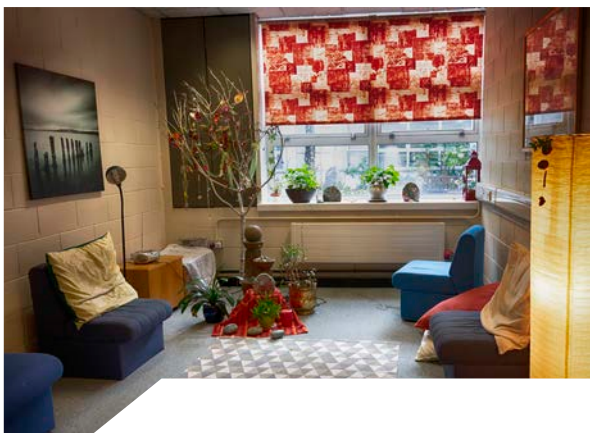

Disability Support Service

The Disability Support Service aims to ensure that any student with a disability does not experience educational disadvantage and that all students can access and equally participate in and benefit from educational opportunities in our University. The Disability Support Service provides confidential one-to-one needs assessments to all students registered with the service. Following this the relevant supports are put in place based on the recommendations of these needs assessments to enhance the educational experience.

Pastoral Care and Chaplaincy

Students come to the Chaplaincy to:
- Talk to one of the chaplains confidentially
- Seek conversation and support
- Enjoy a place of hospitality & kindness
- Meditate or pray in the Quiet Room
- Enjoy a break between classes
- Experience inter-cultural and religious exchange

Online Resources for Wellbeing

TU Dublin subscribes to Silvercloud - a service offering programmes designed to help you improve and maintain your well-being by addressing underlying issues that can have a negative impact on how you would like to live your life. Based on years of clinical research, the programmes are interactive and delivered via an online user-friendly platform.

Sport at TU Dublin

Sports & Fitness Facilities

TU Dublin offers a diverse selection of high-quality sport, fitness and performance facilities. Whether you are a recreational gym user, team training, participating or competing in sport, our sports facilities and programmes will cater for you.

Our facilities have achievied outstanding awards under the National Quality Standard award (NQS) accredited by Ireland Active. We deliver top class facilities for all our users and provide athletes with the perfect environment for success.

- Synthetic and Natural Grass Pitches
- FIFA approved all-weather soccer pitches
- GAA Synthetic Pitch including Hurling Skills wall
- Sports Hall catering for Basketball, Badminton, Futsal, Volleyball and more
- Sport Performance Gyms
- Fitness Studios & Dressing Rooms

A Year of Achievement and Ambition

This year has been one of outstanding success, with our student-athletes achieving national and international distinction across a wide range of sports.

- Our students competed at the 2024 Paris Olympic Games, competing in Sailing, Badminton, Rugby 7s, and Men's Hockey.

- GAA teams reached the semi-finals of the Sigerson Cup and Ashbourne Cup, and the final of the Ryan Cup.

- The Men's Premier Soccer Team came heartbreakingly close to a historic league and cup double, losing by just one goal in both finals.

- Six student-athletes represented TU Dublin and Team Ireland at the World University Games in Germany, competing in Taekwondo, Archery, and Tennis.

TrailblazHER™ is an inclusive community empowering young women to thrive in education and the workplace. Through inspiring programmes, real-world industry connections, and leadership opportunities, it supports female talent at every stage, creating impact locally and globally.

Future Trailblazer TY School Programme

Allows TY students to explore careers, build future-ready skills, and connect with real companies. Through interactive workshops and insider industry tours, students discover their strengths, explore future job trends, and get inspired to lead with confidence.

TrailblazHER™ TY Awards

Celebrates TY students making a difference in school, community, or life. Whether you shine in sports, arts, leadership, or overcome challenges, you could win €500 for yourself and €1,000 for your school.

TrailblazHER™ Spotlight Role Models

Showcases real stories from real women doing amazing things across many industries. Their stories highlight diverse career paths and breaks down barriers in a bid to spark ambition in young women.
